Dr. H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel,

Many thanks for forwarding my letter of February 20th to Professor Deen. If I get my thesis finished in time, I should like to be considered for a job with the summer field work at College Station for the second term.

Dr. Gordon M. Frey, Assistant Professor of Geology at the University of Cincinnati, is very much interested in the opening in structural geology at the University of Texas and has written to Professor Deen for additional information. I have been acquainted with Dr. Frey for about fourteen years and I believe that he is worth your serious consideration. I am sure that you will find that he is a very cooperative worker and that he would have very little difficulty fitting into your organization.

Sincerely yours,

W. H. Alexander, Jr.
