TRIANGULAR TRACK MEET WILL BE STAGED TODAY; FIVE TEAMS TO COMPETE

To Be Opening Event of Varsity Track and Field Season

By E. H. Steinhagen
Devotees of track and field events will be given their first opportunity to view Varsity's 1923 track and field stars in action Saturday afternoon in the first competitive track meet of the year, beginning at 3:30 o'clock at Clark Field. This meet is an annual triangular affair between the Varsity Longhorns, the Shorthorns, and the freshman cinder path artists. St Edwards College and the Austin High School have also signified their intentions of entering a few men in the different events. First and second place winners in the different events will be awarded prizes given by the business men of Austin.

The 120 yard hurdles will be the first race of the afternoon. In Sapp and Thames, Texas has two of the fleetest and most skillful hurdlers in the Conference.

Stinnett Going Great

In the 100 yard dash Beaumont Stinnett, Conference winner of last year, looks great in practice.

The 440 yard dash will more than likely be a thriller, with McNatt, Ritchie and Tittsworth to be considered "outsiders" having excellent chances.

Jim Reese, the big freshman of last year, is being touted as a record breaker in the 880 yard run. Reese is the possessor of great stamina and he will more than likely exceed the highest expectations of his admirers in his run this afternoon.

Loop to Run

In the mile run Varsity boasts of Tommie Loop, the Conference record holder. He may be an easy winner in this event. However, in the two mile run, Texas has two men of excellent calibre in Trout and Youngblood. Their race may be a nip and tuck fight to the finish.

In the pole vault, Varsity is ably represented by McCorquodale, a letter man and transfer from Rice, Barmore, a letter man from A. & M. and Atkinson, Texas' premier "bird man" of last year. Also in the high jump, Barmore and McLeary are jumpers of much ability.

McLeary is also a student of exceptional ability and has been recommended among several students to be sent to France for advanced work in Architecture.

Texas has a number of weight men and a prediction as to the winner of the shot put, discus and javelin events would be only a guess.

Baylor Bears Take Opening Game From St. Edward's Team

Special to The Texan—

Waco, Texas, March 23.—The Baylor Bears pried the lid off the 1923 baseball season here this afternoon by taking a 7 to 0 victory from St. Edward's College of Austin. Creasy, who started the game for the Bears, pitched four innings of perfect baseball. He did not allow a man to reach first base during his stay in the box.

The score:

St. Edwards	R. H. S.
Baylor	0 7 3
	7 14 0
Batteries: Saint Edward's, Woerber and McAtee; Baylor, Creasy, Lyons and Williamson, Covington. Umpire, Crosslin.	

CRIMM WILL GIVE SPECIAL TALK ON "BUG HUNTING"

"Bug Hunting" will be the subject of a special lecture to be given Monday night by Rev. B. B. Crimm at the Veterans Park, it was announced yesterday. Rev. Crimm, popularly known as the "Cowboy Evangelist," closes his Austin revival Sunday, and will make the Monday talk in the form of a special address. The lecture is said to be of educational interest.

TWO LONGHORNS WHO WILL RUN

BEAUMONT STINNETT

Beaumont Stinnett, tiny speed demon, will be very much in evidence in the century and furlong on Clark Field this afternoon. Stinnett won the 220-yard dash in every Conference meet last year. His best time is 22 2-5 seconds in that event. Stinnett has stepped the hundred in ten flat on several occasions.

GEORGE RITCHIE

George Ritchie of Mineral Wells won the Conference 440-yard dash last year and bids fair to make it interesting for his competitors again this year. He and McNatt won first and second in the 440 in every Conference meet last year for Texas and it will be an interesting race between the two for first place this afternoon in the triangular meet. Ritchie also runs a lap in the relay.

MEETING OF REGENTS IS POSTPONED, DATE NOT YET ANNOUNCED

Legislative Committee Plan Amendment Which May Increase Funds

Members of the Board of Regents of the University have been notified that the regular meeting scheduled for next Tuesday, March 27, has been postponed. No date has been fixed for the next meeting, as it depends upon the date of the special session of the Legislature.

Finance Plans in Order

Postponement resulted from the request of a joint legislative committee that it be given time to work out a larger, more comprehensive and complete plan for finances for the University, to be used in the erecting of permanent buildings.

This committee proposes to have its plans ready when the special session begins and the Regents will consider the plans just previous to that time. If agreeable to the Regents, it will go before the Legislature and be proposed as an amendment to the law recently enacted, which authorized the Regents to pledge the University's income for a period not exceeding fifteen years to secure funds to erect new buildings in place of the numerous shacks on the campus.

If the legislative committee's plan is not acceptable to the Regents or rejected by the Legislative body, the board will proceed with its loan of \$2,500,000 from the Brown-Crummer Company of Wichita, Kansas.

May Gain Larger Fund

Under the plan to be developed the Regents would be empowered to borrow more than \$2,500,000 and a way would be provided for issuing and selling securities. The University needs a large sum to complete its building program in Austin and at the Medical College in Galveston. It now has \$500,000 on hand and will get \$800,000 from the Littlefield estate. Building of the new biology building will take the money now in the University treasury.

BAPTIST CHURCH RALLY

Sunday morning at 9:30 at the University Baptist Church the mystery of the two oil derricks on the Church lawn will be solved. A unique meeting will be held for the stockholders of the Grayburg and the Magnolia companies which will convene in a joint meeting.

There will also be a special program given.

Dorothy DuMars Is Sensation In Houston Program

Special to The Texan—

Houston, Texas, March 23.—Miss Dorothy DuMars was greeted at the performance of the Longhorn Band here tonight with prolonged applause from her friends and acquaintances in Houston, whom she pleased with her interpretation of the Twelfth Hungarian Rhapsody. Second honors fell to the Stepping Steers, who completely swept the audience before them with their dance music, and by Jaybird Thomas, playing opposite Miss DuMars. The entire band concert was played in good style, each number receiving prolonged applause. The band will appear in Victoria Saturday night.

Oklahoma University Postpones Meet Here and Changes Line-up

Texas University's scheduled tilt with the formidable Oklahoma University tennis team has been postponed from March 29 to April 2. The reason for this postponement by the Oklahoma team is not known. Also, instead of a four man tennis team, they will send only one team, consisting of their ace Ben Parks, and his brilliant partner "Bus" Harrington. These men will tie-up with Captain Lewis White and "Red" Thalheimer.

Co-eds Appointed as Assistants in Girls Swimming Classes

With the opening of the large sports classes, the department of physical training for women has found it necessary to add instructors, these being three students. Lloyd Martin, who has made by far the best record toward awards, having won her blanket in her sophomore year, is to take the position of student instructor in swimming.

