

## LONGHORNS MEET YELLOW JACKETS HERE SATURDAY

Visitors Have Held A. & M. And S. M. U. to Close Scores

(By Carl Swartz)

Texas Longhorns will this Saturday meet the eleven which scored the only touchdown registered against the followers of Coach Berry Whitaker during the 1920 football season. Coach Arnold Kirkpatrick will be here with his Howard Payne Yellow Jackets to renew hostilities against the Varsity aggregation.

Last year the Texas eleven defeated Howard Payne 41 to 7. While no one will say that the visitors "figure" to defeat the Longhorns, some say Howard Payne may repeat their performance of last year and break the Longhorns' record of not having a score registered against them.

The Brownwood team scored a touchdown against the Texas Aggies on the Farmers' home gridiron on September 30, when the A. and M. team won 14 to 7. But reports of the Aggie-Yellow Jacket game say that that touchdown was scored more on account of laxness on the part of the Aggies than on account of any great offensive play of the Howard Payne team. A long pass which the Aggies should have easily broken up, according to the reports, was responsible for the Howard Payne touchdown.

While the game Saturday figures to end in a Longhorn victory, it will be followed by two games which promise much in the way of close competition for the Texas eleven. On the following Saturday Texas plays the heavy Vanderbilt team at Dallas. The Saturday following the Vanderbilt game the Rice Owls will be here to battle Coach Whitaker's team. And the Owls have the stuff that is liable to upset the hopes of any Southwestern conference eleven. The defeat of the Owls by Baylor only served to show the Institute team as nothing else would that they must play football if they are to win games and not laugh and joke around as they were seen doing in practices at Houston and before the Baylor game at Waco was started.

Howard Payne has held two Southwestern conference teams to close scores this season, the Texas Aggies defeating them by the single touchdown margin and the Southern Methodist University Mustangs winning 3-0 by a 30-yard goal made by Kitts. J. and C. Woodward and Captain Shattuck are the three Howard Payne stars. J. Woodward is a classy back and a clever kicker. It is reported that he averaged 40 yards on his kicks in the A. and M. game, booting a heavy ball.

## UNIVERSITY DIRECTORY NOW READY FOR PRESS

Announcement comes from Max Fichtenbaum, manager of the University publications, that the first edition of the University directory went to press October 10 and the work is being pushed to completion as rapidly as possible. Owing to details involved in the printing of such a publication no definite announcement can be made as to when the directory will be ready for distribution.

## TEAM CAPTAINS NAMED FOR ASSOCIATION DRIVE

Team captains for the coming finance drive of the local Young Men's Christian Association will attempt to raise \$8,000 for University Y. M. C. A. activities from the student body by individual subscriptions, were announced yesterday evening by Ralph Porter, chairman of the finance committee of the Y. M. C. A.

The ten captains selected were: Charles Keffer, Ira P. Allen, W. W. Bragg, Reuben W. Gray, Ralph Wood, Jack Ausmus, Don Martin, Ed L. Gosset, William J. Fetzer, Jr. and Quentin L. Lightner.

The drive will begin Monday evening at six o'clock when all the team captains and their men will assemble in the auditorium of the Y. M. C. A.

## BIG PLANS MADE FOR ALL UNIVERSITY DANCE TO BE GIVEN TONIGHT

Dance to Be Given in Men's Gymnasium After Rally to Be Huge Success

Floor arrangements for the all-University dance to be given tonight, at 8 o'clock at the men's gym, immediately after the rally, have practically been completed by Miss Anna Hiss and George Finlay Simmons, assisted by a committee composed of students. Their chief aim in the plans for tonight is to have features for introducing every one and mixing the crowd in order to get each and every one acquainted.

The reception committee for the dance consists of the councils of men and women students, and the W. A. A. Council. The chaperones will be the Faculty Social Committee which consist of the following members: Judge and Mrs. W. A. Rhea, Dr. and Mrs. L. L. Cljick, Miss Vivienne McClatchy, Miss J. C. Winters, Miss Lucy Newton, Mr. and Mrs. J. N. Michie, Dr. D. G. Cooke, Mr. and Mrs. B. M. Whitaker, Mr. D. F. Bobbitt, Miss Fannie Preston, Mrs. L. C. Bell, Miss Anna Hiss, Miss Mary W. Ball, Miss Bertha Wilder, Miss Schmid and Miss Saum.

Refreshment booths will be in charge of Miss Isabell Powell and Miss Margaret West. The funds from the refreshments, and the contribution boxes will go to the Cabin and House-boat fund, the fund to take the band to Dallas, and the football fund. Miss Hiss states that the W. A. A. girls, who keep up the cabins and the house-boat, wish to stress the need of increasing their Cabin and House-boat fund. She says a standard spring-board is necessary at the house-boat. Ten cots are needed at the cabins, and all cabins need general repair.

## FUTURE OF SOCIETY IS DISCUSSED BY PRE-MEDS

Pre-Meds Meet and Plan Work for Year and Simmons Makes Speech

Pre-meds had a well attended and lively meeting Thursday night.

George Finlay Simmons in a talk on "The Aim of the Society," pointed out the fact that in medicine today it can not be said "the operation was a success but the patient died." He very kindly warned pre-meds of what hard boiled profs they would meet, illustrating to what lengths they will go by telling how Dr. Painter after a lecture on life histories announced to the class that next time they must come prepared to take the life of Amphioxus.

Pre-meds should witness all operations possible, according to Mr. Simmons. "The aim of the society is to give opportunity for necessary thought and work outside of class, and hold the future physicians and surgeons together, for the pre-meds will be the men and women of the profession in the future."

Doctor Painter, the faculty advisor for this year, told of the history and future of the society. It was formed in 1911-12 by the 18 or 20 students taking pre-medical work and has since grown till last night more than 100 were present. He emphasized that the social aim of the society should not be neglected for many of the cases that doctors handle need mental rather than physical treatment and that therefore the development of personality and ability to associate with people is essential for one taking up medicine.

The men interested in football will begin practice immediately and initiation will be held soon. After refreshments the meeting was adjourned.

## PHYSICAL EXAMINATIONS

The medical staff is very anxious that all new students report for physical examinations. All freshmen students as well as transfers registered in the upper classes who have not had their physical examinations are notified to report to the medical staff as soon as possible between the hours of 10 a. m. and 1 p. m.

## YELL RALLY TO FOLLOW LONGHORN BAND CONCERT

Practice of Yells to Be Used at Vanderbilt Game Will Follow Music

Immediately following the concert of the Varsity band tonight, Yell Leader Stag Rowland intends to stage a yell practice worthy of the occasion. Twenty minutes of fast yell drilling is in store for all supporters of the team that will fight the strong Yellow-jacket crew tomorrow.

Stag is especially anxious for every man to come prepared to yell his head off. This, because the big game at Dallas comes off next week and our team needs all the support that our rooters are possibly capable of giving. A yell practice bubbling over with ginger, full of the stuff that should back such a team as ours, is on the program for tonight's rally.

## American Legion Elects Officers and Prepares for Membership Drive

New officers were elected to fill four vacancies in the University of Texas Post, No. 288, of the American Legion at the regular monthly meeting of the post in the Young Men's Christian Association chapel Thursday night.

Don Martin was chosen as post finance commander to succeed Ed. Sehorn; J. F. Dobie to succeed H. T. Bowyer as first vice-commander; O. R. Strackbein to succeed F. Lowney as third vice-commander; Ralph Porter to succeed Tom Hayden as sergeant-at-arms; B. S. Cameron to succeed Benton Morgan as chaplain.

