ANAL PLANS FOR MARCH 2 FROLICS SHOW GREAT TIME

Celebration Promises to Exceed
All Others in Past—Ham-
ilton to Speak

Charles Harritt, chairman of the program committee for the March 2 celebration, announced last night the complete program for the University celebration of Texas Independence Day. The day's events will include the cannon salute and the colors at 9 o'clock, and will include an appropriate and interesting program at the Men's pushball contest at Clark and a bacon fry at East. In addition, there will be a game that night at the Woman's gym given by the ex-students to the students of the University, and a performance at the Hancock by the Longhorn band and Varsity Minstrels.

Through the efforts of Benton Brown, general chairman of the celebration, the University has been fortunate enough to secure Dexter Hamilton of Corsicana to deliver the general address at the Men's Gym. This program will begin a few minutes before the ball game is scheduled to begin, and is as follows:

Invocation: Dr. Charles E. Harritt.
"America": The student body.
Reading Declaration of Independence: Buford Jester.
Student address: George Peddy.
Selection: University Band.
General address: Hon. Dexter Hamilton.
Benediction: Thomas W. Currie.
Appropriate programs are being arranged by the committee and will be

(Continued on page 4)

OF EVANGELIST IN FAILING HEALTH

Information from the University is that Mrs. A. J. Elliott, wife of Dr. A. J. Elliott, the prominent evangelist who conducted a course of lectures at the University last spring, is in failing health for the last month and that physicians have little hope for her recovery. In addition to her illness Mrs. Elliott is suffering from total blindness, which has been stricken with that affliction while at the International Y. M. C. A. convention at Miami, Mich. The patient lost the use of one eye early in October.

TEACHERS LAUNCH SALARY CAMPAIGN

Effort to secure higher salaries for teachers more quickly and effectively, a committee of prominent educators of the state are launching a campaign for a constitutional amendment which will fix the maximum salary at \$10,000 at the present, 50-cent

UNIVERSITY PEOPLE TO COMPETE IN NEW POLITICAL CONTEST

Ten Thousand Dollars Will Be
Awarded to Persons Making
Platform Suggestions

Much interest is being manifested on the campus with the receipt of the particulars governing the contest of the Republican National Committee for the best suggestions for the Republican Platform given by young voters. This contest in which the first prize for the best manuscript submitted will be \$6,000, the second, \$3,000, and the third, \$1,000, is only made possible through the generosity of Mr. Truxton Beale, former United States Minister to Persia, who has offered the \$10,000 to stimulate young people to an active interest in practical-political affairs.

The contest is open to teachers, principals, superintendents, and other school and institutional officers, within the age limit, which is 25 years and under. Men and women are both eligible.

A signed statement with the manuscript submitted, to the effect that the contestant is qualified, is necessary. Four typewritten copies must be submitted, with only one signed, however. They must be written on one side of the paper only; are not to exceed six thousand words, and must be in the judges' hands not later than March 21, 1920. They should be sent to Walker Blaine Beale, Contest, Division of Young Voters, Republican National Committee, 923 Woodward Bldg., Washington, D. C.

Mr. Beale was prompted to offer these prizes after seeing the turmoil incident upon the selection of a presidential nominee at one of the Republican Conventions, with its turmoil and strife, and where those who spoke not the wisest but the loudest were heard. It appealed to his desire for the progress of the party that the principles set forth by the party should be formulated anew in the libraries and studies of the nation instead of in such a congested mob, and for that reason he gave the money.

CUNNINGHAM WILL BE COMMISSIONER

Is Offered Government Position
to Go to Spain as
Trade Representative

Another member of the faculty of the University of Texas has just received recognition for his knowledge of foreign affairs in the person of Dr. C. H. Cunningham, who has been tendered the position of United States trade commissioner to Spain by the Department of Domestic and Foreign Commerce. Dr. Cunningham is adjunct professor of business administration and government. He returned to the University last fall after a year's service in the City of Mexico as United States vice consul. He has made an extensive study of trade conditions in Latin-American countries. He spent two years in the Philippines and was in Spain and South American countries for a considerable time before becoming connected with the University of Texas. He is a graduate of the University of California. Dr. Cunningham has under consideration the offer to go to Spain as United States trade commissioner. In the event of his acceptance he will not leave until the end of the spring term of the University.

Another member of the faculty of the University of Texas who has recently received similar recognition is Dr. W. E. Dunn, who was associate professor of Spanish-American history at that institution. He is now on the staff of the Sun and New York Herald as editor of the Latin-American department of that newspaper.

EXTENSION BULLETIN OUT.

Copies of a new group-study bulletin will soon be ready for distribution by the extension teaching division of the Department of Extension, University of Texas. Further information concerning this branch of service may be had by application to the extension teaching division.