Thisba Worley, a senior who has also done some creditable work in athletics, and who has been taking the teachers' training course doing practice teaching with freshmen, will also teach swimming. Both of these girls are members of the Turtle Club.

As monitor for the Deep Eddy swimming classes, and the Lake canoeing classes, Lucile Traylor has been placed. She also is prominent in sports, and has been manager of canoeing all this year.

"Bulls" To Pose This Afternoon In Freak Garb

Bluebonnet Bulls, numbering eight, showed up at the preliminary meeting at the Cactus office yesterday and decided that they would pose for their pictures Saturday afternoon at the University Extension studio from 2 till 5 o'clock.

Because of the real beauty of many of the candidates, the Bulls in the meeting yesterday decided that artificial means would be necessary in order to interest the great cartoonist when he was judging their mispulschitude. So they all propose to pose in the most hilarious positions possible. Maline and costumes will be at the studio for the candidates to make up in.

To assure the success of the proposition all the Bulls will have to enter into the spirit of the thing and make a great farce over it. Anyway it's better to win by make up than natural ability.

Remember the place and time: University Extension Studio this afternoon 2 to 5.

MCKNIGHT IS ELECTED FROSH NINE CAPTAIN

Was Formerly Captain of Grubb's Vocational Base- ball Team

Roy "Buck" McKnight, left handed outfielder on the freshman baseball team, was elected captain of that nine by his teammates Thursday after practice on Brackenridge Field. McKnight is one of the best hitters on the freshman team and covers lots of territory in the outfield. He was a member of the Grubbs' Vocational team for two years and was captain of that nine last year.

Milton Romney, assistant Varsity football coach and head basketball coach, is now coaching the freshmen. Frank Gibson, catcher of the Boston National team, coached the freshmen the first two months of training, but left to join the Braves in St. Petersburg, Florida last week. Coach Romney played short stop on the University of Utah team for two years, but left the University of Chicago before he became eligible for the baseball team.

The freshmen played Sp. Ed. ward's in their first game of the season this week and beat them 20 to 5 in a six inning slaughter. On Monday the freshmen will play Austin High at House Park, starting at 4 o'clock. Clinton Burnett will probably hurl for the freshmen with Sid Fly on the receiving end. Spot Falk, star Austin High hurler, will probably pitch for his team with Molden doing the catching.

First Baseman From 1922 Baseball Team Returns to Varsity

John Mulcahy of El Paso, first sacker on the eleventh Southwestern Conference championship team last year, is back in school. Johnnie, who hung up a neat hitting average last year, re-entered school this spring term.

Mulcahy played his first year on the Longhorns last season and is eligible for two more years upon the Varsity nine. He is a junior in the School of Engineering, taking electrical engineering as his major course.

CALENDAR

Saturday
2 p.m., Rifle Club, Woman's Gym.
2:30, p.m., 10-mile paddle leaves boathouse.
2-5 p.m., Bluebonnet Bulls, Extension Studio.
4-7 p.m., Open Camp for Y. W. C. A. girls, Camp Fire Girls' Camp.
8 p.m., Candy Pull, Faculty Club House.
Sunday
11 a.m., Morning services in all University churches.
11 a.m., Newman Club, Newman clubroom.
5:45 p.m., Sunday Club, Gregg House.

CARSON'S DOUBLE WINS SECOND CONTEST FROM HOUSTON BUFFS, 6 TO 5

OUTGOING AUSTIN MAIL WILL BE STAMPED WITH DATE OF CELEBRATION

About a Million Pieces of Mail Will Be Cancelled

Through the efforts of Postmaster George H. Sparenburg of Austin, and Robert Bledsoe, acting manager of the Fortieth Anniversary Celebration, all the necessary papers have been forwarded to the postoffice department at Washington to obtain a special die for cancelling all outgoing mail with the following: "Fortieth Anniversary Celebration, U. of T., May 10-12," thus advertising the celebration all over the United States and in many foreign countries. Mr. Sparenburg sent letters from I. P. Lochridge, business manager of the University, President Robert E. Vinson, E. J. Mathews, registrar, and Judge D. J. Bland of Orange, acting president of the Ex-students' Association, and added his own personal request for the granting of permission for the use of the die.

Will Gain Publicity

Mr. Sparenburg says that on the basis of thirty days, between three quarters of a million and one million pieces of mail, going to all parts of the world, will be run through this cancelling machine. The celebration will get the benefit of the increased spring business. Mr. Sparenburg estimates that between thirty-five and forty thousand pieces of mail now pass through the Austin postoffice daily.

Sparenburg Will Aid

Mr. Sparenburg has promised to have the mail from the University and capitol stations brought to the main office so that it can be run through the cancelling device and says that he will do all in his power to help the University and the University students put the celebration over.

Will Interest Collectors

The imprint of this die will probably go into the collections of stamp collectors all over the world. For Mr. Sparenburg says that during the San Sam and Central Texas Fair he had letters from all over the United States and about a dozen foreign countries asking that an enclosed envelope be run through the special die used then, in order that the writers might keep it in their collection.

Devereux Players Give "Arms and the Man" at Junior High

Clifford Devereux, Zinita Graf and supporting cast, presented George Bernard Shaw's "Arms and the Man," a burlesque on militarism and romance, before a small audience in the Junior High Auditorium Friday afternoon at 3 o'clock.

The two principal actors were particularly well suited to the parts in which they appeared, Clifford Devereux appearing as Captain Bluntschli, a professional soldier, and Zinita Graf in the part of Raina Petkoff, daughter of a Bulgarian army officer. Although the audience was small, it was an appreciative one, receiving the play with much enthusiasm.

"Romeo and Juliet," presented Friday night at 8:30, with Miss Graf as Juliet and Mr. Devereux in the part of Romeo, was far superior to the two preceding plays both in acting and in interpretation. The balcony scene afforded both an excellent opportunity to display their skill and dramatic ability. The entire supporting cast showed exceptional cooperation throughout the play. This last play was presented to a capacity house, everyone lauding Clifford Devereux and his company of talented players.

GRAY ATTENDS THIRD ANNUAL MID-WESTERN STUDENT CONFERENCE

Student Government and Problems Discussed at Meeting

Archie Gray, president of the Students' Association, was University of Texas representative at the third annual Mid-Western Student Conference which met March 15, at the University of Illinois, for the purpose of discussing matters pertaining to student government and student problems. The conference aims to benefit the different schools by interchange of the ideas of the respective representatives.

On the first day of the conference, according to Gray, publications came under discussion. This was followed later by discussions on student government and athletics. To quote Mr. Gray, "I feel that the conference will be a splendid help to all universities represented there, and am glad to say that Texas stood among the foremost. Only one other institution has publications incorporated as does Texas, and Texas is the only one in which the blanket system is employed. Although most of the other representatives seem to have heard a great deal of the system, most of them are of the opinion that it would not be successful unless every student was compelled to purchase the Blanket Tax Ticket."

