August 22, 1948.

Dear Miss Kober,

A friend of mine in Athens, Mr. Boufides, an assistant Curator at the National Archaeological Museum, is interested in pre-Greek writing. He has seen a reference to an article of yours on this subject in Classical Outlook, XXII, but this periodical is not available in Athens. He has therefore asked me if I could get him a copy of the number containing this article. It occurred to me that you might have some reprints of it, and if you could spare one I would be glad to take it to Mr. Boufides when I return to Greece next month. If you can, would you send it to me at the above address?

Sincerely yours,

Eugene Vanderpool
