

March 4, 1938

Mrs. Katherine Van Winkle Palmer
306 Oak Hill Road
Ithaca, New York

My dear Mrs. Palmer:

Please accept my thanks for the copy of your recent work. This long expected publication is indeed very valuable for our work in the Tertiary here in Texas. I only wish it had been available seven years ago when I started out on the Tertiary. I appreciate in particular your restraint in not describing many new species which will give us other workers in the Tertiary a chance.

With many thanks,

Very sincerely yours,

H. B. Stenzel, Geologist
