Dear Dr. Stenzel:

Your letter of January 10th with the information concerning the Arca figured by Dr. Sheldon has been received. The specimen has also been received in good condition. Thank you very much for examining the specimen and giving us your opinion on the locality. As we wrote you before, we are trying to figure out where possible information concerning these ambiguous localities would be.

We have puzzled over the association of a locality, the description of which John Wells gave as "Big branch of Cedar Creek, east of Mr. Pollard's (deceased) farm, 3 miles N.W. of Stone City, Burleson County, Texas." We have another Cedar Creek in Robertson County. Have you ever had occasion to check on this locality? If you have any information on it, would you please let us know? Also, do you have information on the locality "about five miles N.E. of Laredo, Webb Co., Texas"?

With best regards and appreciation,

Yours sincerely,
