SLING BAGS FOR A.T.S.

A.T.S. Auxiliaries are soon to be issued with uniform sling bags of a type similar to that issued to members of the Canadian Women's Army Corps.

Made of khaki coloured canvas, these bags will be piped with brown leather and the sling, worn through the left shoulder strap, will also be of brown leather. The bag will replace all other forms of sling bags and hand-bags, but it will not be worn on official occasions.

It is hoped that the issue will be made in January.
