

WASHINGTON UNIVERSITY

SAINT LOUIS

DEPARTMENT OF  
THE HISTORY OF ART

October 27, 1938

Professor M. Swindler,  
American School of Classical Studies,  
Athens, Greece

My dear Miss Swindler:

I am sending you herewith my manuscript and photographs on the vases in our collection which you were kind enough to accept when I saw you last in Athens. I hope you will find it satisfactory and fit to occupy a place in an early number of the A.J.A. As usual I shall appreciate any corrections and suggestions.

Sometime ago Dr. Robinson sent to you our report on Olynthus. It was not entirely satisfactory to me, and indeed I do not know whether he included all the corrections and changes I made in our original manuscript. I have asked him to have two galley proofs sent one to him and one to me, so I could have a chance to check the report. Will you kindly remember it and send a proof to me also? I promise to return it very promptly, as usual. Thanks.

I hope that you are enjoying your stay in Greece and I am sure that by now your book will be away in the finishing stage. Best wishes and more strength to you. We are enjoying the presence of Wetthey with us. He is a grand person and we consider ourselves fortunate to have him. With best regards and many thanks,

Yours faithfully,

*George E. Mylonas*