AMERICAN SCHOOLS SEEK FUNDS WHICH TOTAL 250 MILLION

Harvard Sets Example to Other
Colleges Which Are Seeking
Large Endowments

That following the example set by Harvard, more than one quarter of a billion dollars is now being sought for additional endowment by hundreds of institutions of higher learning in this country, is pointed out by Eliot Wadsworth, chairman of the Harvard Endowment Fund, in an article which he has written for the March issue of the Harvard Graduate's Magazine. The Harvard Fund of \$15,250,000 is fast approaching the \$12,000,000 figure.

Mr. Wadsworth has gone to Europe to attend the first congress of the League of Red Cross Societies in Geneva as one of five American delegates. He was former vice chairman of the American Red Cross, and because of his work in that organization he recently received the Distinguished Service Medal awarded by the President.

Looking back over the last six months since the Harvard Fund was started, Mr. Wadsworth says:

"It may be safely said that Harvard has played a very important part in leading this movement. While making the first plans for the campaign, it was determined that the publicity for the Harvard Endowment Fund should have two objects: First, to show the need of Harvard; second, and far more important, to show the serious situation which confronted all educational work."

These objects have since been achieved, for the country has been aroused to the need of supporting higher education. There is a story,

(Continued on page 4)

PEARCE CONDUCTS INDIAN RESEARCH

Detailed Reports Concerning
Old Mounds Now Being Pre-
pared for Smithsonian

Detailed reports concerning his numerous researches among the ancient Indian kitchen-midden mounds scattered throughout this section of the state are being prepared by Prof. J. E. Pearce of the Anthropology Department, and will be submitted to the Smithsonian Institution at Washington, which will publish the reports during the spring. According to Professor Pearce, many of these mounds—which were originally sites for Indian campfires—are thousands of years old. Excellent records of the ancient Indian mode of life are disclosed by the material such as bones, etc., which is found in the mounds. The work of research among the mounds is conducted by Professors Pearce and Hawks.

Professor Pearce states that additional examination of the mounds will be made during the spring, and it is expected that further interesting relics will be brought to light. The Anthropology Department is devoting its entire research efforts to this single field.

FRATS MAKE GRADES

Greek Letter Societies Which
Were Behind Last Year Are
Now Above Line

In September the fraternities listed below failed to make the scholarship average required to make them eligible to initiate. According to the regulations a chapter ineligible at the opening of the session may become eligible to initiate eligible pledges at the opening of the winter term, provided such chapter makes the University average during the fall term.

The fraternities listed below, ineligible in September, are now eligible to initiate.

Sororities:	
Average of the women.....	6.04
Phi Mu	6.09
Delta Delta Delta.....	6.08
Fraternities:	
Average of the men.....	4.62
Beta Theta Pi.....	5.40
Phi Gamma Delta.....	5.04
Delta Tau Delta.....	4.74
Lambda Chi Alpha.....	4.70

SEMI-FINALS FOR BOONE PRIZE SET COMING SATURDAY

Competitors From the Various
Literary Societies Will Speak
in Law Auditorium

Semi-final contests for the Boone prize in extempore speaking will be held Saturday afternoon, February 28, in the Law Auditorium. This cash prize of one hundred dollars is offered annually to those students who excel in extempore speaking, by Dan Boone of Wichita Falls. It is provided for three representatives from each literary or public speaking society in the University to participate in the semi-finals.

At the beginning of the school term the Public Speaking staff announced a few general subjects for study and decision, but no definite phase of the subject will be assigned a student until five minutes before the time for his (or her) declamation.

The twelve students selected as the result of the semi-finals shall participate in a final public contest to be held March 5.

Campus Observer Sees Prosperity In Student Cars

If the number of automobiles possessed by students of the University is any criterion for judging the prosperity of the student body, then the students of this institution can apparently be considered as exceptionally prosperous. Such a conclusion is based on the assumption that if a student can afford a personal car, he must be comparatively well-fixed financially.

The number of cars owned by University students would surprise the average person. A Texan reporter, being curious yesterday morning, decided to waste a precious off-period and count the number of machines he saw parked on the campus. To his utmost surprise, he found, when he had enumerated all in sight, that the number was 41. It is safe to assume that this number represents only a small per cent of the machines actually owned by students; the total number would in all probability reach well above the 200 mark.

Austin garage men assert that, beyond doubt, there are more student-owned cars in the city now than at any time in the University's history. They estimate that for oils, tires, repairs, etc., an average of more than \$350 daily is spent by students on their cars.

The favorite student machine appears to be the "cut-down" Ford. There were 11 of this type of car seen on the campus at one period Thursday. Scores of other makes ranging from the antiquated Brushes to "1920" Locomobiles are owned by students.