Nine ex-service men were voted in as active members bringing the present list of active members to eighty according to post commander, G. C. Butte. He told the two-score men at the meeting that an effort should be made by every legionnaire in the University to bring all eligible ex-service men in the school into the post. He emphasized the fact that the University post requires the minimum dues of \$2.50 which also brings a subscription to the American Legion Weekly.

The national legion will hold a convention in Kansas City, Mo., on October 31, November 1 and 2, it was announced and as many members as possible are urged to attend. It is expected that about ten men will go from the local post. These men will take advantage of a cent-a-mile rate being offered by three railroads for the convention.

## Clever Scheme Will Protect Papa's Pocket

Eds, and Co-eds! Do you ever wonder where in the world all of your money has gone? Do you ever write home for more, P. D. Q? Does your dad ever ask what has become of the fat check which disappeared so quickly? Do you really know how much you are spending and for what? Here's the way to find out:

Go to see Miss Edythe Hershey of the home economics department of the Bureau of Extension. She will explain to you the value of the "financial record book" and the way to keep accounts. The book is loose-leaf and has sections for income, savings, maintenance, clothing, health, donations, education, recreation, incidentals, and summaries. There are detailed and self-explanatory classifications on each page. The system is simple and is arranged like a budget. The book is published by the University and recommended for all University students. From the use of these, it is expected that the total cost of sending a student to T. U. can be learned.

## MEDICAL STAFF HOURS

The University medical staff announces the following office hours: Dr. C. W. Goddard, chief of medical staff, and Drs. S. C. Gates and Ethel Lyon Heard will be from 10 a. m. to 1 p. m., and Dr. S. N. Key 12 to 1 p. m.

## Student Absences to Football Game Will Be Excused

Dr. H. Y. Benedict, acting president of the University during the absence of Dr. Vinson, announced yesterday that students will be excused from classes to attend one of the out-of-town football games during the football season. Since only two of the games are to be played off the home field this year, students may choose between having cuts excused from attending the Vanderbilt game, October 22 or the A. and M. game, Thanksgiving.

## No Action Yet Taken On Rate To Vandy Game

Rumors that the rates to the Vanderbilt game in Dallas would be six dollars, roundtrip, have not yet been verified. It is true that the local agents are trying to get this rate and it is up before the officials now, but there is no certainty that they will allow it.

However, the H. & T. C. seems very hopeful, but the M. K. & T. does not believe there is much chance of the rate being made. The present rates for both roads are \$12.24 for the roundtrip, \$4.05 for a lower birth each way, and \$3.24 for the uppers. Two may sleep in a berth.

Several fraternities have gotten sections for their members. There may be a rate made on the berths by getting them this way. The special trains of both the H. & T. C. and the M. K. & T. will leave Austin at 11 p. m. on Friday, October 21, and coming back, the M. K. & T. will leave Dallas at 9:45 p. m. Saturday, October 22, and the H. & T. C. at 10:00. Round trip tickets are good over the M. K. & T. till Monday. It will be known by Monday whether the six dollar rate will be made.

## POWER PLANT FINDS OIL CHEAPER THAN LIGNITE

Analyses Show Shacks Put Heavy Load on Plant Boilers

A. M. Seiders, engineer in charge of the University Power Plant, has announced his plans and preparations for the time when the weather will necessitate heat being turned on.

Mr. Seiders has served as engineer of the Power Plant for ten years, and according to the University officials, the University has only a few times had to discontinue classes from a low temperature in the class rooms. Analyses of the fuels to be used have been made by the Chemistry Division, Bureau of Technology and Geology, under the supervision of Dr. E. P. Schoch. These analyses have revealed that a considerably greater amount of heat can be obtained from oil than from lignite at the present prices.

The analyses consisted of testing the heat units of 1c of oil and coal respectively, and a test of the carbon dioxide arising from the smoke-stack to see if the fuel was fully consumed.

Much more heat is required to keep the shacks at the average temperature than is necessary for class rooms in the buildings according to Mr. Seiders. Keeping the shack class rooms at the required temperature is the most difficult work of the Power Plant.

## STAR RICE PITCHER TO ENTER MAJOR BASEBALL

Eddie Dyer, Rice Institute's all-Southwestern halfback and about the best baseball pitcher in the Southwest Conference, will report to the Pittsburgh Pirates in March, according to announcement from the Houston school.

This will mean that the Owls will be without their big star when the baseball season rolls around in 1922. Dyer, while the "mainstay" of the Institute pitching staff, was also the heaviest batter in the Rice line-up and was used in the outfield when not on the pitching peak.

## MATHEMATICAL CONTEST TO BE HELD SATURDAY

Annual Brown Prize Offered to Freshmen; Competitive Examination

Brown Mathematical Prize Contest which is open to freshmen only, will be held Saturday afternoon in the Main Building, room 157, at 2:00 o'clock. The examination will cover all mathematical entrance preparation, and will consist of two algebra problems and two plain geometry problems. This is a prize examination with three prizes: first, fifteen dollars; second, ten dollars; third, five dollars. The examination will be limited to one hour. The prizes are provided by a fund under the title of Brown University Mathematical Prize Fund. The object of this examination is to encourage students who have excellence in this subject as well as to encourage high schools in preparing students.

The present examination assumes only the usual entrance preparation, but it is made more difficult, merely to more readily distinguish the best prepared students. All freshmen who are interested, are urged to come and try for the examination. The ones winning the prizes will get their names published in the next catalogue.

## Menorah Societies Offer Annual Prize for Jewish Essays

It has been the custom of the Menorah Societies in Texas to offer annually two prizes for the best essays on any subject dealing with the literature, the history or the achievements of the Jewish people.

Two prizes of fifty and twenty-five dollars are awarded each year. The first prize is given by Mr. Robert Krakauer of El Paso. The second prize is endowed by Mr. and Mrs. Amsel of Corsicana, in memory of their daughter, Pauline.

The competition for these prizes is open to all students of the University of Texas, Texas A. and M. College, Rice Institute, Baylor, and Southern Methodist University. All essays must be in by May 15. Mr. Rosenbaum and Dr. Ettlinger of the University, and Dr. Cohen of Galveston form the committee in charge of the contest.

Last year the first prize was awarded to Leo Fox, a well known student of the University.

## EMPLOYMENT FOR GIRLS FURNISHED BY BUREAU

The University Young Women's Association under the able leadership of the secretary, Miss Budd, has inaugurated a bureau of employment for University girls.

Many vacancies both in the University and in the city have been filled by students and various calls are being received daily, according to Miss Budd.

## Call Of Sawdust And Lemonade's Lure Draw Austin Kids To Circus

For weeks every available foot of space has been plastered with lurid posters, depicting every known species of wild animals, and announcing to the world that "the circus is coming." And every childish heart in Austin—and that means nearly every heart—beats faster in anticipation. For there are few of us who do not succumb to the glamour of the "three rings," and most of us can remember the secret resolutions we formed, while watching the death-defying stunts of the trapeze artist or laughing at the foolishness of the clowns, to run away and join the circus.

But the circus we see in the parade and under cover of the "big top" is quite different from the circus which quietly slips into town, in the wee hours of the morning. There is no glitter or glamour about a long train, which looks much the same as any other train.

However, when Hagenbeck-Wallace came to Austin at 4:30 yesterday morning, many ardent devotees of the circus arose and went down to the H. & T. C. freight depot to see them unload. They watched with breathless interest the animals in their steel

## FRESHMAN NOMINATION COMMITTEE TO DECIDE ON FORM OF ELECTION

Method of Procedure to Be Selected; Freshmen Only Will Participate

The committee to receive nominations for freshmen class officers will meet on Friday afternoon at 2 o'clock in the office of the Students' Association on the second floor of the Main Building. The intention of this meeting is to decide definitely on the method of procedure to be used in the election. It will be decided whether the ballot system will be used or whether a meeting of the class will be called.

