As usual, our letters crossed.

On the classification: it occurs to me we could use A a a (3 letters). My mania for subdivision is based on a desire to get a concise and short notation for each word, so that I can use it in "pattern" tables. But we will have to thrash this out.

Y could still be used for inscriptions that are abnormal (perhaps due to scribal errors).
Z I have no idea for yet.

You're welcome any time just ~~let~~ let us know when so that someone is home. This Saturday is O.K. - so is next. On Apr. 9 I may go to Philadelphia, but Mother will be home. Our Easter holiday is Apr. 14-24.

I may be able to get to Yale for the Amer. Oriental Soc. meetings. If so, will let you know (Apr. 5-7).