INTRAMURAL TIE BROKEN.

The tie in intramural basketball was broken yesterday afternoon when the Laws defeated the Pre-Meds at the Men's Gym by the score of 10 to 6. Both teams were defeated up to that time. The game was hard fought, especially in the last three minutes, when the Pre-Meds showed their class spirit by turning out and rooting for their team.

SOCIAL CALENDAR INCLUD- ING MARCH 1.

Feb. 27: Phi Gamma Delta
dance, chapter house.

Feb. 27: Delta Chi dinner

INTERSCHOLASTIC LEAGUE REGISTER SHOWS INCREASE

1,000 More Schools on Roster
of League This Year
Than in 1919

With an enrollment of 2,970 schools, compared with 1,937 at the same time last year, the Interscholastic League meet to be held in Austin the first Thursday, Friday and Saturday in May, gives promise of being one of the liveliest and most keenly contested meets in the history of the organization.

Before the contestants are sent to Austin for the state meet, they must come out as winners from the county then the district meets. There are now in the state 97 of these county organizations. From the 2 districts into which the whole of Texas is divided will be made up the various teams which come to the University in May.

Last year there were 450 entries in track from both city and country schools, but this large number is due to the fact that no preliminaries are held in track work. Though the county meets have not yet been held, the approximate number of entries to be made in the state have been made up by the Extension Department of the University. Sixty-four debating teams, 32 senior boy declaimers and the same number of girl declaimers, 32 rural boy declaimers and 32 rural girl declaimers, 32 junior boy declaimers and the same number of junior girls, 32 spelling contestants, 32 extempore speakers, and 32 each of the tennis teams for boys and girls, will make up the total number of boys and girls in the final try-outs.

The Interscholastic League, a monthly paper put out by the Extension

(Continued on page 4)

BUREAU TO ISSUE THREE BULLETINS

Pamphlets for General Informa-
tion Published by Govern-
ment Research Office

"The Movement for Efficiency and Economy in State Government," "The Public Service Rates in Texas Cities," and "Tax Rates and Taxable Values in Texas Cities" are the names of three bulletins soon to come off the press through the work of the University Bureau of Government Research. Dr. C. G. Haines is the author of the first named publication. Frank M. Stewart, secretary of the bureau, compiled the latter two from information received in questionnaires sent out by the bureau to city officials all over the state.

Since its organization in 1913 the bureau has published sixteen bulletins, not including these last three compilations. Its service to the cities and towns of Texas has included investigation, compilation of data, and expert advice on hundreds of queries in various departments of municipal government. Its information and advice are free to any city in Texas, and its work has already become one of the most valued and important factors in progressive, scientific city governmental administration. Its advice has been sought on questions involving the incorporation of cities and towns, the drafting of city charters, the advisability of a commission form of government, the operation of the Somers system of tax valuation, the names of all mayors of Texas cities, and hundreds of other and even more varied matters.

In addition to the extension work all over the state, the bureau serves as a research laboratory and reading headquarters for law students in the University. Its library is exhaustively equipped, and the bureau employs a full-time librarian.

The bureau also serves as the secretary of the League of Texas Municipalities, with a membership of seventy-six of the largest cities of the state. Mr. Stewart, as secretary of the bureau, is also secretary of the league and is editor of "Texas Municipalities," published by the league six times a year.

STUDES VIOLATING TICKET PROVISION WILL BE PUNISHED

Athletic Council Holds Important
Meeting, Appointing As-
sistant Football Managers

Close inspection will be made from now on to see that there are no further violations of the provisions relating to students' athletic tickets, and any which are found violating these provisions will be taken up and voided for the remainder of the year. In addition all violations will be referred to the Students' Council for trial as violations of the honor system. These rulings were passed last night at a meeting of the Athletic Council.

The athletic authorities have complained that there has been a great deal of disregard for the rules agreed to by those to whom these cards have been issued, and they expressed themselves as being for any measures which would tend to curb the evil. On one night recently there were about a dozen violations caught up with. Wallace E. Hawkins has agreed to prosecute to the limit all cases thus brought up.

Appointment of assistant football managers for next fall was also made. Brady N. Cole of Hearne and Walter G. Sterling of Houston were selected to fill the positions. They will serve through the football season and will then be eligible to appointment as football managers, the better of the two being promoted.

Football training will be held this spring. This will begin at the opening of next term and will continue until the end of school. Calls for tryouts will be made in the next few days, and actual work will be started as soon as possible thereafter.

Another ruling passed was that from now on sweaters will be awarded football men only the first season they win "T's." Heretofore it has been customary to give sweaters as well as "T's," but now only letters will be awarded.