The election will be discussed from every angle and every effort will be made to outline a complete program that will include every point that might cause a delay when the election gets going.

According to the committee in charge, the plans under consideration will exclude sophomores and other upper classmen from participation.

## SCRIBBLERS ELECT OFFICERS FOR YEAR

Simmons, Cox, and Jourdan Chosen as Officers in Honorary Writer's Club

Scribblers, honorary writers' club of the University, recently held its first meeting of the year and elected officers from among the student members. The organization is an active group for the reading and discussion of plays, poems, short stories or essays written by the various members, and this function is performed at its regular monthly meetings during the scholastic year.

George Finlay Simmons of Houston, editor-in-chief of the Longhorn Magazine, is president of Scribblers. Henry Reavis Cox of Monterey, Mexico, editor-in-chief of the Daily Texan, was elected vice-president. Secretary of the club is Miss Mary Jourdan of Austin, whose verse has attracted notable attention in University circles.

Dr. Killis Campbell, professor of English, founded Scribblers several years ago as an organization for the encouragement, assistance and recognition of University students showing exceptional ability in composition. Since that time the club has had in its membership students whose works have attracted the greatest local attention and many whose stories, essays and poems have received publication and special recognition by Eastern magazines and Texas periodicals.

## STUDENTS ASK INVESTIGATION OF CAFETERIA

Petition Circulating to Investigate Methods of Management of Cafeteria

In the form of an appeal to President Vinson, a petition requesting him to provide for an investigation of the management of the University Commons is being circulated among the University students.

The petition appeared Wednesday night and by noon on Thursday bore about a hundred signatures of men who eat at the Cafeteria. The petition states that certain unsatisfactory conditions have been called to the attention of the business manager and that no response has been made, and that there is no system of book-keeping to present the methods of management. Consequently, a change of management is being solicited.

The belief was prevalent that men at B. Hall originated the idea, but members of the B. Hall Association deny any official connection with the paper. Those who have signed it are students acting independently. They assert that more copies of the document will be made and a more thorough canvass for signatures will be promoted.

When a sufficient number of the patrons of the Caf have been given an opportunity to express their sentiments, the petition will be presented to President Vinson.

## Three Nominees Are Entered in Cactus Popularity Contest

Interest in the Cactus popularity contest is growing and, according to the management, this will be one of the most successful contests in the University's history.

At present there are three nominees in the contest: Emily Nalle, Chi Omega, of Austin; Eleanor Covert, Pi Beta Phi, of Austin; and Margaret Kelly, Kappa Kappa Gamma, of Dallas. Misses Covert and Kelly were featured on the beauty pages of the Cactus last year.

All nominations must be made by Tuesday, October 18, for the nomination period of the contest closes finally at that date.

The spoils of the winner of the contest will be a full page picture in the Cactus, and the honor of being the sponsor for the Thanksgiving game and queen of the Thanksgiving reception.

## CAPTAINS FOR ANNUAL FINANCE DRIVE NAMED

According to the publicity chairman of the Young Women's Christian Association, captains for the Y. W. C. A. finance drive next week have been appointed as follows:

Misses Ivy T. Creagh, Porter Lou Calhoun, Josephine Bennett, Agnes Weed, Ruth Bernard, Virginia Reed, Corinne Neal, Ruth Jackson, Martha McCoy, Johnnie Bell McDonald, Blossom Wooten and Elizabeth Vinson.

These captains in turn will appoint a number of lieutenants, and will canvass by districts. Miss May Lea Guthrie will be in charge of tables for subscriptions located on the campus at "busy corners" for the convenience of the student body.

## ALL PHYSICAL TRAINING CLASSES BEGIN FRIDAY

Classes in physical training for men begin Friday with the work consisting largely of setting-up exercises and military drill.

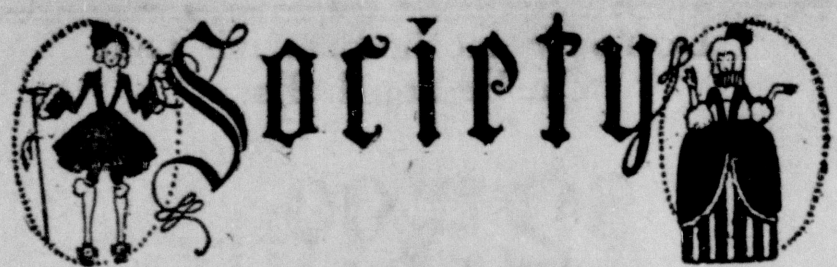

Between six and seven hundred men have registered for the freshman course. Instructor Roy J. McLean states that the examinations have proved fairly successful, but as yet it is impossible to give accurately the per cent of those below normal.

Ten sections have been organized with a teaching staff consisting of Mr. McLean, instructor, A. L. Ahrens, assistant, and the various members of the athletic council. The defective students are placed in a separate class and given mild exercise under the direction of Doctor S. M. Eckdahl.

## Wedding Announcement

Cards have been received announcing for October 26 the marriage of Miss Mildred Hagy of San Antonio to Mr. Crockett Snider of that City. Miss Hagy will be remembered as a popular student at the University last year. Mr. Snider is one of the young business men of San Antonio.

## Miss Pinckney Returns

Miss Jeanie Pinckney, lecturer in the home economics division of the Bureau of Extension, has recently returned from a tour in the north-western part of the state where she conducted clinics in child welfare.

Mr. and Mrs. Alex Spence and Miss Louise Britton of Dallas, were in Austin for the Spence-Moss wedding. Alpha Phi held pledge services on Thursday for Frances Robinson.

Frances Louise Stearns has withdrawn from the University and returned to her home in Hutto.

Joe Carrington of Alpha Tau Omega house has returned to the University.

Phi Gamma Delta announces the pledging of Macklin Atchinson of Paris, Texas.

Roscoe Holton and William Brice spent the week-end in Galveston.

The girls of Annex D, Lubbock Hall, gave Mrs. Gaynell Prime on Wednesday, her birthday, a surprise party at their annex.

Delta Kappa Epsilon announces the pledging of Cecil Boerl of Beaumont.

W. L. Barlow, senior law student, is in San Antonio on business.

## FACULTY RECEPTION

The annual reception for new members, the one purely formal affair given by the faculty during the year, will be held by the University Faculty Club on October 22.

Send Hillyer's flowers. Always a good idea. Phone 6160.

## Rusk Literary Society

Next Saturday night at 7:15, the Rusk Literary Society will give its first regular program of the fall term, new officers having been installed, and routine matters having been disposed of last week.

Following is the program announced for the next meeting, Saturday night, October 15: Talk on the Irish Question, by Hornaday; Debate on the proposition, "The Ku Klux Klan Should Be Suppressed," by Johnson, Grimes, and Gleckler of the affirmative, and Wood, Beasley, and Brown of the negative; and a discussion of the Liberal Club by Watson.

## Hogg Debating Club

The Hogg Debating Club met on Thursday night at 7:30 in Hogg Hall. Officers elected and installed were as follows: President, Cecil R. Chamberlin, vice-president; Walter Rundell; secretary, M. Wilson. The other officers returned.

Those elected to membership were G. Robert Nelson, Lesley Cooper, Tom Session, T. McInnis, Y. L. Henson and B. H. Peacock. Members are requested to observe the Hogg bulletin in the mouth of the English Channel.

Our Chefs are masters of their art. Our corps of trained assistants includes ten students. Cactus Tea Room.

Connelly's Austin Floral Co., 722 Congress, phone 8261.