Gray states that although the majority of the schools have comics, they are not in favor of a beauty page, considering it a point of eternal convention. "Texas," says Gray, "is the first one to institute the system of student government, and one of the first to employ the honor system. Since the adoption of this system by Texas, nearly all the others have followed her example."

Benton Morgan Mentioned

Gray says that the idea of holding the Mid-Western Student Conference first originated at the University of Missouri, in conjunction with a plan proposed by Benton Morgan, who at that time was president of the Student's Association of the University of Texas. The first meeting was held at the University of Missouri the second at the University of Kentucky, and the one next year will take place at the University of Tennessee.

"They entertained us royally," stated Gray, "giving teas and banquets in our honor. We were lodged in fraternity houses and dormitories, and had a fine time. It snowed almost all the time, and we had two terrible blizzards."

The following is a partial list of the Universities sending delegates: Arkansas, Carnegie Tech, Chicago, De Pauw, Illinois, Kansas, Miami, Michigan, Kentucky, Minnesota, North Dakota, Notre Dame, Ohio, Wesleyan, Purdue, Tulane, Wisconsin, Missouri and Texas.

CO-EDS WILL FLY KITES SATURDAY AFTERNOON

With open house scheduled at Oak Lodge, the chief entertainment promised is kite-flying. Co-eds are urged to attend, bringing the necessary kites with them. Besides that, the day is a full Saturday, with all the other cabins open, resuscitation and saving land drills at the houseboat, rifle club at Camp Mabry, swimming, and if it rains, games and sports in the Woman's Gymnasium. The horse-back riding classes will leave the Woman's Building court at 3 p.m.

Hero of Thursday Game delivers Second Win- ning Hit

By George T. Kirksey

The dragon struck twice in the same place. Thursday, evidently, did not convince the Houston hurling corps that elongated Eddie Carson is "poisonous" and far too dangerous to toy with, and as a result, Houston, supposedly a Class A League ball team, was again made to sip from the cup of defeat yesterday afternoon by a long yellow bat in the hands of this same lad who single-handedly turned defeat into victory on Thursday. The final score was Longhorns 6, Houston 5.

With the score tied into a Gordian knot at five all in the last half of the eighth inning, J. Edward Carson in social circles but plain old "Bugs" upon the diamond, wrote the climax to the second defeat of the Buffaloes. Heinie Odom, first up in the inning, fanned. Oliver Clift dropped one into left field for a bingle and Jack Sledge popped up to third. Two men were down and "Bugs" Carson, home run hero of Thursday, came up.

And just exactly six inches by measurement is all his terrific drive to the left field pallisades lacked of landing outside of Clark Field for another sensational home run, but it was good for two bases, the winning run, and the second victory from the Houston Buffaloes.

Enters Game Late

Carson was on the bench for five innings of the game yesterday, and went into the fray in the sixth to replace Joe Ward in right field, who went behind the plate to replace Arthur Allen. In the seventh frame Carson made his first appearance at the bat and drove out a single to left on which he later scored. A perfect day, we would call it, for this pride of Waxahachie.

Oscar Eckhardt and Paul Ord, southpaw, did the hurling for the Steers and held the Buffs to eight hits between them. Eckhardt was on the mound the first five innings and was nicked for five blows and three runs. Paul Ord, who relieved him, held the Houston club to three hits and two runs. Both pitched good, steady baseball, and give further assurance that Texas will not be pitifully weak in the box this season.

Bill Bailey Good

Bill Bailey, veteran left hander, had the Longhorns eating out of his service-noon hand for five frames. Only three hits were garnered off him while he was in the box. He struck out 11 batters out of a possible 19 and only one run was made off him. Mac Severn, former A. & M. hurler, who relieved him in the sixth, started off well with three strike outs in that inning, but that was as far as the big right hander went. In the next two rounds he was nicked for seven hits and five runs and incidentally, a ball game.

Ward Triples

A triple by "Tarzan Joe" Ward in the second inning and a sacrifice fly by Odom scored the first run for Texas. No more scoring by the Longhorns took place again until the seventh. With Texas three runs behind, it looked like Houston's ball game, but the Longhorns are not beaten until that last out has been marked up. The second Alamo-Peck game and the two Houston games verify this.

Clift, first up, was hit by a pitched ball in the seventh. Sledge drove Clift across the rubber with a double. Carson singled to right and Sledge took third. On an attempted squeeze play when signals were mixed, Sledge was caught off third in a chase and finally tagged out. Carson took second on the play. Ord popped up to Vick, who caught the ball jam up against the grand stand. Kibbie scratched a hit and Carson tallied. Kibbie stole second and scored on Smalley's rap to left center. Smalley scored on Captain Leissner's single. Ward ended the

THE ETERNAL HOPE

Members of the 1923 senior class are to be congratulated on their earnest and untiring efforts to make commencement exercises and graduation entertainments this year a little more interesting and enjoyable than those of the past.

Although it is likely, as has been the case so many times before, that graduation days will be a disappointment in spite of the wishes and efforts of the seniors, that the class of '23 still has courage enough to tackle such a heretofore hopeless undertaking is highly commendable. There really seems no particular reason why commencement exercises should continue to hold a place of aversion in the mind of the senior that is now the case. During the last two or three years, the exercises for many reasons, some of them unavoidable, have been one variegated cross between an excruciating bore and a terrible agony. In any case, the reluctant senior has been almost literally dragged through the hours of useless ceremony and tiresome speeches, until the conclusion is prevalent that graduation, instead of being the place of refuge and quiet after four years of struggle with grade curves, assignments, professors, examinations, and what-nots, is really the concentrated essence of so many years unpleasantness.

While it is far from the purpose of this article to advocate the mailing of degrees by special delivery letter, or any other simple means of distribution that would deprive so many well-meaning persons of their privilege of dealing out so much advice on the "coming great battle of life," it does seem that some slight alterations might be made in the annual methods of holding commencement. To say the least, it seems that the poor downtrodden senior should be allowed to enjoy a few of the fruits of his four years effort, instead of offering mental prayers that the "Lord will let him live through graduation."

—H.C.F.