The Council voted to donate Clark Field to the American Legion for March 24, when the exhibition game between the Boston Red Sox and the Longhorns.

ATHENAEUMS TO BANQUET TONIGHT

Gala Affair Will Take Place in
Cactus Tea Room Followed
by Scintillating Speeches

Athenaeums of the University will banquet tonight at the Cactus Tea Room. The annual banquet of the Athenaeum Literary Society is an event that is always looked forward to by all members in the University. The previous banquets held by the society have always proved to be highly enjoyable affairs. Tonight's banquet promises to be no exception to the rule.

No pains have been spared by the banquet committee to make tonight's affair excel in all respects the past banquets held by the society. The choice five-course dinner will be topped off with after-dinner talks by prominent members of the faculty, members of the society, and prominent men of state affairs.

Seats will be reserved for old members of the society if they will apply to one of the banquet committee, the members of which are: E. G. Lloyd, W. H. Jacks, O. D. Thompson, S. L. Eddins, R. A. Barton, L. E. Stienberg, president.

LITZ SPEAKS AT PUBLIC READING HOUR

Mr. F. E. A. Litz read from the works of Tolstoy and Father Tabb at the public reading yesterday afternoon. The selections from Father Tabb's works were all light and pleasing, on such subjects as "To a Rose," "The Water Lily," "A Cradle Song," and "The Plaint of the Rose." "Going Blind," however, was a more serious poem, giving some of Father Tabb's own experience when he said of himself that he "in the school of darkness should learn what mean the things unseen."

LONGHORNS HAVE RENEWED HOPE FOR NEXT FARMER GAME

Varsity Team Is Materially
Strengthened by the Return
of Several Stars

Coach Berry Whitaker and his team are leaving this morning for College Station, where they will meet the Farmers in two games which close the basketball season for the state. Some of the men are injured or ill, but the greater part of the squad is in good condition and should do good work against the Aggies. Knebel is handicapped with a sore wrist as a result of cutting a vein in the last game played, but he should be able to put in a good, hard game. Russell is in fair shape, having greatly improved from the weakness resulting from a slight attack of influenza. Duckett is in better shape than last Saturday. The rest of the team seems to be ready for business.

Certain defeat for the Longhorns is what the A. and M. cadets gleefully predict in the two games to be played in the College Station gymnasium on Friday and Saturday of this week. The University men admit that the outlook is a little dark, but refuse to admit that they are bound for two more losses. They figure that at least one good fighting chance ought to be found in each game, and they purpose to make the best of that.

Hoodoo Is Gone.
The hoodoo which has been doing its best to deprive the University of all her men, has eased up a little and two of the regulars who went into the

(Continued on page 4)

MUNICIPALITY LEAGUE TO HOLD CONVENTION

It is announced by Frank M. Stewart, secretary-treasurer of the League of Texas Municipalities, that the eighth annual convention of that organization will be held in Dallas, May 13, 14 and 15. Important municipal problems will be discussed by prominent speakers.

The League of Texas Municipalities was organized in 1913 and has its headquarters at the Bureau of Government Research of the University of Texas. It is a non-partisan organization of Texas cities for the improvement of municipal government. The active membership includes 75 cities with 543 city officials and 53 associate members.

Officers of the league are: President, Mayor Frank W. Wozencraft, Dallas; vice presidents, Mayor W. J. Nichols, Texarkana; City Manager E. L. Wells Jr., San Angelo; City Attorney J. Bouldin Rector, Austin; secretary-treasurer, Frank M. Stewart, secretary Bureau of Government Research, Austin.

SPEECH ON MEXICO AT FORUM MEETING

Cunningham Will Talk on Our
Neighboring Country at
Next Gathering

Mexico will be the subject of a lecture to be given today at the World Fellowship Forum, which is to be held in the Girls' Study Hall from 5 to 6 o'clock. The talk will be given by Dr. C. H. Cunningham, adjunct professor of business administration and government.

This is another of the series of weekly lectures given under the auspices of the Y. M. C. A. and the Y. W. C. A. As in all other cases, it is open to both men and women, and anyone student or not is invited to attend. Last week's talk was postponed on account of the general suspension of University activities in honor of Dr. E. W. Fay.

As is customary in these talks, the first part will be in the nature of a lecture and the latter part a round table discussion of problems brought up. Questions may be asked and will be answered by the speaker. Dr. Cunningham is said to be eminently qualified to make such a talk. He spent some time in Mexico in the consular service, and while there he acquired an intimate knowledge of Mexican troubles from the inside viewpoint. In addition he has just returned from the Pan-American Conference in Washington, D. C. With these facts to recommend him, leaders expect one of the most worthwhile conferences held so far.