## NON-CONFERENCE GAMES WILL FEATURE FOOTBALL SCHEDULE FOR SATURDAY

**Baylor-Boston, A. & M.-L. S. U.,  
and Rice-Tulane Games Are  
of Special Interest**

Three non-conference football games will attract wide attention in Southwestern football circles Saturday. The Texas Aggies will meet Louisiana State University at Baton Rouge, Baylor University will meet Boston College at Dallas, and Rice Institute will battle Tulane University at Houston.

Last year L. S. U. and the Aggies played a scoreless tie at College Station. This year L. S. U., playing on its own field, is confident of victory. The Aggies were not forced to any great effort in their Wednesday game against Southern Methodist University at Dallas and will go on the field in great shape.

One of the surprises of the S. M. U. game was the fact that Evans, a new man on the A. and M. squad, has "shelved" Smith, a veteran end.

Wednesday the S. M. U. backs were unable to run back punts, due to the great work of the Farmer ends. Sammy Sanders was the sensation of the Aggies' backfield, gaining many yards with the ball and kicking in great style.

Murrah, who has been shifted from guard to center, did not show up especially well at that post for the Aggies.

Rice Institute's Owls, after a 17-14 defeat at the hands of the Baylor Bears, are now declared to be hard at work in preparation for the Tulane game.

Boston College, with but three regulars back from their great team of last year, will find a fighting eleven in meeting the Baylor Bears and a good game ought to be the result.

Oklahoma A. and M., a member of the Southwestern Conference, will meet Oklahoma University at Norman in a non-conference game on Saturday. Arkansas University, another conference team, will play Ouachita College at Little Rock and the Texas Longhorns, last year's Southwestern Conference champions, will meet Howard Payne here.

## ENGINEERS CONTINUE TO MAKE USE OF LOAN FUND

This year there has been an unusual number of applicants for the use of the loan fund for engineer students and every request has been met. This is in accordance with tradition for not since 1911 has any application been turned down. Peculiar to this year's conditions, however, is the fact that loans were made before matriculation; six students had to borrow from the fund before they could matriculate.

Mr. O'Bannon has just been elected from the faculty as a new member of the board of trustees which has the entire control of the fund. C. E. Moore of the junior class was also recently elected. The board of trustees is composed of the dean of the engineers, T. U. Taylor, ex-officio, two faculty men elected by the students and two students, one junior and one senior.

## FACULTY COMMITTEE TO INVESTIGATE CONDITIONS

Co-operation of the student body is needed by the Faculty Boarding-house Committee in the bettering of boarding and lodging conditions in the University, according to Miss Lucy Newton, chairman of the committee.

Concrete suggestions as to conditions which are not as they should be will be welcomed by Miss Newton. In her words, it is the desire of the committee to correct all unjust and wrong living environments.

Miss Newton wishes that all complaints and suggestions be left at her office, 111 Main Building, during the week beginning Friday, October 14th.

## Giants Defeat Yanks for Pennant Honors in Hard-Played Game

World's series honors of 1921 went to the New York Giants yesterday afternoon when the National League club won the eighth game of their series against the New York Yankees, 1 to 0. Nehf pitched great ball for the winners.

Hoyt walked Bancroft and Young in the first and Bancroft scored the only run of the game when Peckinpah let Kelly's grounder go through him.

"Babe" Ruth, previously kept out of the game by injuries, batted for Pipp in the ninth as the Yankees' "last hope," but grounded out to Kelly, unassisted.

The game yesterday was the Giants' fifth victory of the series, the Yankees having won three games.

Hoyt allowed six hits and walked four men. Nehf allowed four hits and issued free transportation to five.

## Hildebrand Talks to Pre-Law Society on Organization's Work

Before a large audience of students composing the Pre-Law Society, Judge Ira P. Hildebrand, acting dean of the law department, delivered an address on the necessity of such an organization as the Pre-Law Society and the aims that it should have for the future.

Judge Hildebrand stated that a student could reach any reasonable height to which his ambition leads him, provided ambition is tempered with common sense. He also said that no student could hope to get out of the Pre-Law Society more than he puts into it.

Judge Hildebrand said that he had been trying for fourteen years to decide just what courses were most essential for pre-law courses, and that he believed work of a more general nature was preferable to that more specialized.

In closing, Judge Hildebrand gave some topics as suggestions for discussions throughout the year, and he stressed the importance of having lawyers from over the state address the society.

## RACQUET CLUB PLANS LADDER TOURNAMENTS

Plans for increased activity and more members in the Racquet Club are well under way.

Last year, several tournaments were played off on the women's courts. A Round Robin was conducted for beginners and another tournament was held for advanced players. The team was chosen from the winners of these games and included the following girls: Beatrice Lytle, Hedwig Eichenberg, Doris Cook, and Virginia Mantor.

A new system is being planned for this year. The ladder tournament is a new idea that will be inaugurated for all girls interested in playing. One ladder will be for beginners, the other for advanced players. All girls may come to the gym for information concerning the team and the Racquet Club. Practices are being held every day.

## LONGHORN BAND WILL BE FEATURE OF RALLY FOR SATURDAY'S GAME

**Abilene Papers Praised Band  
When It Played There For  
All-West Texas Fair**

Appearing in full uniform and presenting a great variety of special feature numbers, the Longhorn Band will give a unique entertainment at the Men's Gymnasium Friday night. The rally for the Howard Payne game will be incorporated in the concert and preparations are being made to take care of an unusually large attendance.

The Band, under the direction of Burnett Pharr, will present a number of their special features which are said to have made an extraordinary hit with the large crowds attending the All-West Texas Fair at Abilene, where the Band played recently. The Abilene newspapers gave the Band first place among the many big features of the Fair and Abilene citizens were loud in their praise of the organization.

The Longhorn Band has consented to give its services for the All-University dance to be held at the Men's Gymnasium Friday night. In Abilene the Band played for several occasions of a like nature, including a big street dance given by the Shriners of Abilene. The Band has recently secured from New York the very latest dance music and is prepared to furnish some excellent music for the dance.

## KANE KLUB INITIATION TO BE HELD NEXT WEEK

Initiation for membership in the Kane Klub, senior men's society of the academic department, will be held on Thursday, October 20, Tom Nash, King of the Kane, has announced. All men applying for academic, journalistic, or business administration degrees in June, 1922, are eligible for initiation and are expected to attend next week's ceremonies, which will be the only opportunity offered the senior men to belong to this traditional organization.

## Many Chemistry Students Earn Way As Assistants

Many worthy students are being aided in their efforts to secure an education by the Chemistry Department of the university. Although the exact number of student assistants and tutors for the present session of school has not been decided upon, not less than twenty-seven students will be employed.

The Chemistry Department is the only department in the University in which the amount paid the student staff exceeds the amounts paid the members of the faculty.

None of the students are allowed to hold positions higher than a tutorship, hence the positions are not tenable for more than two or three years. This arrangement enables a greater number of students to receive the experience and financial benefits which such a position gives.

Another interesting fact concerning the work of this department is that thirteen former students of the department are now studying for their Ph. D degree in other institutions. All of these students hold fellowships or assistantships.

## The Last Word In Winter Wraps

—Is the circular coat in vogue of the rich, woolen materials you may fancy.

Many of these are self-trimmed, but for fur trimmings the beaver, fox, nutria and squirrel predominate.

These coats are charming with their full, loose backs, graceful trimmings and unusual fastenings. The University Girl should not miss the opportunity of seeing these desirable wraps.

## LONGHORNS MEET YELLOW JACKETS HERE SATURDAY

Visitors Have Held A. & M.  
And S. M. U. to Close  
Scores

(By Carl Swartz)

Texas Longhorns will this Saturday meet the eleven which scored the only touchdown registered against the followers of Coach Berry Whitaker during the 1920 football season. Coach Arnold Kirkpatrick will be here with his Howard Payne Yellow Jackets to renew hostilities against the Varsity aggregation.

