Miss Joyce Allen
The Australian Museum
College Street
Sydney, N.S.W., Australia

Dear Miss Allen:

Thank you very much for your kind letter of March 5, 1949. I was particularly pleased to receive a reprint of Tom Iredale's article. From your letter and remarks, I estimate that I have just about exhausted all Australian records of the Nautilus. The manuscript is enclosed for your convenience. If you have any comments or corrections to make, they will be greatly appreciated.

What is Tom Iredale's address? I would like to send him some of my reprints and start an exchange.

With many thanks,

Sincerely yours,

H. B. Stenzel
Geologist