The agreement of the Freshman and Sophomore classes not to kidnap the freshman president until 12 o'clock Friday, is in fitting accordance with the bill recently passed by the Students' Assembly. If any men should kidnap him before that time, they would not find congratulation or sympathy among their own classmates, much less among other students.

This agreement and the bill that occasioned it should go far toward removing the objectionable features attendant upon class receptions. We may hope that other classes will follow the example set by the present Freshman and Sophomore organizations.

"Buck" seems to have started something when he suggested that those who haven't a class at ten Friday go down to the station to see the basketball team leave for College Station. This idea has met with hearty approval, and many have expressed their intention of being there to give a final yell for our five.

Let as many of us as possible go. We want to show the team that we are rooting for them until the last whistle of the last game.

A BETTER FELLOWSHIP.

One of the most enduring things, one of the things which in after years will give him the keenest pleasure, are the friendships which a college man forms on the campus. A man's fraternity, his classmates and his professors all play a big part during this formative period of his elderly youth, and influence his relations with other men after he enters his professional career. It is these friendships which bind every alumnus to his alma mater. It is these friendships that endure long after the petty routine things are forgotten.

The judge of a man's character is the intensity and degree of personal regard with which he holds these friendships. They are the one tangible thing which always grows older and more golden. A better fellowship, a closer relationship, and a keener friendship ought to exist between the students of this University. At many universities students speak to each other even if they are not personally acquainted. Perhaps this is impractical on a campus of this size, but a wider range of friendship is a thing worth striving for.—The Daily Californian.

BANDSTAND BEING PAINTED.

Those who have keen eyes for improvements about the campus will note that the Business Manager of the University is still busy. The bandstand, which has for some time resided in unpainted ugliness between the Main Building and the Law Building, is now receiving a coat of beautiful gray paint.

MIDNIGHT MAUNDERINGS

By Buck

Don't trust any of your friends who try to give you some of these famed home mixtures to drink. And if you do trust one, don't eat any chili afterwards. This combination accounts for the brevity of this column today.

Poetry for today: One teaspoonful in water every four hours.

Reporting to sick bay, sir.

Campus Poets

PETE SEZ.

(Saturday Afternoon in Town).

"You come to me, here, Benjamin; Mind out how you cross that street; Take that thumb out'n your mouth An' speak to folks you meet.

Now, take a-hold of Susie's hand, An' don't you run away; I never saw sich funny kids, They always want to play.

Take this rag an' wipe your nose, An' don't get so mussed up; I'll leave you at home next time I come— Turn loose that dirty pup.

We ain't goin' to the pictur' show, We simply ain't got time; You-all can have some popcorn; Run along, an' take this dime.

Well, I declare, just look a-there, Them kids is one more sight; I wonder where your pa has gone, He'd settle things all right!

You can't see them squirrels today, Ain't we in a hurry? Every time we come to town You put me in a flurry.

Just wait, young man, till we get home, Your pa will 'tend to you; Here he comes in the flivver now, So hush up that boo-hoo.

APPLICATIONS RECEIVED FOR NEW Y SCHOLARSHIP

Mr. T. W. Currie, secretary of the Y. M. C. A., reports that to date about thirteen applications have been received from ex-service men to participate in the scholarship fund recently established by the "Y." Of these, eight have been for scholarships in the collegiate fund, and all have come in as a result of publicity in local papers. The result of publicity given the movement in the other papers of the district, which includes the counties of Blanco, Burnet, Caldwell, Hays, Lampasas, Mason, Llano, Travis and Williamson, is yet to be seen. In the general fund, about \$3400 is available for scholarships. Applications are made to Mr. Currie, and are then passed on by a local committee consisting of George Walling, W. E. Long, D. C. Reed, L. T. Belmont and E. J. Mathews.

However, applications for scholarships in the collegiate fund must be forwarded by Mr. Currie to Dallas to be passed on by a state committee, the state being the unit of apportionment of the collegiate fund instead of the district.

The state director of this work, Mr. J. E. Finney of Dallas, will be in Austin on March 4, 5 and 6, and anyone interested may see him in person at the Y. M. C. A.

CHAPEL NOTICE.

Father Ross spoke at Chapel exercises this morning, continuing his talk on "Prayer." There is a real value to formal prayer at set times, but we can not in that manner "Pray without ceasing." The whole day can be a prayer if it is spent in the attitude "Thy will be done." This is not spoken prayer, and even at times the worshiper may not be conscientiously turning his thoughts toward God. It is more the oneness with God that Christ claimed for himself and prayer for his disciples. Chapel begins with a song at 8:35 in room 158. Father Ross will speak again this morning.