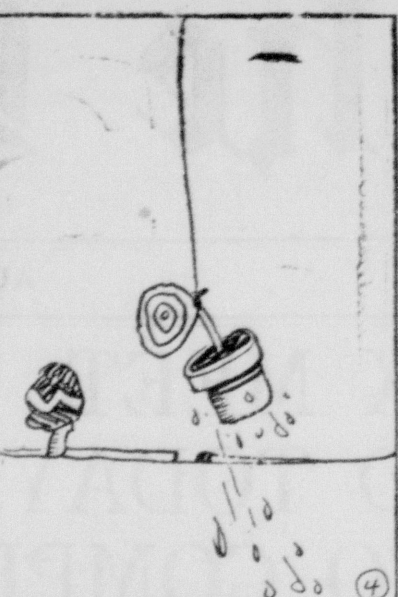

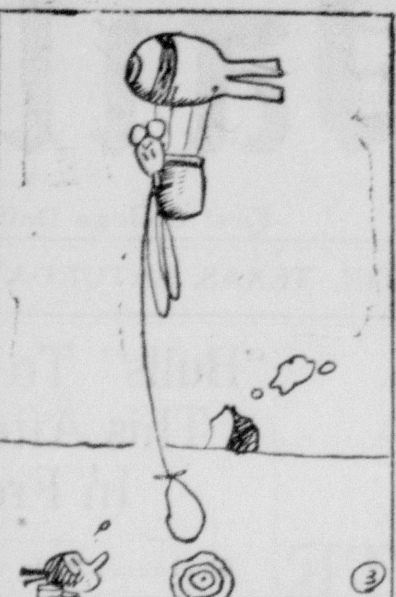

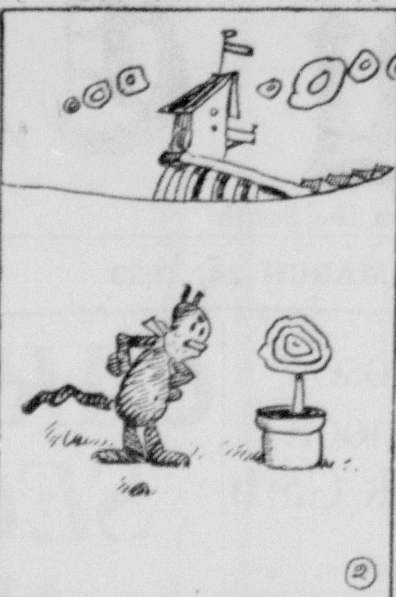

PLANS OF THE CLASS OF '23

As a means of improving conditions during commencement, seniors of all departments and schools of the University have expressed themselves practically unanimously in favor of three things: That President Vinson deliver the graduating address, that seniors be excused from spring term examinations, and that more social affairs be given.

It is indeed fitting that President Vinson should deliver what will probably be his last official address as President of the University to the students who are hearing, as students, probably their last address of a college president.

KRAZY KAT

'Twas ever thus

Spring is Here

Spring have come, winter have went, It was not did by accident;

The snow have melt, the birds have flew,
Where they've went we'll never knew.

Two Varsity freshmen, after having spent two strenuous terms in the University, have come to the conclusion that the main fault with the school is that you can't get educated for trying to pass courses.

First stude: "Oh, my! but I made the honor roll."

Second Stude: "Hot dog! I stayed in school."

Third Stude: "After all, there's no place like home."

Young Aesop: "It's a fine school that can please everybody."

The Dumbell

She Thinks That:

The Virginia Creeper is a railroad. A foul ball is a chicken croquette.

The cops are employed at Clark Field to keep the players from stealing bases.

A telephone is a dating machine.

"John, get on your knees if you are going to propose."

"Well, you'll have to move then."

Absence makes the heart grow fonder

So the people say;

That's why we love the pros so well

On the days they stay away.

TEXAS RANKED HIGH IN SCHOOL STANDING COMPUTED BY EXPERT

University Is Sixth in Enrollment in College of Arts and Sciences

In an article published recently by Raymonds Walters giving statistics on the development of all the representative American colleges, figures on the departments of the University of Texas are given. Among the thirty foremost American colleges, Texas stands sixth in its present enrollment in the College of Arts and Sciences. California heads the list with 7,911 students; then follow Michigan, Minnesota, Iowa, Ohio and Texas, which has an Arts enrollment of 2,873.

Within the department of Liberal Arts, Texas stands tenth in the number of men students registered, having 1415, and fifth in number of women students, having 1,458. California leads in number of women students with 5,452. Michigan

has more men in its Arts College than any other college, having 3,032.

Texas stands tenth in enrollment in its Engineering College, with 650 students, sixth in its Law School, with 295 students, fourteenth in its School of Medicine, with 282 students, sixth in its School of Education, with 715 students, and ninth in its Summer School, with 2,187 students. In its graduate school Texas ranks nineteenth, having 162 students, while Columbia has 1,614.

In total enrollment of full time students California leads with 14,061 students, while Texas stands sixteenth with 4,691. In total number of resident students, which includes summer students, Texas is seventeenth with an enrollment of 7,097.

In the last five years enrollment has increased 56 per cent among full

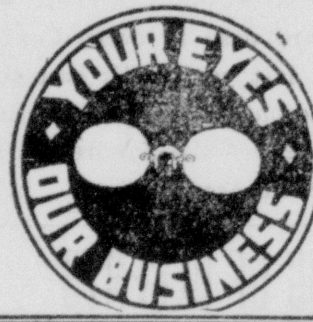

time students in American colleges, and 80 per cent among all students.

Enrollment in the University of Oklahoma is 3,321, Vanderbilt, 1,300, Western Reserve, 2,235 and Yale, 3,864. The faculty staff at Yale, where the enrollment is much less than at Texas University, is 452, while Texas has only 366 faculty members, which is far below what it should be for the number of students.

FAIRFAX NISBET, Editor

Johnson-Knebel
Announcement has been received of the marriage of Miss Mary Ruth Knebel of San Antonio to Blake Johnson of Waco, March 17, at the Travis Park Methodist Church in San Antonio. The bride was a student in the University last term and the groom will receive his LL. B. degree from the Law School of the University in June. He is a member of Delta Theta Phi fraternity. Mr. and Mrs. Johnson will make their home in Austin.

Tyler Lee Knight and Janice East-erling will spend the week-end in Tyler. Mrs. Knight and Mrs. East-erling are guests at the Alpha Delta Pi house until Saturday.

Henry A. Handrick who underwent an operation for appendicitis Tuesday in San Antonio is now improving.

Judge L. L. Bowman of Greenville is visiting at the Phi Kappa Psi house.

Mrs. Milburn of San Antonio is visiting her daughter, Miriam, at the Pi Beta Phi house.

Patches Spencer has gone to San Antonio for a short visit.

Velma Jackson and Pearl Rude are spending the week-end in Dallas.

Hilda Sacks is spending the week-end in San Antonio.

Porter Lou Calhoun is spending the week-end in Fort Worth.

Clara Cliff is spending the week-end in San Antonio.

Natalie Werner is spending the week-end in Houston.

