

Frauwille, Ala -

UNITED STATES 9 June, 1940.
DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY

Dear Dean Turner -

I hope you'll be in Austin on the twentieth when Harry S. Gadd who succeeded Mr. Mansfield at the museum, and Survey, will be coming through. He is going to work on some post-Tertiary caves made by the Water Resources Branch, not for Game Crops. He has never been in Austin before and will be greatly interested in anything you have to show him at the museum and laboratory. It is a real disappointment to me that I can not be there, for I love to show people Texas.

Remember me, please, most cordially to Mrs. Stenzel, your aunt, and to the three little girls.

Sincerely yours -

Lelia Gardner