Cuff Links

Cuff buttons must be worn, and it pays to give careful consideration to this important detail of dress.

A different kind is required for social than for business use, and styles in each change frequently.

Knowing authoritative information about styles will be given, and that the variety of patterns, excellent quality and just prices afford best selection, most men come to Mayer's for cuff buttons.

Style Without Ostentation

The innate correctness of our spring footwear explains its popularity with women who appreciate what it means to be well dressed. There is a shoe to meet the requirements of every occasion.

Dependable leathers in serviceable colors form the materials of the low cut shoes which we are now showing for spring and summer wear. They have been designed and fashioned with knowledge and skill.

Our courteous salespeople will provide the only requisite for shoe satisfaction. A good fit.

T. H. Williams & Co.

for a Master's degree, except for his thesis and the residence requirements. He is planning to work out an M. A. degree in Government at Texas and minor in Psychology toward his Ph. D. He is registered for some courses in the Law Department, intending to correlate them with the subject in which he is primarily interested—the social sciences.

Immediately upon finishing from Ohio, Mr. Wright was for a year superintendent of recreation at Charlotte, N. C. He then accepted position of representative of children's welfare department of Ohio Board of State Charities, where he gave up after three years with the Bureau of Juvenile Research of the Ohio State Board of Administration, both of which boards are located at Columbus.

Mr. Wright has become well known here in his work of supervising Red Cross institute work at Texas and is recognized as an authority the practical as well as the theoretical side of social service work.

MISS GEARING DEVISES FINANCIAL RECORD BOOK

As a means of placing the house-
holds of Texas on a business basis,
there has just been devised by Miss
Mary Edna Gearing, professor of
home economics, and Miss Edythe P.
Hershey, extension lecturer on home
economics, both of the University of
Texas, a financial record book. The
blank sheets of this book with proper
headings are of the loose leaf sys-
tem. The book is made up in two
forms, one to contain the expendi-
tures and receipts of the family and
the other for receipts and disburse-
ments of the individual. The differ-
ent accounts embrace every phase of
household income and outgo. It is
believed that the general use of this
blank book would solve the financial
problems of many households. Copies
of it may be obtained at cost from
the Division of Home Economics,
University of Texas.

Gavin-Gilfillan.

Announcement of the approaching
marriage of Susan Elizabeth Gilfil-
lan to Leon Harry Gavin was made
Wednesday afternoon in handsomely
engraved invitations sent out by the
parents of the bride-elect, Mr. and
Mrs. William Lambert Gilfillan.

The ceremony will take place on
Wednesday evening, March 10, at
8:30 o'clock at St. David's Church,
Austin, Texas. The ceremony will
be brilliantly celebrated with a large
wedding party attending the bride,
but owing to the Lenten season there
will be no reception at the Gilfillan
home, only the wedding party being
informally entertained.

A. J. Cohen has accepted a posi-
tion with the Covert Automobile
Company.

Miss Tillie Buchanan, who has
been visiting at the Pi Phi house,
has returned home.

Margaret Wilkins has returned to
her home in Dallas.

Mrs. Lusk of Brenham is visiting
her daughter, Blossom, at Mrs. Stel-
fox's.

Miss Olive Emory is expected down
for a visit this week-end.

(Continued from page 1)

too, that is told in this connection. A well known banker has asserted that the Harvard Endowment Fund caused him to realize what he owed his own alma mater for the start she gave him in life.

In the course of the article Mr. Wadsworth says:

"Hundreds of institutions have been brought to a realization of the seriousness of their financial conditions by the rising costs of 1919, with the result that campaigns for additional endowment have been in-

augurated with a total amount asked for running over \$250,000,000. Cities and towns have faced the same problem. Demands for additional pay by struggling teachers have been insistent. Special elections have been held; taxes have been levied to meet this universal cry from a hard-pressed profession.

"And so, side by side have arisen these two great changes in public sentiment: First, a sense of responsibility among individuals for the support of the educator and the upholding of the standard of education; second, the realization of the enormous importance of universal and proper education in the future development of America."

Mr. Wadsworth lays stress upon the practical support given by the late Henry C. Frick, who "wrote in his will a testimonial as to his opinion of the value and importance of our institutions of higher learning." Mr. Rockefeller, he says, "has expressed, in no uncertain terms, his feeling as to the importance of higher education to this country by his gift of \$50,000,000 for distribution among colleges of the country."

FAMOUS SOPRANO TO APPEAR HERE TONIGHT IN SONGS

World Renowned Singer to Be in Austin for Program at the Hancock

"How wonderful for Austin to have the great privilege of hearing this 'Queen of Song' and in such a glorious program," said Mrs. J. W. Morris of Austin today. "Beauty, brains and a voice are a rare combination, but nature has bestowed them all on Frieda Hempel, and with youth still on her side, she lacks nothing to make the perfect singer."

