Mr. James C. Marsh  
P. O. Box 4  
Hynes Park  
Los Angeles, California

My dear Mr. Marsh:

Please let me thank you for your long letter, the fine fossils which you sent recently, and your little booklet on Crinoidae. Especially, I want to thank you for the great efforts you have made under such trying circumstances. Let me assure you that the fossils which you sent filled in one of the many gaps in our collections, and they are highly appreciated by me. I shall try to send you such material as you have mentioned in your letter, but please be patient with me if I can not send them at once because I am kept busy preparing exhibits for the University Centennial Exposition to be held here commemorating one hundred years of Texas independence.

With many thanks, I am

Sincerely yours,

H. B. Stenzel