Miss Elfleda Littlejohn is spending the week-end in Georgetown.

Kate Roberts is spending the week-end in Georgetown.

Anna Woodson of Temple is the guest of Dorothy Burns for the week-end.

Lucile Ellis is spending the week-end in Waco.

Mrs. A. O. Wicks of San Antonio is visiting at the Pi Beta Phi house.

Phi Gamma Delta announces the pledging of Walter Faust Jr. of New Braunfels.

Bess Kirven has gone to her home in Corsicana for the week-end.

American screen, "The Birth of a Nation."

This wonderful picture comes to the Hancock today and for the balance of the week. In it we see the successive events in our history that have gone to make the United States the powerful nation that it is today, and Mr. Griffith spares no trouble or expense in making the dramatic scenes true to life and historically correct.

A gripping love story pervades the story and keeps a romantic interest uppermost in the minds of the audience from the very opening scenes to the final curtain.

THEATRES

THEATRE CALENDAR

Queen: Charlie Chaplin in "The Pilgrim."
Texas: Mary Pickford in "Pollyanna."
Majestic: Agnes Ayres and Theodore Roberts in "Racing Hearts."
Hancock: "The Birth of a Nation."

Texas
Mary Pickford as the Glad Girl in "Pollyanna," released by the United Artists Corporation, will spread the sunshine of Eleanor H. Porter's philosophy at the Texas Theatre today for the last time.

This picture is said to be the best vehicle in which Miss Pickford has ever appeared. A mermaid comedy and Pathe Review completes the program.

Queen
Charlie has come to town! And he's playing at the Queen for the rest of the week in "The Pilgrim." "The Pilgrim" like "The Kid" is a feature production, but out-and-out comedy predominates the plot. Charlie's assistant is a second Jackie Coogan, young "Dinky" Dean to be exact, and he's just four years old. This young man has the role of the precocious youngster who spoils the festivities at the home of the church deacon who gives a party in honor of the arrival of the new "parson." Little does the deacon or anyone else suspect that the "parson" (Charlie, himself) is an escaped convict masquerading in the clothes of a minister.

The boy runs the gamut of mischief. He slaps the "parson," gets his father's face tangled up in fly paper and mixes up a derby hat in the plum pudding. The derby just fits the pudding neatly and the unsuspecting parson, helping in the kitchen, pours the sauce over it, garnishing the piece of resistance at the top with berries. When it comes time for dessert, the parson is called upon to serve it. Then the subtle production is said to reach its greatest comedy heights with "Dinky" Dean sharing in the honors with Charlie.

Sport Gossip

By Howard McMahon

The freshman baseball team lost a very able coach when Frank Gibson left for Miami, Florida to join the Boston Braves with whom he has played for the past two years. Mr. Gibson has settled his contract difficulties with the Boston magnates and is now ready to serve them in his usual splendid manner. We regret to see the freshman coach go but we wish him the best season of his career.

With the termination of the basketball season, Coach Romney has taken up the duties of coaching the freshman baseball squad. Milt will fill the place of Frank Gibson in fine shape, for though he may not be a player of national fame, as is Frank, he has proved to every one's satisfaction that he can make his men fight in true Texas style.

Lester Settegast the Longhorn pivot man is back in school again. The tall youth made the first appearance on the campus Tuesday that he has made since his accident. He showed the effects of the spill, but he is fast getting well and he says that the Aggies had better look out next year.

You too can enjoy the prestige of being a victor at the national sport if you will come to B. M. Whitaker and get a set of horse shoes and practice hard enough. The Athletic Council is having the intramural department furnish the sets free so come get 'em.

With the metallic ring of steel shoes striking iron stakes coming from every direction, one wonders what it is all about and goes to investigate. You approach a group of eds who are watching the progress of the barnyard golf tournament.

ment and hear each enthusiastic onlooker shout with glee when his favorite hits a ringer. You walk five blocks and pass several such groups and by that time you have to say, "Ain't pitching horse shoes popular."

Students of Semitics Make Historical Survey of Post-Biblical Jews

Students in the department of semitics of the University of Texas are making a complete survey of the life history and literature of the Semitic race, confining their study to post-Biblical times, according to Dr. Nathan E. Barasch, instructor in Semitics.

"Narrow traditions are discarded and an effort is made to get at the truth in a scientific way," according to Dr. Barasch. "The history of the Jews as recorded in the Bible is the oldest in the world and the only one that has not been interpreted by profane historians."

Dr. Barasch succeeded Dr. David Rosenbaum at the University. Before coming to that institution Dr. Barasch was rabbi in the church at Orange, N. Y. He graduated from the University of Cincinnati, and the Hebrew Union College of Ohio.

HOGG CHAIR

Methods of raising funds for the James Stephens Hogg endowed chair in the University will be considered again at the meeting of the Texas State Federation of Labor at Dallas on May 21, according to George Slater, president of the organization. A motion was carried at a meeting of the Federation in Galveston in 1921 which provided that an endowed chair for the study of industrial relationships be established in the University, the name of which was to be the James Stephen Hogg Chair. No provisions were made for funds for the endowment, but plans for the raising of the money will be formulated at the convention in Dallas.

THE THIRTEENTH CHAIR HAS NOT BEEN FOUND

The finder will win a box (6 tickets) for Monday night. It is hidden somewhere in the nooks, corner or shelves about the campus.

Don't Miss It!

ADVERTISE IN THE DAILY TEXAN

PREPARATIONS MADE FOR BIG RECEPTION TO HONOR NEW COACH

Students Will Greet "Doc" Stewart Tuesday Night at Y.M.C.A.

Headed by Shorty Nowotny, Varsity yell leader, students of the University of Texas are to have a reception Tuesday night at 7:30 o'clock at the Y. M. C. A. in honor of E. J. Stewart, Varsity's new Longhorn football mentor. Dr. D. A. Penick, president of the Southwestern Conference, will make a short address and will be followed by Archie D. Gray, president of the Students' Association and also football letter man, who will introduce Coach "Doc" Stewart to the students of the University.

Refreshments of ice cream and cake will be served and every student attending the reception will be given the opportunity of meeting Coach Stewart personally.

Coach Stewart recently received a letter from Line Coach Seddon, in which he speaks very high of Texas and its athletes.

"I was mighty glad to hear from you and to know that we are going to work together next fall. I want to say that you will never work with a finer bunch of men than those Texans. I certainly have enjoyed my last three years with them, and am looking forward to a successful season next fall. I certainly do hope that you will be able to come to Columbus this summer as I am sure we would have many things to talk over in common. You have many friends in Columbus as I have talked to several men who know you and your successful career."

LONGHORNS WIN

(Continued from page 1)

inning by grounding out, second to first.

