HISTORICAL CATALOGUE

OF THE

ALUMNI

OF THE

UNIVERSITY OF TEXAS,

1884-1901.

## PREFATORY NOTE.

This Catalogue is issued in the hope of binding more closely together the University and the alumni. Earnest effort has been made to obtain full information, but some of the alumni have been unwilling to send the information desired, while others have disappeared and even their addresses are unknown. Accuracy has been kept constantly in mind, but undoubtedly slips will be found. For these indulgence is asked. If corrections and additions are sent to Registrar Lomax, it will tend to the betterment of future Catalogues. The Catalogue was first intended to fill one number of the RECORD. Its bulk has grown so great that it has become necessary to devote two numbers to it, instead of one. In fact, the matter contained is much in excess of that of two average RECORDS. The value and interest of the Catalogue will, it is hoped, be sufficient to justify in the minds of the RECORD's subscribers the loss of the normal issues.

## TO THE ALUMNI.

An appeal for a more ardent University spirit in the alumni may not be inappropriate in this issue of the RECORD. There is scarcely an alumnus who does not cherish pleasant memories of student life at the University of Texas. And there are probably few who so far failed as students to catch the inspiration of University life that they do not now appreciate as alumni the high duties resting upon them. But while that feeling exists, it has not heretofore been aroused as it should have been into an active concerted force towards University advancement. Doubtless each ex-student has done what he individually could to further University aims. But singly our efforts must needs be feeble. It is through organization that we can accomplish greatest results. So far we have not felt the power that comes from co-operation or have not realized the need of exercising it. Is it not time we should realize it? Our numbers are no longer insignificant nor our members without influence in the professional, political and commercial fields of activity. There are over 1250 alumni scattered throughout the State. Many of them occupy distinguished positions. The organized efforts of this influential body of Texas citizens towards the accomplishment of any proper University purpose can be made irresistible. By concerted action this body can, in its collective wisdom, devise and formulate plans, and, through its far-reaching membership, carry them into execution in a way to dispel all opposition that has heretofore existed, and to popularize as never before with all our people University aims and ideals. By its organized efforts the Association, enthusiastically supported by every ex-student, can accomplish the most liberal legislation in behalf of the University and enable the Regents to congregate as never before in her faculties world-famous leaders of thought.

It is only a question of co-operation, of a thorough organization moved by a spirit of enthusiasm. The measure of the University annual allowance should be determined solely by the recommendations of its governing board, for to no other purpose can the public funds be so profitably devoted. No other expenditure will begin to bring such beneficent and lasting returns. The University's upbuilding and expansion means the uplifting of the whole people.

With the means heretofore provided and against the selfish prejudices and envious opposition that have existed, the past work of the University has been most gratifying, and her growth and development under such circumstances are no less a tribute to the inherent intelligence and wisdom of our people than a sign of the prudence and sagacity of her successive Boards of Regents. But much more work can be accomplished and more quickly through the organized co-operation of the alumni and ex-students. It is our duty to give this co-operation.

We should encourage by our united and zealous support University work in Texas. To do so is to participate in giving to our people loftier ideals

and raising our citizenship to higher standards. The University should be the great central force in the State from which radiates in every direction the highest culture, the most advanced enlightenment and the most liberal progressiveness. In no other way, therefore, can an alumnus exert a more lasting and better influence upon his fellow man than by helping to direct and by assisting to widen University influence. Assuredly upon no one does the duty more strongly rest than upon him. No stranger has, no stranger can have, the disinterested affection for the University that naturally abides within the hearts of her own graduates. They can best appreciate her present needs and more truly comprehend and forecast the broad scope of her future possibilities. And if she has done well her work upon us, it is no disparagement to those who have so far guarded her interests to say that the time is near at hand when her own alumni are best fitted to direct her growth and control her destinies.

Let us from now on unite in the steadfast resolve to make the University the great moral, intellectual and progressive agent in the advancement of the three and one-half millions of people within the borders of our State. Let the next annual meeting of the Alumni Association, by the interest shown and personal participation of all its members, mark a new era in the life of our *alma mater*.

President Alumni Association of University of Texas.

## THE TEXAS STATE HISTORICAL ASSOCIATION.

Organized March 2, 1897.

JOHN H. REAGAN, President.

JULIA LEE SINKS, Second Vice-President.

F. R. LUBBOCK, Third Vice-President.

GEORGE P. GARRISON, Recording Secretary and Librarian.

EUGENE C. BARKER, Acting Corresponding Secretary and Treasurer.

### THE OBJECTS OF THE ASSOCIATION,

as stated in its constitution, are "in general, the promotion of historical studies; and, in particular, the discovery, collection, preservation, and publication of historical material, especially such as relates to Texas."

### THE QUARTERLY OF THE ASSOCIATION

is sent free to all members. The subscription price to others is two dollars per year, or fifty cents per number. The Quarterly is sent also to the principal libraries of the United States and Canada, and is exchanged for many other publications, principally such as are of a historical nature. It has obtained hearty commendation in many quarters. The numbers published during 1899, contained the *Prison Journal* of Stephen F. Austin, and much other matter of historical interest. Subsequent numbers will contain copies and translations of rare Spanish MSS., and other important documents.

### THE COLLECTION OF THE ASSOCIATION

consists of about two hundred and fifty volumes and pamphlets, besides a considerable amount of MS. material and various historical relics, and is growing steadily. The Association has at present no means to buy such matter, but it will gladly receive, acknowledge, and preserve gifts for the collection.

### MEMBERSHIP.

There are no qualifications for membership, except interest enough in the work of the Association to help support it by paying the dues, which are only two dollars per year, including subscription to the Quarterly. The number of members is now about one thousand, among whom are many of the most prominent citizens of the State, and a considerable list from without.

Those desiring to become members or subscribe for the Quarterly, should send their names to

EUGENE C. BARKER,

Acting Corresponding Secretary and Treasurer,

Austin, Texas.

Contributions for the Quarterly and correspondence relative to historical materials, should be addressed to

GEORGE P. GARRISON,

Recording Secretary and Librarian,

Austin, Texas.
