Special Textbooks for Visually Handicapped Students

GENERAL

Braille and Large-Type textbooks can be obtained through the Textbook Division by any district that has visually handicapped students who have been determined eligible by action of the local admission, review, and dismissal (ARD) committee and have been registered through the Division of Services for the Visually Handicapped (DSVH). Registration of visually handicapped students is accomplished by completing a REGISTRATION OF VISUALLY HANDICAPPED STUDENT form (obtained from the DSVH) for each student and returning it to that Division. The schools are responsible for these materials in the same manner in which they are responsible for the textbooks and materials in that building.

BRaille BOOKS

Titles in this Catalogue with "B" in the right column were available when the Catalogue went to press. Other titles may become available as they are transcribed. It is suggested that all needed titles be requested and every effort will be made to fill the order.

LARGE-TYPE BOOKS

Titles in this Catalogue with "L" in the right column are available.

First and Second Grade titles are not enlarged because the regular editions are in large type.

Orders for titles in this Catalogue will be approved for only those titles selected for use in the district. Large-Type books will not be counted against quotas of the regular textbooks. It is advisable to supply the partially seeing student with regular textbooks for his use in studying illustrations, maps, charts, and diagrams which are not often reproduced satisfactorily in the large-type book.

TAPED TEXTBOOKS

Titles in this Catalogue with "T" in the right column were available when the Catalogue went to press. Other titles are being read onto tapes so it is suggested that needed titles be requested and every effort will be made to fill the order. Tapes are available on open reel, four track, 1 7/8 ipm and in cassettes. These can be used on APH-Modified Sony 105 Tape Recorders or on an APH-Modified GE Cassette Recorder. Recorders may be borrowed from the Textbook Division for use by registered legally blind students only.

Taped textbooks will come to you from Recording for the Blind, Inc., 20 Roszel Road, Princeton, New Jersey 08540, (609) 452-0606. A catalogue of their tapes can be purchased from them for \$14.00. You can order direct from them or place your order with the Textbook Division.

TANGIBLE APPARATUS

Many learning aids for the legally blind student can be found in the American Printing House for the Blind Educational Aids Catalogue, which can be requested from the Textbook Division.

ORDERING PROCEDURE

It will expedite the handling of orders if these procedures are followed.

1. Request Braille and Large-Type textbook needs in all grades and subjects in column 11 of TEX-006B "Annual Statement of Charges, Report, and Requisition—1986."
2. Textbooks being introduced for the first time are listed on form TEX-040 "1986-87 Annual Requisition for Materials for the Visually Handicapped." Availability of each title in Braille and Large-Type appear on this form. Use this form for requests of the new materials.
3. Tangible apparatus, other materials and supplemental requests should be ordered on form TEX-035-R86.

DISPOSAL OF SURPLUS AND WORN-OUT LARGE-TYPE AND BRAILLE MATERIAL

As soon as any Braille or Large-Type books, Braille Writer, Tape Recorder, other tangible apparatus or supplies are no longer needed, such should be listed on Shipping List forms (available from the Textbook Division), packed and shipped by Free Mail. Receipts will be issued for all shipments. Please do not ship these expensive materials with other textbooks and never ship by freight.

Textbook Quotas

Normal Quota—Textbooks adopted for most subjects are supplied on the basis of

Outline of Procedure for Adopting Textbooks

To Be Used in the Public Schools of Texas

When texts are to be adopted under the provisions of the Textbook Law or when a contract is about to expire, the Chairman of the STATE BOARD OF EDUCATION gives public notice two months in advance of the meeting at which the adoption is to be made. This "Proclamation Advertising for Bids" lists the subjects and grade levels for which books will be considered, together with other directives the State Board desires to make in regard to bids that will be submitted. Following the publication of this proclamation, interested publishers may secure complete information from the Textbook Division about requirements for filing samples, forms to be completed, and dates upon which such items must be filed. Annual adoptions are made by the State Board of Education at its November meeting, but the Board may consider adoptions at other times.

Each year at its May meeting, the State Board of Education selects twenty-seven persons from the list recommended by the State Commissioner of Education to serve as members of the STATE TEXTBOOK COMMITTEE. These appointees serve for a term of one year. Each person shall be an experienced and active educator engaged in teaching in the public schools, and no two members may be from the same congressional district. A majority of the members are to be classroom teachers.

It is the duty of the State Textbook Committee to study the books offered for adoption and recommended to the COMMISSIONER OF EDUCATION a complete list of textbooks which it approves for adoption at the various grade levels and in the various subjects for which bids have been called. Although the Commissioner may remove books from the recommended list (provided he does not reduce a list to a single adoption), he cannot add any book to the list.

The Commissioner submits the recommended list to the State Board of Education, which in turn may remove books, but not place any book on the list that has not been recommended by the Commissioner; neither may the Board reduce a list to a single adoption. The contracts awarded by the State Board of Education are made for varying periods, of one to six years, and books covered by such may be gradually introduced at the discretion of the Board.

Books to be used in LOCAL SCHOOL SYSTEMS are selected from multiple lists, adopted by the Board, by a committee of teachers from each district, appointed each year to study the books adopted and to choose the texts best fitted to the system's needs. Common and rural high schools use selections made by the committee appointed by their county superintendent, but each independent school district has its own multiple-list committee. The report made to the Textbook Division by a school's committee is final; no changes or additions are permitted for the subjects included on a report. After a school is supplied with selected texts, these texts are to be used for the duration of the contract period; it is not permissible to return copies of a particular title in order to secure replacements of another title, even though that title may have been selected by the school committee.

Complete information regarding quotas, gradual introduction plans and regulations about the distribution of textbooks may be found in the latest Annual Textbook Report and Requisition Forms, in communications from the Textbook Division Office and this Bulletin.