The Thrilling Eighth

Then came the thrilling eighth and Eddie Carson's rap that squelched the last dying efforts of a beaten ball club.

Houston made three runs in the third on two walks to Griffith and Untz, a stolen base by the latter, and singles in succession by Vick and Ammons. A single by Hexemer, a wild heave by Ord in an attempt to catch him off first, and a bingle by Severn scored another run for the Buffs in the seventh. A home run over the left field wall in the eighth by Johnny Bechtol scored the last run for the Bayou City nine.

Monday and Tuesday the Southwestern Pirates will pass in review before the grand stand at Clark Field in two clashes with Billy Ditch's fightin' Longhorn team of 1923.

The box score:

Texas	AB.	R.	H.	P.O.	A.	E.
Kibbie, ss	4	1	1	4	2	0
Smalley, 3b	4	1	1	3	1	0

COURSE CHANGES

Monday, March 26, is the last day this term for taking up a new course or changing a section in the College of Arts, the Department of Education, and the College of Engineering. To take up a new course a student must apply to the dean of his department; for a section change he must apply to the chairman of the school concerned and then to his dean. Unless the University is responsible, a fee of \$3 is due for each course addition or section change.

H. Y. BENEDICT,
Dean.

BEAUMONT CITIZENS WANT TULANE GAME

Delegation Meets With Athletic Council in Effort to Land Date

Headed by H. M. Hargroves, President of the San Jacinto Life Insurance Company, a delegation of Beaumont citizens met the Athletic Council in a closed meeting Friday afternoon in an effort to land the Texas-Tulane football game on October 13. Galveston is also making an effort to get this game for their city and Council officials have not yet decided which town will draw this gridiron affair. It is said, however, that Beaumont would probably draw a larger attendance for the game than the neighboring city of Galveston.

Football Popular

Football has a strong following in Beaumont and has contributed many stars to Texas colleges. Kyle "Icky" Elam, an All-Southwestern man of 1921, and Edwin Bluestein on the past year's Longhorn team hailed from Beaumont High School. Also the fighting "Bull" Johnson of Aggieland fame claims Beaumont as his home. These men have done much to put Beaumont in fever heat for a collegiate affair as evidenced by the sending of a delegation of prominent men to Austin in the game's behalf.

The Athletic Council's final decision in selecting the favored city will not be announced for several days, according to L. Theo. Bellmont, director of athletics.

Faculty Club to Stage Candy Pull for Texas Profs

Members of the University faculty will enjoy a full-fledged candy pull tonight.

The Faculty Club is staging the affair. In issuing the "call to battle," Dr. M. R. Gutsch, secretary, wrote the following to the faculty members:

"Candy for pulling will be provided by one of the candy kitchens down town and those skilled in the rustic art of candy pulling will be given an opportunity to shine in their specialty.

"Candy will also be brought in by persons of either sex associated with the club and submitted in a contest for prizes. The person who, in the judgment of the judges, submits the best specimen of candy will be awarded a first prize of a value of at least five dollars; the second best specimen will be awarded a second prize of a value of at least two and a half dollars.

"The judges will be old bachelors or old maids, whose lives are of least value to the community should they perish from eating too much of the specimens submitted.

"A physician of recognized skill and reputation will be on hand to take care of casualties in the most approved football manner.

"Cakes having little starch and which approximate candy in character and in deadly qualities, such as fruit cake and plum pudding, will be accepted as candy.

"The mental testing will be to determine the fitness of faculty members to teach undergraduates in this University and will represent the interests and the viewpoint of the student. All mental testing before now has been wholly from the wrong angle. All education is for the student and should be conducted not only in his interests but largely by him. Before now he has been largely ignored and victimized by the whole outrageous procedure. This test will right the prevailing wrong. You who know who is who in the athletic world and in the movies, who know the famous pomades and jazz dances will be permitted to continue to follow the youth of this state in matters educational; the ignorant and unworthy will be relegated to other walks of life. Come one, come all, and let's have some fun.

ASSISTANTS IN CHEM ARE PAID BIG TOTAL

Many University of Texas Graduate Students Are Doing Graduate Work

More money was paid to student assistants in the department of chemistry at the University than to instructors and professors during the last school year, according to Dr. J. R. Bailey, professor in that department. It is the policy of the chemistry department to give every opportunity to worthy students taking advanced courses and to aid those in need of financial assistance.

Personal Relationship

"In this department," Dr. Bailey said, "we try to establish the closest personal relations between the faculty and worthy students. We employ 25 students as assistants, thereby giving work to many who would otherwise have to withdraw from school or take up some work in which they are not interested. While working as assistants, these students are encouraged to take advantage of the facilities we have for research work. We have one of the best chemical libraries in the United States, plenty of research equipment and are usually engaged in some phase of research work that has commercial possibilities."

Many Doctors Degrees

Although no doctor's degree has ever been granted in chemistry by the University, more graduates of the school have taken their doctor's degree from other institutions in chemistry than in any other one subject. It is the policy of the department to encourage students to attend other institutions after finishing the course of chemistry offered at the University. There are more alumni of the University doing graduate work in chemistry in Yale than from any other school in the country, with the exception of Yale itself. The students have uniformly made exceptional records in other schools, it is stated.

At present University graduate students are doing research work on scholarships granted them for some particular meritorious work at Massachusetts Institute of Technology, at Yale University, University of Chicago, Ohio University, Mellon Institute and California School of Technology.

Number of Courses by Correspondence Larger This Year

Considerable progress has been made in the past year in the extension teaching centers of the University, the number registering for correspondence courses greatly outnumbering that of last year, according to Miss Julia Vance, registrar of the extension teaching division. Each of the three extension centers show a favorable increase in the number registering for courses. There are at present 90 students in San Antonio registered for correspondence courses in the University department of extension, 35 from Fort Worth, and 81 from Houston. These numbers show an increase over last year's registration by 37 from San Antonio, 27 from Fort Worth and 41 from Houston. Business administration courses are by far the most popular ones and economics is also in great demand.

INTERSCHOLASTIC MEET

The Travis County Interscholastic League meet was held at the University yesterday, and the campus was liberally sprinkled with children, parents, teachers, and League officials throughout the day.

NEW Y.W. OFFICERS ENTERTAIN MEMBERS

Conference and Entertainment Mark Installation of New Cabinet

Johnnye Gilkerson, president-elect of the Y.W.C.A., has announced the new cabinet for this year. Installation will take place at Vesper services Monday at 5 o'clock in the Girls' Study Hall. This week-end cabinet council is being held at the camp fire girls camp up the river from Oak Lodge, and conferences between the new and old officers will mark the transition to the new Y.W.C.A. year. All members of Y.W.C.A. are invited to visit the council between 4 and 7 Saturday and be guests of the old and new officers for supper and the evening program. Sunday at 11 Miss Newton will speak to the girls, and Dr. Barton will speak Sunday afternoon.