"The Blue Danube Waltz," of "Crispinoe la Comare," interpolative memories at the Metropolitan Opera, will be one of Frieda Hempel's numbers at her concert to be given at the Hancock Theatre tonight. It is Miss Hempel's biggest "request" number, and she seldom sings a concert without receiving scores of notes and telegrams begging for it.

When Miss Hempel sang it at Hartford, Conn., "with such rhythmic contagiousness and such lilt and dace suggestiveness of bearing as to be quite irresistible," she not only roused her audience to great enthusiasm, but inspired the critic of the Hartford

FINAL PLANS FOR MARCH 2 FROLICS SHOW GREAT TIME (Continued from page 1)

distributed the morning of the celebration. These will show the entire schedule of events for the day in addition to the program of the meeting at the Men's Gym. The events and their time are as follows:

Assemble at flagpole, 9 a. m.
Cannon salute and color raising, 9:10 a. m.
March to Men's Gym, 9:45 a. m.
Pushball contest, 11 a. m.
Bacon fry at East Woods, 12:30 a. m.

Dance at Woman's Gym, 8:30 p. m. (Given by ex-students to all University students).

The entire committee will meet at the Y. M. C. A. Friday at 7 o'clock to complete the final details of what gives promise to be one of the best and largest celebrations of its kind ever held at Varsity.

LONGHORNS HAVE A RENEWED HOPE FOR NEXT FARMER GAME (Continued from page 1)

first contests of the season are once more ready for action. These are H. M. Russell, captain, and J. W. Duckett. Both of these were in action against Southwestern, and they can give stiff opposition to the Farmers.

When the A. and M. aggregation was in Austin, it faced a highly crippled five. Dittert, DeViney, Newman and Knebel were all out. Duckett was only in fair form. So was Blaine. The upshot of it all was that the Farmers won, and in the first game they did that with difficulty.

Three Men Back.
Now with DeViney, Knebel and Duckett back on the court, things look materially brighter. Knebel especially is a strong player. He has been responsible for several of the victories of the University string, and he may be responsible for another. DeViney is another man who is noted for his accuracy in finding the basket. When he comes onto the field, there is always a perceptible rise in the fighting qualities of the team, and usually there is a notable rise in the score. Duckett is a good center, the one position which Coach Whitaker has had the greatest trouble keeping filled.

The team is playing together now better than before. During the last half of the Southwestern game, the Longhorns got into action, and they literally swept the Pirates off their feet. Their passing was good, their guarding was good, and their goal shooting was good. This gives a little brighter prospect for the future.

A. and M. has continued blithely on her way, tearing through every one of her opponents and coming out of every contest so far with an undefeated team. Her five stand-by's, Williams, McQuillan, Forbes, Hartung and Dwyer, are still playing their strong game. Last week this combination managed to go over Rice with a score of something like 48-13. Everyone admits that the Longhorns are going up against a big job when they tackle College Station.

Still, with the ever present Texas "fight" with the team captain and several regulars once more hitched, and with the added incentive of this week being the last opportunity to put a crimp in the Farmer plans, fans are hoping that at least one of the games will come Texas' way.

ford Courant with a deeper, deadlier hatred of "jazz" than before.

"The Blue Danube proved—if proof be necessary," he wrote, "that composers used to have more than one small melody in mind when they set out to write dance music. One wishes that Strauss might come back and that the 'jazz' musicians of the day could be sent wherever he may have gone after this life."

If the true music-lover were only sure what kind of a life Strauss led, he would know whether or not to sic the claque on to the wish.

The vocal arrangement of "The Blue Danube" is Miss Hempel's own and her singing of it explains all the requests that may ever be made.

The program follows:

1. a. Arioso from Cantata Con Stromenti (Handel). b. "Sweet Bird" from Il Penseroso (Handel), with flute accompaniment.

2. French Songs. a. Pauvre Jacques (Rameau). b. Quieres et Mandolien (Saint-Saens). c. Fetes Galantes (Hahn). d. La Fe aux Chansons (Bemberg).

3. Piano Solo. a. Elegie (Rachmaninoff). b. To Elise (Beethoven). c. Waltz in G Flat (Chopin)—Mr. Bos.

4. Grand Aria Di Bravura, "A vous didai-je, Maman" (Mozart-Adam), with flute accompaniment. As interpolated by Miss Hempel in "The Daughter of the Regiment."

