**Dr. M. K. Elias  
Conservation and Survey Division  
University of Nebraska  
Lincoln, Nebraska**

**Dear Elias:**

**Here is the Salfeld translation. I have translated the entire beginning chapter on pp. 1-2, which is more than you asked for. It seemed necessary also to translate the Notations of p. 15, which define his terminology. I hope this helps you.**

**Salfeld has a bad style even for a German. His ideas are buried in a lot of hogwash.**

**Sincerely yours,**