Members of the new cabinet who will be installed are: Johnnye Gilkerson, president; Rachel Summers, vice president; Thula Hardie, social chairman; Marion Paul, social service; Ruth Ropes, assistant social service; Mary Mixon, secretary; Zel-da Ramsey, treasurer; Elizabeth Boykin, publicity chairman; Agatha McLarry, world fellowship; Rachael Dunaway, undergraduate representative; Idalene Gullidge, religious education; Mary Walker, assistant finance chairman; Elizabeth Cox, chairman of junior cabinet; Bernice Milburn, finance chairman.

Varsity Y.M.C.A. to Elect Officers at Meeting Tuesday

Annual election of cabinet officers for the University Y. M. C. A. will be held Tuesday, March 27, at 7 p. m. at the "Y." A nominating committee chosen from the present cabinet and composed of Adolphus Moore, chairman, A. B. McCurdy, Sim Kelly, and Robert G. Bledsoe, have presented the following nominations which were accepted by the cabinet: Herman A. Brantigan of Jewett, president; Ralph Wood of Houston, vice president; and Byron Kennedy of Coleman, recording secretary.

The election is held by the membership of the Association, twenty-five members being necessary to constitute a quorum.

The constitution of the Association provides that any active member may make nominations for the offices by filing the names of the nominees and the offices for which they are nominated with the general secretary of the "Y" not less than forty-eight hours before the election.

The names of all candidates will be posted in the "Y" twenty-four hours before the election. The officials of the Y. M. C. A. urge that as many members come out for this election Tuesday night as possible.

Advisory Board and Y.W.C.A. Officers Will Be Entertained

Both the old and new cabinets of the Y. W. C. A. are holding cabinet council this week-end at the Camp Fire Girls' Camp on the river below Oak Lodge. Open house will be held Saturday evening from 4 to 7 for all girls who may be interested in going out. Supper will be served at 6.

JOINT CONCERT

A joint concert of the Girls Glee Club and University Orchestra will be given April 12, according to Professor Reed.

Texas Municipality League Will Meet on May Ninth-Tenth

Under the auspices of the Bureau of Government research of the University, the annual convention of the League of Texas Municipalities, made up of more than 100 Texas towns and cities, will be held in Bryan on May 9-10. Representatives from a majority of the number of cities are expected for convention.

Frank M. Stewart, instructor in government in the University and secretary of the League, is in charge of preparing the program for the meeting. No definite program has yet been laid out, but a number of subjects of interest to Texas towns will be discussed. The proposal to place all interurban utilities under the supervision of the Texas Railroad Commission, which was recently defeated as a bill in the legislature, will be taken up, and an attempt will be made to reach a decision on the merits of the proposition. City zoning laws, beautification of streets, park planning, water supply problems, and matters of city financing will also be discussed. E. R. Cockrell, mayor of Fort Worth, who is president of the League, will preside and lead the discussion.

EVOLUTION OF STUDENTS?

The 1883 prototypes of the present flappers, jelly-beans, and other campus characters will be introduced at the Costume Ball Saturday, according to plans now being made. A review of the characteristics and affairs of forty years ago will indicate that people and things have not greatly changed during the four decades of the University's life. There have been, of course, alterations and changes in customs and in folks; but, on casting aside the superficial peculiarities of each age, the student body of today is discovered to be closely akin to that of 1883.

Old-fashioned folks are prone to berate the young people of the present generation for their foibles and fancies; yet the Varsity belles and beaux of forty years ago, from all reports, were not so very slow and prudish. The flapper of 1883 did not bob her hair or frolic in a one-piece bathing suit; yet, by the artful use of bustles, furbelows, and flounces she presented her charms to the best attractions, considering the limitations of the time.

The parlor and porch-swing sport of forty years ago was not called a "jelly-bean," but he had kindred ear-marks of the present fifty-seven varieties. He had to use olive oil in place of the present convenient stacomb, but he obtained as much distinction from wearing plug hats and derbies as the present fancy crushes of headwear afford. Trousers of that day may have been baggy and without the knife-crease of the present, but the brilliant cravats and vests gave the "dude" of 1883 considerable latitude for personal embellishment.

According to some of the old timers, we are led to believe that the students in "ye olden times" were very, very serious and studious individuals. Perhaps they did spend most of their time over books, but we have it from rumor that dances were even then popular diversions, while buggy-riding provided about as much enjoyment as the automobiles of today. It is not surprising that students of today are essentially similar to those of forty years ago. The genus Youth lives on forever.

CURIOSITY KILLED A—

Dr. Allyn K. Foster, in his lecture on Monday, made a timely reference to the importance of watching, and properly satisfying the instinct of curiosity. Real curiosity, which is not the idle desire of prying into the affairs of others, is an expression of intellectual activity,

of an eager thirst for knowledge and information. Those who are intellectually curious about life and things never reach a stage of satisfaction, as knowledge stimulates mental curiosity all the more. Individuals who become satisfied with the mental faculties and their knowledge become stagnant and unproductive.

In the face of this paramount importance of mental curiosity, it is strange that on every side efforts are being made to hinder and block the legitimate exercise of curiosity. Children, desiring to know something about the mysterious events of life, are "hushed up" by their parents, or scolded merely because they want to know "why" and "how" things happen and exist. Is it surprising that they seek this knowledge from questionable and inaccurate sources?

Even in colleges and universities, no free play of mental curiosity is permitted. Many instructors, loyal to their prepared lectures and notes, do not encourage independent questions by their students. Various methods are employed to suppress the student who is too inquisitive about things. And, of course, there are usually certain questions which are 'taboo' in classroom discussion. The cut-and-dried, mechanical and circumscribed systems of some institutions would lead one to believe that they have forgotten that the main purpose of a university is to stimulate thinking by the students. Constructive thinking results from mental curiosity, which, in turn, begets still further curiosity.

CHARITY BENEFIT DANCE

Girls' Friendly Society will entertain Friday night from 9 to 12 at the Driskill with the annual dance given by the organization. The proceeds from the dance will be used for charitable purposes throughout the year. The dance is on the University Social Calendar. Music will be furnished by Rex's Revels.

Make A Note of Mother's Day

It comes on Sunday, May 13th, this year. She is your best friend, and you want her to have a gift from you.

If Mother is to have it on Mother's Day, you must select it and get it mailed in advance.

You'll find many, not-too-costly articles of silver, and jewelry here which will be just the thing to send her. We will attend to the wrapping and mailing, if desired.

The faculty is human after all. One of the profs lightly touched the west door to see if the "Fresh Paint" sign was really true.