Last year the Texas eleven defeated Howard Payne 41 to 7. While no one will say that the visitors "figure" to defeat the Longhorns, some say Howard Payne may repeat their performance of last year and break the Longhorns' record of not having a score registered against them.

The Brownwood team scored a touchdown against the Texas Aggies on the Farmers' home gridiron on September 30, when the A. and M. team won 14 to 7. But reports of the Aggie-Yellow Jacket game say that that touchdown was scored more on account of laxness on the part of the Aggies than on account of any great offensive play of the Howard Payne team. A long pass which the Aggies should have easily broken up, according to the reports, was responsible for the Howard Payne touchdown.

While the game Saturday figures to end in a Longhorn victory, it will be followed by two games which promise much in the way of close competition for the Texas eleven. On the following Saturday Texas plays the heavy Vanderbilt team at Dallas. The Saturday following the Vanderbilt game the Rice Owls will be here to battle Coach Whitaker's team. And the Owls have the stuff that is liable to upset the hopes of any Southwestern conference eleven. The defeat of the Owls by Baylor only served to show the Institute team as nothing else would that they must play football if they are to win games and not laugh and joke around as they were seen doing in practices at Houston and before the Baylor game at Waco was started.

Howard Payne has held two Southwestern conference teams to close scores this season, the Texas Aggies defeating them by the single touchdown margin and the Southern Methodist University Mustangs winning 3-0 by a 30-yard goal made by Kitts. J. and C. Woodward and Captain Shattuck are the three Howard Payne stars. J. Woodward is a classy back and a clever kicker. It is reported that he averaged 40 yards on his kicks in the A. and M. game, booting a heavy ball.

## UNIVERSITY DIRECTORY NOW READY FOR PRESS

Announcement comes from Max Fichtenbaum, manager of the University publications, that the first edition of the University directory went to press October 10 and the work is being pushed to completion as rapidly as possible. Owing to details involved in the printing of such a publication no definite announcement can be made as to when the directory will be ready for distribution.

## TEAM CAPTAINS NAMED FOR ASSOCIATION DRIVE

Team captains for the coming finance drive of the local Young Men's Christian Association will attempt to raise \$8,000 for University Y. M. C. A. activities from the student body by individual subscriptions, were announced yesterday evening by Ralph Porter, chairman of the finance committee of the Y. M. C. A.

The ten captains selected were: Charles Keffer, Ira P. Allen, W. W. Bragg, Reuben W. Gray, Ralph Wood, Jack Ausmus, Don Martin, Ed L. Gossett, William J. Fetzer, Jr. and Quentin L. Lightner.

The drive will begin Monday evening at six o'clock when all the team captains and their men will assemble in the auditorium of the Y. M. C. A.

## BIG PLANS MADE FOR ALL UNIVERSITY DANCE TO BE GIVEN TONIGHT

Dance to Be Given in Men's  
Gymnasium After Rally  
to Be Huge Success

Floor arrangements for the all-University dance to be given tonight, at 8 o'clock at the men's gym, immediately after the rally, have practically been completed by Miss Anna Hiss and George Finlay Simmons, assisted by a committee composed of students. Their chief aim in the plans for tonight is to have features for introducing every one and mixing the crowd in order to get each and every one acquainted.

The reception committee for the dance consists of the councils of men and women students, and the W. A. A. Council. The chaperones will be the Faculty Social Committee which consist of the following members: Judge and Mrs. W. A. Rhea, Dr. and Mrs. L. L. Click, Miss Vivienne McClatchy, Miss J. C. Winters, Miss Lucy Newton, Mr. and Mrs. J. N. Michie, Dr. D. G. Cooke, Mr. and Mrs. B. M. Whitaker, Mr. D. F. Bobbitt, Miss Fannie Preston, Mrs. L. C. Bell, Miss Anna Hiss, Miss Mary W. Ball, Miss Bertha Wilder, Miss Schmid and Miss Saum.

Refreshment booths will be in charge of Miss Isabella Powell and Miss Margaret West. The funds from the refreshments, and the contribution boxes will go to the Cabin and House-boat fund, the fund to take the band to Dallas, and the football fund. Miss Hiss states that the W. A. A. girls, who keep up the cabins and the house-boat, wish to stress the need of increasing their Cabin and House-boat fund. She says a standard spring-board is necessary at the house-boat. Ten cots are needed at the cabins, and all cabins need general repair.

## FUTURE OF SOCIETY IS DISCUSSED BY PRE-MEDS

Pre-Meds Meet and Plan Work  
for Year and Simmons  
Makes Speech

Pre-meds had a well attended and lively meeting Thursday night.

George Finlay Simmons in a talk on "The Aim of the Society," pointed out the fact that in medicine today it can not be said "the operation was a success but the patient died." He very kindly warned pre-meds of what hard boiled profs they would meet, illustrating to what lengths they will go by telling how Dr. Painter after a lecture on life histories announced to the class that next time they must come prepared to take the life of Amphioxus.

Pre-meds should witness all operations possible, according to Mr. Simmons. "The aim of the society is to give opportunity for necessary thought and work outside of class, and hold the future physicians and surgeons together, for the pre-meds will be the men and women of the profession in the future."

Doctor Painter, the faculty advisor for this year, told of the history and future of the society. It was formed in 1911-12 by the 18 or 20 students taking pre-medical work and has since grown till last night more than 100 were present. He emphasized that the social aim of the society should not be neglected for many of the cases that doctors handle need mental rather than physical treatment and that therefore the development of personality and ability to associate with people is essential for one taking up medicine.

The men interested in football will begin practice immediately and initiation will be held soon. After refreshments the meeting was adjourned.

## PHYSICAL EXAMINATIONS

The medical staff is very anxious that all new students report for physical examinations. All freshmen students as well as transfers registered in the upper classes who have not had their physical examinations are notified to report to the medical staff as soon as possible between the hours of 10 a. m. and 1 p. m.

## YELL RALLY TO FOLLOW LONGHORN BAND CONCERT

Practice of Yells to Be Used at  
Vanderbilt Game Will  
Follow Music

Immediately following the concert of the Varsity band tonight, Yell Leader Stag Rowland intends to stage a yell practice worthy of the occasion. Twenty minutes of fast yell drilling is in store for all supporters of the team that will fight the strong Yellow-jacket crew tomorrow.

Stag is especially anxious for every man to come prepared to yell his head off. This, because the big game at Dallas comes off next week and our team needs all the support that our rooters are possibly capable of giving. A yell practice bubbling over with ginger, full of the stuff that should back such a team as ours, is on the program for tonight's rally.

## American Legion Elects Officers and Prepares for Membership Drive

New officers were elected to fill four vacancies in the University of Texas Post, No. 288, of the American Legion at the regular monthly meeting of the post in the Young Men's Christian Association chapel Thursday night.

Don Martin was chosen as post finance commander to succeed Ed. Sehorn; J. F. Dobie to succeed H. T. Bowyer as first vice-commander; O. R. Strackbein to succeed F. Lowney as third vice-commander; Ralph Porter to succeed Tom Hayden as sergeant-at-arms; B. S. Cameron to succeed Benton Morgan as chaplain.

Nine ex-service men were voted in as active members bringing the present list of active members to eighty according to post commander, G. C. Butte. He told the two-score men at the meeting that an effort should be made by every legionnaire in the University to bring all eligible ex-service men in the school into the post. He emphasized the fact that the University post requires the minimum dues of \$2.50 which also brings a subscription to the American Legion Weekly.

The national legion will hold a convention in Kansas City, Mo., on October 31, November 1 and 2, it was announced and as many members as possible are urged to attend. It is expected that about ten men will go from the local post. These men will take advantage of a cent-a-mile rate being offered by three railroads for the convention.