5. Reign of the Blessed Spirits (Gluck). b. Arabesque (Debussy)—Mr. Rodeman.

6. a. Vesper Hymn (Old English) b. Invocation to the Sun God (Troyer). (Zuni Indian Traditional Hymn). c. Lullaby (Lieurance). d. Blue Danube Waltz (by request.) (J. Strauss). (Arranged for voice by Miss Hempel).

INTERSCHOLASTIC LEAGUE REGISTER SHOWS INCREASE

(Continued from page 1)

sion Department of the University, is published in the interest of the contests held by the League. By publishing each year several selections suitable for declamations, it inspires the carrying on of these contests in an educational and sportsman-like way. Also by printing press—letters from various counties, it keeps the widely separated communities awake as to what the other clubs are doing.

PENNYBACKER MEETS.

Pennybacker Debating Society had a meeting Thursday afternoon, at which Mr. Duffey, one of the men who first organized the club, spoke. He told about the first days of the club's life, and what he hoped for the future. On Friday afternoon at 5 o'clock the club will hold preliminaries to select the five members who are to speak in the extempore speaking contest on Saturday afternoon against the other literary societies.

RED CROSS INSTITUTE SESSION TO CONTINUE FOR SIX WEEKS PERIOD

The Red Cross Institute which started this week will continue for six weeks. The course will include lectures by Ivan G. Wright of the Sociology Department and by noted outside lecturers. Reference reading and field work will also be included. Students in these classes are representatives of different countries who are sent by the Red Cross chapters and whose expenses are paid by the chapters. Classes will be open to University students who wish to attend.

Lectures (which will be given on all week days except Saturday, from 2 p. m. to 4 p. m., in Room 301 Ed. B.) will cover such phases of social service activities as child welfare, juvenile delinquency, health conditions, and Red Cross programs.

Field work will consist in visiting state institutions and learning of the purposes and management of each. Visits will be made to such local social service agencies as the United Charities, Probation Officers, Juvenile Court and child caring institutions.

Any one interested in the lectures may secure information through the Red Cross representative, Mr. Ivar G. Wright, or Dr. M. S. Handman.

WILSON TO VISIT AUSTIN

Varsity Alumnus Is Traveling in Recruiting Interests of Foreign Missions.

Mr. Jesse Wilson, an alumnus of the University, who is now traveling in the interest of the Student Volunteer Movement, will be in Austin on March 3 and 4, en route to the Pacific coast to visit the University of California and other institutions. The object of his visit is recruiting for foreign missions, and definite information will be available to those interested about teaching positions in India, China, Japan, and Latin America. There are also openings and demands for doctors, nurses, business men, and ministers. Good opportunities are open for those interested in this kind of work, which consists of both service and adventure.

Mr. Wilson will be at the Y. M. C. A. for two days, and any information will be given personally by him.

Color Gems, a study in light, color and form, at Majestic today.

ASHBEL VISITS LIBRARY.

The Ashbel Literary Society went to the Wrenn Library Wednesday afternoon for the third of a series of lessons dealing with the books. The subject discussed in the last meeting was "Bookplates." Miss Hatchford, librarian of the library, illustrated her talk with books from the collection. Quite a number of members of the society took advantage of the opportunity to learn more about this library.

ETTLINGER WILL RECEIVE DEGREE

Well Known Varsity Professor and Athletic Coach Honored by Harvard University

H. J. Ettlinger, adjunct professor of pure mathematics in the University, will receive the degree of Doctor of Philosophy from Harvard University early in June.

Mr. Ettlinger is a native of Missouri. He was born in St. Louis in 1886. He received a Bachelor of Arts degree from Washington University in 1910 and a Master of Arts degree from Harvard in 1911. While in college he was elected to Phi Beta Kappa, honorary academic fraternity, and Sigma Delta Psi, honorary scientific fraternity. He was also assistant in mathematics for two years at Harvard. In 1913 Mr. Ettlinger came to the University of Texas as instructor in applied mathematics.

During his connection with the University of Texas, Mr. Ettlinger has taken an active interest in athletics. He has coached the freshman football team every year, and has assisted in coaching the Varsity team as well. He is well known to high school teachers over the state because of his enthusiastic work in the athletic events of the Interscholastic League meets, which are held yearly under the auspices of the Extension Department of the University.

HOUSTON ADDRESSES CLUB.

Mr. Bruce Houston will address the Texas Chemical Club at its next meeting, to be held on Friday evening, February 27. Mr. Houston has announced the subject, "Colloidal Fuels" for his talk. Mr. Houston has made a particular study of this subject and the program promises to be one of interest and benefit. Mr. Houston enjoys the distinction of being the first graduate of the School of Chemical Engineering at the University, having received his B. S. degree last June. He is now taking advanced work in the School of Chemistry while serving as a tutor in chemical engineering. The club will be pleased to have present any visitors who may be interested in this subject.