Essay of A. Fish on Leaves
They are many kinds of leaves. Sum grows on trees. These kinds is uzuly green (like wut i am for inst). Then they is book leaves which is wut book worms etc. Also their is the leevies wut u put in ure tabul wen u hav cumpunny fer dinnur. If i c a gye wich i o munny 2 i leevies. I don't no no more about leevies; so i will leave.

The bleachers at the baseball field is the hottest place to go Except when there's a great game on And plenty of fans, you know.

Oh, no, Lucretia, a Dutch treat is not a date for the German.

Ragged says that if you have never seen an educated courtship, you watch the Doctors coo each other at the University Cafeteria from five minutes before till thirty minutes after each meal.

My Days Among the Dumb are Passed
(Apologies to Mr. Southey)
My days among the Dumb are passed; Around me do I find, Where'er these casual eyes are cast, Dumbbells of ev'ry kind; My ever-busting friends are they, With whom I must talk day by day.

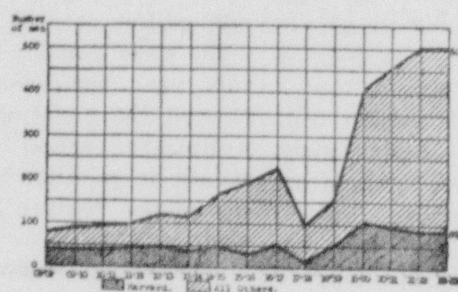

My hopes are with the Dumb; anon Kale I'll borrow of them. Then quickly will I travel on 'Fore they do me condemn; Yet leaving here a name, I trust That will not be forever cussed.

"I'm going to be perfectly candied with you," she said to her sweetie as she noticed a box of her favorite sweetstuff under his arm.

He: Don't you love these beautiful moonlight nights?
She: Aw, you git away, now.

HARVARD Graduate School of Business

A two-year course in business, open to college graduates, leading to the degree of Master in Business Administration

Points of interest regarding the Harvard Business School:

- The above graph shows the growth in enrollment and the large number of students coming from institutions other than Harvard. During the present year 158 colleges are represented.
- The case method is used. Actual problems obtained from business are used as the basis of instruction. A staff of investigators is constantly at work gathering problems.
- Business is regarded and studied as a profession.
- What the students in the School think of the training which they receive is indicated by the high percentage of eligible first year men who return to complete the course—84 per cent. the present year.
- The training in the School materially shortens the apprentice period in business. A prominent business man recently said: "On the basis of our experience with your graduates, I estimate that you are saving them five years net. Six months after they come to us, your men are as well fitted to assume responsibility and to make decisions as the typical college man at thirty."

The enrolment is limited in first year courses.

For further information and enrolment blanks, write to

Harvard Graduate School of Business Administration

"Forty years and not a flat tire yet." 'Strue, but we're going to have a big "blow-out" here May 10-12. Write the folks today!

A Windy Day

A buzzard there was,
A chin of fuzz,
A hat so flat,
No more than that—
A buzzard on the green.

Beside a tree,
Beholding me,
He plum'd his hair
With wondrous care—

This buzzard on the green.

I passed along
With joyous song
That filled the air
With mighty blare—
I knew that I was seen.

The wind was high,
I can't deny,
A rus'ling breeze
Went through the trees,
And swept the campus green

A whirl of wind
In mighty spins

Caught up my dress.
I must confess
I knew that I was seen.
—Helen Wheels.

Some people are so dumb they think that:

1. Angler is a mathematician.
2. Missing links are golf grounds covered with weeds.
3. Chinaberry is a glass egg.
4. A pitchers' battle is a family row with the wife throwing jugs.
5. A plumber is one who gathers plums.

We Sell These Bathing SUITS

because they are quality-high, priced low and strictly up to the minute in styles and color combinations. You will like them and get great service out of your favorite style.

Of course they are Bradley made for maids and men.

THEATRE CALENDAR

Queen: William Fox production "Nero."

Texas: Marion Davies in "The Young Diana," also Fables and Topics.

Majestic: "Hunting Big Game in Africa With Gun and Camera."

Hancock: Kiwanis Revue.

Texas

Constance Talmadge has been taking a whirl at politics. In "Woman's Place," her latest Associated First National release, she runs as the pretty-faced candidate for mayor of a town. It is a John Emerson and Anita Loos story with sparkling humor and satire set in an extraordinary political background. Kenneth Harlan, as boss of the opposition ticket, is her leading man. Harsard Short enacts the role of a society "swell" who is the male candidate for the mayoralty.

Others prominent in the cast are Florence Short, Ina Rorke, Marguerite Linden and Jack Connolly. "Woman's Place" was produced under the direction of Victor Fleming. It will be shown at the Texas Theatre today.

INVENTION OF STUDENT HAS RECEIVED PATENT

G. H. Mims of Austin has withdrawn from the University to perfect an invention, recently patented, of a telephone dictaphone. Mims will work in the Edison plant, of Orange, New Jersey. In addition he will work on a number of other inventions now going through the patent office.

Style Cannot Be Put Into Words—But Into CLOTHES YOU LIKE THEM

New styles are blooming here, and they're many and varied in kind and color. We're showing you not only the newest style touches, but the fine quality both in fabric and tailoring—that you'll instantly appreciate in

HART SCHAFFNER & MARX Good Clothes

\$35 \$40 to \$60

Cool Swimming Suits

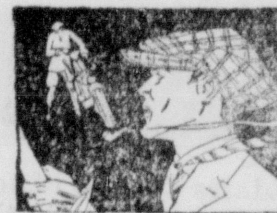

In smart style for young men. Every favored tropical fabric represented here—Seersuckers, Palm Beach, Mohairs, Gaberdines and the popular Dixie weaves.

\$10, \$15 to \$40

Extra trousers can be obtained with nearly all of these suits.

Stebbins & James

Home of Hart Schaffner & Marx Clothes

Not that we advocate one-armed driving—but when she's in the car with you, what can you expect?

Then a wind comes along, your cap starts to leave your head—and there seems nothing to do but let go the wheel, altogether!

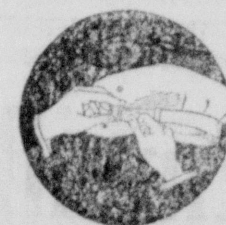

There is one other thing to do, though, at that: Crawl under a "SURE-FIT" CAP—gear it tight on your forehead—and you're all set for the journey.

The only other thing necessary to make your pleasure absolute and complete is to learn to steer with your knees.

Investigate these caps. They're easy to look at as well as easy to adjust—and the price makes them easy to own.

New Spring styles in "Sure Fit" Caps are being shown by, Cohn Bros., M. & S., Silberstein, Bohn Bros. and S. Ferris.