## Clever Scheme Will Protect Papa's Pocket

Eds, and Co-eds! Do you ever wonder where in the world all of your money has gone? Do you ever write home for more, P. D. Q? Does your dad ever ask what has become of the fat check which disappeared so quickly? Do you really know how much you are spending and for what? Here's the way to find out:

Go to see Miss Edythe Hershey of the home economics department of the Bureau of Extension. She will explain to you the value of the "financial record book" and the way to keep accounts. The book is loose-leaf and has sections for income, savings, maintenance, clothing, health, donations, education, recreation, incidentals, and summaries. There are detailed and self-explanatory classifications on each page. The system is simple and is arranged like a budget. The book is published by the University and recommended for all University students. From the use of these, it is expected that the total cost of sending a student to T. U. can be learned.

## MEDICAL STAFF HOURS

The University medical staff announces the following office hours: Dr. C. W. Goddard, chief of medical staff, and Drs. S. C. Gates and Ethel Lyon Heard will be from 10 a. m. to 1 p. m., and Dr. S. N. Key 12 to 1 p. m.

## Student Absences to Football Game Will Be Excused

Dr. H. Y. Benedict, acting president of the University during the absence of Dr. Vinson, announced yesterday that students will be excused from classes to attend one of the out-of-town football games during the football season. Since only two of the games are to be played off the home field this year, students may choose between having cuts excused from attending the Vanderbilt game, October 22 or the A. and M. game, Thanksgiving.

## No Action Yet Taken On Rate To Vandy Game

Rumors that the rates to the Vanderbilt game in Dallas would be six dollars, roundtrip, have not yet been verified. It is true that the local agents are trying to get this rate and it is up before the officials now, but there is no certainty that they will allow it.

However, the H. & T. C. seems very hopeful, but the M. K. & T. does not believe there is much chance of the rate being made. The present rates for both roads are \$12.24 for the roundtrip, \$4.05 for a lower birth each way, and \$3.24 for the uppers. Two may sleep in a berth.

Several fraternities have gotten sections for their members. There may be a rate made on the berths by getting them this way. The special trains of both the H. & T. C. and the M. K. & T. will leave Austin at 11 p. m. on Friday, October 21, and coming back, the M. K. & T. will leave Dallas at 9:45 p. m. Saturday, October 22, and the H. and T. C. at 10:00. Round trip tickets are good over the M. K. & T. till Monday. It will be known by Monday whether the six dollar rate will be made.

## POWER PLANT FINDS OIL CHEAPER THAN LIGNITE

Analyses Show Shacks Put  
Heavy Load on Plant  
Boilers

A. M. Seiders, engineer in charge of the University Power Plant, has announced his plans and preparations for the time when the weather will necessitate heat being turned on.

Mr. Seiders has served as engineer of the Power Plant for ten years, and according to the University officials, the University has only a few times had to discontinue classes from a low temperature in the class rooms.

Analyses of the fuels to be used have been made by the Chemistry Division, Bureau of Technology and Geology, under the supervision of Dr. E. P. Schoch. These analyses have revealed that a considerably greater amount of heat can be obtained from oil than from lignite at the present prices.

The analyses consisted of testing the heat units of 1c of oil and coal respectively, and a test of the carbon dioxide arising from the smoke-stack to see if the fuel was fully consumed.

Much more heat is required to keep the shacks at the average temperature than is necessary for class rooms in the buildings according to Mr. Seiders. Keeping the shack class rooms at the required temperature is the most difficult work of the Power Plant.

## STAR RICE PITCHER TO ENTER MAJOR BASEBALL

Eddie Dyer, Rice Institute's all-Southwestern halfback and about the best baseball pitcher in the Southwestern Conference, will report to the Pittsburgh Pirates in March, according to announcement from the Houston school.

This will mean that the Owls will be without their big star when the baseball season rolls around in 1922. Dyer, while the mainstay of the Institute pitching staff, was also the heaviest batter in the Rice line-up and was used in the outfield when not on the pitching peak.

## MATHEMATICAL CONTEST TO BE HELD SATURDAY

Annual Brown Prize Offered  
to Freshmen; Competi-  
tive Examination

Brown Mathematical Prize Contest which is open to freshmen only, will be held Saturday afternoon in the Main Building, room 157, at 2:00 o'clock. The examination will cover all mathematical entrance preparation, and will consist of two algebra problems and two plain geometry problems. This is a prize examination with three prizes: first, fifteen dollars; second, ten dollars; third, five dollars. The examination will be limited to one hour. The prizes are provided by a fund under the title of Brown University Mathematical Prize Fund. The object of this examination is to encourage students who have excellence in this subject as well as to encourage high schools in preparing students.

The present examination assumes only the usual entrance preparation, but it is made more difficult, merely to more readily distinguish the best prepared students. All freshmen who are interested, are urged to come and try for the examination. The ones winning the prizes will get their names published in the next catalogue.

## Menorah Societies Offer Annual Prize for Jewish Essays

It has been the custom of the Menorah Societies in Texas to offer annually two prizes for the best essays on any subject dealing with the literature, the history or the achievements of the Jewish people.

Two prizes of fifty and twenty-five dollars are awarded each year. The first prize is given by Mr. Robert Krakauer of El Paso. The second prize is endowed by Mr. and Mrs. Amsel of Corsicana, in memory of their daughter, Pauline.

The competition for these prizes is open to all students of the University of Texas, Texas A. and M. College, Rice Institute, Baylor, and Southern Methodist University. All essays must be in by May 15. Mr. Rosenbaum and Dr. Ettlinger of the University, and Dr. Cohen of Galveston form the committee in charge of the contest.

Last year the first prize was awarded to Leo Fox, a well known student of the University.

## EMPLOYMENT FOR GIRLS FURNISHED BY BUREAU

The University Young Women's Association under the able leadership of the secretary, Miss Budd, has inaugurated a bureau of employment for University girls.

Many vacancies both in the University and in the city have been filled by students and various calls are being received daily, according to Miss Budd.

## Call Of Sawdust And Lemonade's Lure Draw Austin Kids To Circus

For weeks every available foot of space has been plastered with lurid posters, depicting every known species of wild animals, and announcing to the world that "the circus is coming." And every childish heart in Austin—and that means nearly every heart—beats faster in anticipation. For there are few of us who do not succumb to the glamour of the "three rings," and most of us can remember the secret resolutions we formed, while watching the death-defying stunts of the trapeze artist or laughing at the foolishness of the clowns, to run away and join the circus.

But the circus we see in the parade and under cover of the "big top" is quite different from the circus which quietly slips into town, in the wee hours of the morning. There is no glitter or glamour about a long train, which looks much the same as any other train.

However, when Hagenbeck-Wallace came to Austin at 4:30 yesterday morning, many ardent devotees of the circus arose and went down to the heaviest batter in the Rice line-up and was used in the outfield when not on the pitching peak.

## FRESHMAN NOMINATION COMMITTEE TO DECIDE ON FORM OF ELECTION

Method of Procedure to Be Se-  
lected; Freshmen Only Will  
Participate

The committee to receive nominations for freshmen class officers will meet on Friday afternoon at 2 o'clock in the office of the Students' Association on the second floor of the Main Building. The intention of this meeting is to decide definitely on the method of procedure to be used in the election. It will be decided whether the ballot system will be used or whether a meeting of the class will be called.

The election will be discussed from every angle and every effort will be made to outline a complete program that will include every point that might cause a delay when the election gets going.

According to the committee in charge, the plans under consideration will exclude sophomores and other upper classmen from participation.

