~~Dear~~ Marion,

~~Could~~ you please do me and J. Chadwick the
~~favor~~ of looking up in the workbook the ~~exact~~
~~date~~ of finding of 1952 tablet 641, the
tripods ~~one~~? Beattie has apparently stuck
his neck out and ~~elaimed~~ that Ventris knew about
it very early (i.e. before 1953) and then pro-
duced it later as confirmation. Since I first
heard of its existence from Ventris on 20 May
1953, I'm rather doubtful at the very least.
So it would help to know when 641 was found,
and when CWB noticed that it made sense if
that time can be specified.

Sincerey yours,
