Dear Mr. Bennett, thank you for your interesting article in the YALE SCIENTIFIC MAGAZINE which I found here on my return home for the holidays. I am delighted to hear of the discovery of a tablet in Mycenae. By whom? Wace? Is it already published? I wish I could have a publication of it for MINOS if it is still unedited. Can you tell me the address of the person whom is to be contacted for such a request? MINOS I.2 (1951) has suffered some delay and is to appear during the first months of 1952 only. Anyway, MINOS II.1 will be ready by that date, too. As I did not find the publications in Zurich nor in Florence, would you please provide me with the following data for the bibliography of MINOS: Title (in full), place and actual date of publication of "Archaeology" I (1948); full title, place and date of the Robinson Volume; full title, place, number and date of publ. of Kober's art. in CLASSICAL OUTLOOK XXII. I also wish I could know the full names of S.N. Kramer (Philadelphia) who reviewed Hrozný's HISTOIRE in BiblOrientalis VI, p. 81-83. Will you please forgive me for inconveniencing you by these requests, but it is practically impossible to get the bibliography ready with the material I can see in Switzerland and Italy. Thanks a lot and very best wishes from

Yours sincerely,