## SCRIBBLERS ELECT OFFICERS FOR YEAR

Simmons, Cox, and Jourdan  
Chosen as Officers in Hon-  
orary Writer's Club

Scribblers, honorary writers' club of the University, recently held its first meeting of the year and elected officers from among the student members. The organization is an active group for the reading and discussion of plays, poems, short stories or essays written by the various members, and this function is performed at its regular monthly meetings during the scholastic year.

George Finlay Simmons of Houston, editor-in-chief of the Longhorn Magazine, is president of Scribblers. Henry Reavis Cox of Monterey, Mexico, editor-in-chief of the Daily Texan, was elected vice-president. Secretary of the club is Miss Mary Jourdan of Austin, whose verse has attracted notable attention in University circles.

Dr. Killis Campbell, professor of English, founded Scribblers several years ago as an organization for the encouragement, assistance and recognition of University students showing exceptional ability in composition. Since that time the club has had in its membership students whose works have attracted the greatest local attention and many whose stories, essays and poems have received publication and special recognition by Eastern magazines and Texas periodicals.

## STUDENTS ASK INVESTIGATION OF CAFETERIA

Petition Circulating to Investi-  
gate Methods of Manage-  
ment of Cafeteria

In the form of an appeal to President Vinson, a petition requesting him to provide for an investigation of the management of the University Commons is being circulated among the University students.

The petition appeared Wednesday night and by noon on Thursday bore about a hundred signatures of men who eat at the Cafeteria. The petition states that certain unsatisfactory conditions have been called to the attention of the business manager and that no response has been made, and that there is no system of book-keeping to present the methods of management. Consequently, a change of management is being solicited.

The belief was prevalent that men at B. Hall originated the idea, but members of the B. Hall Association deny any official connection with the paper. Those who have signed it are students acting independently. They assert that more copies of the document will be made and a more thorough canvass for signatures will be promoted.

When a sufficient number of the patrons of the Caf have been given an opportunity to express their sentiments, the petition will be presented to President Vinson.

## Three Nominees Are Entered in Cactus Popularity Contest

Interest in the Cactus popularity contest is growing and, according to the management, this will be one of the most successful contests in the University's history.

At present there are three nominees in the contest: Emily Nalle, Chi Omega, of Austin; Eleanor Covert, Pi Beta Phi, of Austin; and Margaret Kelly, Kappa Kappa Gamma, of Dallas. Misses Covert and Kelly were featured on the beauty pages of the Cactus last year.

All nominations must be made by Tuesday, October 18, for the nomination period of the contest closes finally at that date.

The spoils of the winner of the contest will be a full page picture in the Cactus, and the honor of being the sponsor for the Thanksgiving game and queen of the Thanksgiving reception.

## CAPTAINS FOR ANNUAL FINANCE DRIVE NAMED

According to the publicity chairman of the Young Women's Christian Association, captains for the Y. W. C. A. finance drive next week have been appointed as follows:

Misses Ivy T. Creagh, Porter Lou Calhoun, Josephine Bennett, Agnes Weed, Ruth Bernard, Virginia Reed, Corinne Neal, Ruth Jackson, Martha McCoy, Johnnie Bell McDonald, Blossom Wooten and Elizabeth Vinson.

These captains in turn will appoint a number of lieutenants, and will canvass by districts. Miss May Lea Guthrie will be in charge of tables for subscriptions located on the campus at "busy corners" for the convenience of the student body.

## ALL PHYSICAL TRAINING CLASSES BEGIN FRIDAY

Classes in physical training for men begin Friday with the work consisting largely of setting-up exercises and military drill.

Between six and seven hundred men have registered for the freshman course. Instructor Roy J. McLean states that the examinations have proved fairly successful, but as yet it is impossible to give accurately the per cent of those below normal.

Ten sections have been organized with a teaching staff consisting of Mr. McLean, instructor, A. L. Ahrens, assistant, and the various members of the athletic council. The defective students are placed in a separate class and given mild exercise under the direction of Doctor S. M. Eckdahl.

## PRICES.

When the students returned to Austin this fall the talk on all sides was of low prices. Cattle had dropped to where it didn't pay the ranchman to ship to the packers. Cotton was almost valueless. Other farm products were down to rock bottom. Consequently, the boys from the farms felt justified in expecting to pass the year on considerably smaller budgets.

But lots of folks in Austin seem never to have heard about the big drop in prices. Take the boarding house keepers, for instance, who forgot to charge less for the same sort of meals they served last session, or the rooming house keepers who in many instances even raised the rents. Then there are the dealers in books and school supplies who have kept their prices at war levels. And the boy from the farm finds his expenses mounting up in as alarming a fashion this year as last, with smaller resources upon which to draw and all he can do is wonder what's wrong and try to communicate some news about prices to the kingdom where boarding house keepers and booksellers live.

A certain Mr. Voliva of Zion City, Illinois, has offered a reward of \$1000 to the college professor or layman who can prove that the world is a sphere or that it moves. The University Daily Kansan offers the following advice to would-be competitors for the reward:

"This is a chance for some bright student of the University of Kansas to push forward Mr. Voliva's thinking several centuries and incidentally win enormous money to buy a Ford coupe. We offer advice in the methods of gaining this reward as freely as Mr. Voliva offers the reward itself.

"First, look up the old geography which you studied in the grades wherein is shown a series of pictures of a ship. In the first picture the tip of the mast alone shows, and the remaining pictures show the lower part of the masts and the decks as the ship comes nearer. This is exhibit A and is indispensable. Then procure a small globe. Before entering Zion City leave all evidence of worldliness behind.

"On gaining an interview with Mr. Voliva display your scientific apparatus and recite your arguments which you have prepared carefully beforehand.

"If Mr. Voliva still believes that the world is shaped like a pancake after all your efforts, then lure him to the shore of Lake Michigan and point out to him a distant vessel and endeavor to make the truth evident by moving illustration. But if the successor to Alexander Dowie still remains obdurate step behind him and push him into the cold waters of Lake Michigan."

Two changes have been made in the policy of the Daily Texan. One is with regard to official notices. Meetings of all kinds will be announced in the weekly cal-

endar and will give only the name of the organization and the place and time of meeting. The official notice column will be reserved for notices of other kinds. Literary societies are of course entitled to short stories in the literary column.

A second change will be with regard to the policy of the Firing Line. Henceforward, no contributions will be printed unless signed with the signature to be published. The editor feels that it is but just for the man who has a grievance to make his name public. It is hardly fair to the individual or institution attacked to keep the name of the accuser secret.

If they keep on reducing the fare to Dallas for the Vanderbilt game, the whole University will adjourn to the fair for a day of festivity to see the Commodores and the Longhorns scrap it out in the big new stadium. The more the merrier, believes Mr. Belmont, and the game is certainly going to be worth seeing.

## OFFICIAL NOTICES

THE FOLLOWING new section is announced: Pure Mathematics 1bch.32; TTS 12: Ed. B. 307.

Thomas M. Hammond  
Sterling Holloway  
James H. Tips

Engineering Councilman  
E. D. Smith

## COFER LAWS TO FINISH CLUB'S REORGANIZATION

Reorganization of the Cofer Law Society, which was begun on Friday last, will be completed at the meeting this week, was the announcement made Thursday by those in charge of the work.

This society, which is composed of senior and middle law students, holds weekly trials in the practice court room in the Law building.

The trials involve points of law that have not been definitely decided in the Texas courts. Membership in the society is limited to twenty-five.

## NON-CONFERENCE GAMES WILL FEATURE FOOTBALL SCHEDULE FOR SATURDAY

Baylor-Boston, A. & M.-L. S. U.,  
and Rice-Tulane Games Are  
of Special Interest

Three non-conference football games will attract wide attention in Southwestern football circles Saturday. The Texas Aggies will meet Louisiana State University at Baton Rouge, Baylor University will meet Boston College at Dallas, and Rice Institute will battle Tulane University at Houston.

