My dear Dr. Cohen:

Alas, although we have lots of climate  
in Texas, I know of no place through which any  
income for a Climatologist may be collected.

These are hard times for everybody,  
even in the University world, where some of the  
chief sufferers are devotees of subjects in which  
few students register..

Harvard has had a Professor of Climatology  
for a great many years, in fact I tutored Harvard's  
Professor of Climatology in calculus, for which I was  
paid by him a larger sum than I think the calculus that  
he learned was worth!

With unfailing regards and best wishes, I  
remain,

Sincerely,

*H. Y. Benedict*
