Dr. Katora Hatai
Tohoku University
Institute of Geology and Paleontology
Sendai, Japan

Dear Dr. Hatai:

Thank you very much for the package of publications which you were so kind to send to me. I am looking forward to the time when I can sit down and read them carefully.

At present I am working on living and fossil oysters and hope to be able to use your publications to help me.

Very truly yours,

H. B. Stenzel