Last year L. S. U. and the Aggies played a scoreless tie at College Station. This year L. S. U., playing on its own field, is confident of victory. The Aggies were not forced to any great effort in their Wednesday game against Southern Methodist University at Dallas and will go on the field in great shape.

One of the surprises of the S. M. U. game was the fact that Evans, a new man on the A. and M. squad, has "shelved" Smith, a veteran end.

Wednesday the S. M. U. backs were unable to run back punts, due to the great work of the Farmer ends. Sammy Sanders was the sensation of the Aggies' backfield, gaining many yards with the ball and kicking in great style.

Murrah, who has been shifted from guard to center, did not show up especially well at that post for the Aggies.

Rice Institute's Owls, after a 17-14 defeat at the hands of the Baylor Bears, are now declared to be hard at work in preparation for the Tulane game.

Boston College, with but three regulars back from their great team of last year, will find a fighting eleven in meeting the Baylor Bears and a good game ought to be the result.

Oklahoma A. and M., a member of the Southwestern Conference, will meet Oklahoma University at Norman in a non-conference game on Saturday. Arkansas University, another conference team, will play Ouachita College at Little Rock and the Texas Longhorns, last year's Southwestern Conference champions, will meet Howard Payne here.

## ENGINEERS CONTINUE TO MAKE USE OF LOAN FUND

This year there has been an unusual number of applicants for the use of the loan fund for engineer students and every request has been met. This is in accordance with tradition for not since 1911 has any application been turned down. Peculiar to this year's conditions, however, is the fact that loans were made before matriculation; six students had to borrow from the fund before they could matriculate.

Mr. O'Bannon has just been elected from the faculty as a new member of the board of trustees which has the entire control of the fund. C. E. Moore of the junior class was also recently elected. The board of trustees is composed of the dean of the engineers, T. U. Taylor, ex-officio, two faculty men elected by the students and two students, one junior and one senior.

## FACULTY COMMITTEE TO INVESTIGATE CONDITIONS

Co-operation of the student body is needed by the Faculty Boarding-house Committee in the bettering of boarding and lodging conditions in the University, according to Miss Lucy Newton, chairman of the committee.

Concrete suggestions as to conditions which are not as they should be will be welcomed by Miss Newton. In her words, it is the desire of the committee to correct all unjust and wrong living environments.

Miss Newton wishes that all complaints and suggestions be left at her office, 111 Main Building, during the week beginning Friday, October 14th.

A special breakfast for 25c, dinner and supper 35c each—served quickly and attractively at the Violet Crown Inn.

## Expert Dressmaking

301 Littlefield Bldg.  
Mrs. Burns and Mrs. Dalstrom

## LONGHORN BAND WILL BE FEATURE OF RALLY FOR SATURDAY'S GAME

Abilene Papers Praise Band  
When It Played There For  
All-West Texas Fair

Appearing in full uniform and presenting a great variety of special feature numbers, the Longhorn Band will give a unique entertainment at the Men's Gymnasium Friday night. The rally for the Howard Payne game will be incorporated in the concert and preparations are being made to take care of an unusually large attendance.

The Band, under the direction of Burnett Pharr, will present a number of their special features which are said to have made an extraordinary hit with the large crowds attending the All-West Texas Fair at Abilene, where the Band played recently. The Abilene newspapers gave the Band first place among the many big features of the Fair and Abilene citizens were loud in their praise of the organization.

The Longhorn Band has consented to give its services for the All-University dance to be held at the Men's Gymnasium Friday night. In Abilene the Band played for several occasions of a like nature, including a big street dance given by the Shriners of Abilene. The Band has recently secured from New York the very latest dance music and is prepared to furnish some excellent music for the dance.

## Giants Defeat Yanks for Pennant Honors in Hard-Played Game

World's series honors of 1921 went to the New York Giants yesterday afternoon when the National League club won the eighth game of their series against the New York Yankees, 1 to 0. Nehf pitched great ball for the winners.

Hoyt walked Bancroft and Young in the first and Bancroft scored the only run of the game when Peckinpah let Kelly's grounder go through him.

"Babe" Ruth, previously kept out of the game by injuries, batted for Pipp in the ninth as the Yankees' "last hope," but grounded out to Kelly, unassisted.

The game yesterday was the Giants' fifth victory of the series, the Yankees having won three games.

Hoyt allowed six hits and walked four men. Nehf allowed four hits and issued free transportation to five.

## Hildebrand Talks to Pre-Law Society on Organization's Work

Before a large audience of students composing the Pre-Law Society, Judge Ira P. Hildebrand, acting dean of the law department, delivered an address on the necessity of such an organization as the Pre-Law Society and the aims that it should have for the future.

Judge Hildebrand stated that a student could reach any reasonable height to which his ambition leads him, provided ambition is tempered with common sense. He also said that no student could hope to get out of the Pre-Law Society more than he puts into it.

Judge Hildebrand said that he had been trying for fourteen years to decide just what courses were most essential for pre-law courses, and that he believed work of a more general nature was preferable to that more specialized.

In closing, Judge Hildebrand gave some topics as suggestions for discussions throughout the year, and he stressed the importance of having lawyers from over the state address the society.

## RACQUET CLUB PLANS LADDER TOURNAMENTS

Plans for increased activity and more members in the Racquet Club are well under way.

Last year, several tournaments were played off on the women's courts. A Round Robin was conducted for beginners and another tournament was held for advanced players. The team was chosen from the winners of these games and included the following girls: Beatrice Lytle, Hedwig Eichenberg, Doris Cook, and Virginia Mantor.

A new system is being planned for this year. The ladder tournament is a new idea that will be inaugurated for all girls interested in playing. One ladder will be for beginners, the other for advanced players. All girls may come to the gym for information concerning the team and the Racquet Club. Practices are being held every day.

## KANE KLUB INITIATION TO BE HELD NEXT WEEK

Initiation for membership in the Kane Klub, senior men's society of the academic department, will be held on Thursday, October 20, Tom Nash, King of the Kane, has announced. All men applying for academic, journalistic, or business administration degrees in June, 1922, are eligible for initiation and are expected to attend next week's ceremonies, which will be the only opportunity offered the senior men to belong to this traditional organization.

## COME ON, MARY

"Howdy, Mary."

"Hello, Bill."

"What you doin' down town?"

"I've been to the Majestic, and now I've missed supper."

"Say! If you're looking for food, let's go around here."

"It's the only place in town where you can get real Mexican dishes that are clean and the crowd is exclusive, Mary. Come on, let's go to

## Many Chemistry Students Earn Way As Assistants

Many worthy students are being aided in their efforts to secure an education by the Chemistry Department of the university. Although the exact number of student assistants and tutors for the present session of school has not been decided upon, not less than twenty-seven students will be employed.

The Chemistry Department is the only department in the University in which the amount paid the student staff exceeds the amounts paid the members of the faculty.

None of the students are allowed to hold positions higher than a tutorship, hence the positions are not tenable for more than two or three years. This arrangement enables a greater number of students to receive the experience and financial benefits which such a position gives.

Another interesting fact concerning the work of this department is that thirteen former students of the department are now studying for their Ph. D degree in other institutions. All of these students hold fellowships or assistantships.

## The Last Word In Winter Wraps

—Is the circular coat in nay of the rich, woolen materials you may fancy.

Many of these are self-trimmed, but for fur trimmings the beaver, fox, nutria and squirrel predominate.

These coats are charming with their full, loose backs, graceful trimmings and unusual fastenings. The University Girl should not miss the opportunity of seeing these desirable wraps.
