Dr. Stuart Jenness
Geological Survey of Canada
Ottawa, Ontario
Canada

Dear Dr. Jenness:

The Geology Department is considering an application for an assistant professorship made by Dr. Kurt Servos, who is now at Yale. I understand you knew Dr. Servos when you were at Yale, so I hope you might be able and willing to give me a thorough analysis of his character, personality, and ability. We are not so much interested in a recommendation as in an analysis. You may rest assured that your letter will be kept in the strictest confidence and will not be filed here.

Thanking you for your kind attention in advance.

Very truly yours,

H. B. Stenzel
Chairman
