LONGHORNS WIN TRACK MEET AT GEORGETOWN

SOUTHWESTERN INTER-COLLEGIATE RECORD BROKEN IN TWO EVENTS—NEW MEN SHOW UP FINE—THEIR RECORDS.

RETURN MEET IS TO BE HELD

In the first track meet of the season on Wednesday, Texas won from Southwestern at Georgetown in a dual meet, by 29 points, the result being Texas 72, Southwestern 43. Contrary to expectations, and contrary to what the result would indicate, the meet was hotly contested in every event excepting the high jumps and distance runs, which easily went to Texas.

Considering that the season is very early, and that the track on which the meet was held is very bad, the records made are very encouraging, both for Southwestern and for Texas. The Southwestern Intercollegiate records were broken in two events, that of the mile run, and the shot put. In the former Ayres, of Texas, made an excellent showing. He is almost sure to develop into the best distance runner Texas has ever had. In the shot put, Aldredge, of Southwestern, with little or no form easily put it 37 feet 9 inches; and if trained into form he should be able to put the shot at least 4 or 5 feet further.

Callan of Texas made an enviable record in the sprints, surprising every one by defeating Nettles of Southwestern, in the 100 yard dash. Nettles was conceded to be the best sprinter next to Ramsdell, in the Southwestern Association. If the track had been good, and had he not been handicapped by having the outside track for which no allowance was made, and which was a serious disadvantage as the track is laid out, Callan would have also won the 220 yd. dash. Jones and Leonard of Texas also showed up well in the sprints, the former taking third place in the 220 yd. dash, and second place in the 440 yd. dash; and the latter taking third place in the 100 yd. dash. Lyday also did good work in the distance runs and the relay, taking second place in the half-mile and mile runs.

In the jumping Texas did exceedingly well. In the high jump, Bone, Brownlee and Thomas tied for first place at 5 feet 7 inches. The tie was not jumped off so the record Texas may make in this event is still undecided. In the broad jump Texas fared poorly, Southwestern taking first and second places. Coach Howser promises that for the next meet he will have material developed that will also capture this event.

In the hurdles Nettles of Southwestern took first place with Wright of Texas a close second. In the pole vault a surprise was sprung when Thomas of Texas captured first place at the height of 9 feet 8 inches. Thomas showed up in excellent form both in the pole vault and high jump, and Texas may expect great things of him. With Thomas and Bone Texas has an excellent team for these events. Bone took third place in the pole vault and tied Thomas and Brownlee for first place in the high jump.

In the weights Texas was handicapped by the sudden illness of C. Bailey. However, Krahle made his usual good showing in the flammer throw, but was bested by Aldredge of Southwestern in the shot put.

There will be a return meet between Texas and Southwestern held on Clark Field in the near future and the contest

(Continued on Page 2.)

CIVIL ENGINEERS ORGANIZE SOCIETY

MEMBERS OF SENIOR AND JUNIOR CLASSES MEET AND FORM PERMANENT ORGANIZATION.

On last Friday night the Junior and Senior Engineers met at the Engineering building to organize a Civil Engineers' Club. An informal meeting had previously been held, when a temporary chairman had been elected and a committee appointed to draw up a constitution for the proposed organization. At this last meeting a constitution was presented by the committee. This was adopted with but only few changes.

Officers for this year were elected. Mr. Robert L. Ramsdell was elected president; L. C. Robertson, first vice president; Harry Beckwith, second vice president; Dan C. Lipscomb, recording and corresponding secretary, and C. W. McClelland, treasurer.

As stated before, this society is made up of Junior and Senior Civil Engineers. Its object is to stimulate the interest in current engineering events, and to train its members in the preparation of papers upon engineering subjects. Societies of this kind are found in all other large Engineering Schools of the United States; and in this movement the Texas Engineers are merely following a most profitable example.

The society will hold several meetings during the year. Regular annual meetings, however, will be held on every Thanksgiving night, at which time officers will be elected for the ensuing year.

ACADEMY OF SCIENCE TO MEET

DATE CHANGED—TO MEET TONIGHT—PAPERS OF PARTICULAR GENERAL INTEREST TO BE READ.

Contrary to custom, the next meeting of the Academy of Science will be held next Saturday night instead of Friday night. At this meeting two papers of particular general interest for our greatest industry, agriculture, will be presented, namely, "Some Local Advances in Technical Seed Breeding," by Mr. A. M. Ferguson, manager of the Texas Seed Breeding Farm, Sherman, Texas, and "Soil, Fertility and Phosphoric Acid," by Dr. G. S. Fraps, State Chemist, College Station, Texas.

Mr. Ferguson is well known in this community, having lived here for a number of years, during which time he was teaching in the School of Botany in the University. He has always been very enthusiastic on the subject of seed improvement, and is well known in the surrounding country through his corn breeding experiments. The Texas Seed Breeding Farms have made it their special business to furnish seed, the quality of which has been raised very high through the application of the latest scientific principles. Mr. Ferguson's paper will probably present some of the latest and most remarkable results achieved.

Prof. Fraps of the A. & M. College has studied for years the relation of phosphoric acid to the fertility of the soil. He is one of the best informed men in the United States on this subject and one of the most active investigators. The forthcoming paper is certain to be another one of his many contributions to our knowledge on this subject.

IMPORTANT MEETING OF STATE COMMITTEE

CONVENTION OF NEWLY ELECTED PRESIDENTS AND TREASURERS OF STATE Y. W. C. A.'S MEET. LOCAL MEMBERS ENTERTAIN.

MISS BLODGETT IS LECTURING

The State committee of the Young Women's Christian Association met here April 5 and 6. At the same time a convention was held for the newly elected presidents and treasurers of all the associations in the State. About thirty visitors were present, representing, besides the State committee, eleven associations.

Two meetings were held on Sunday, at which Miss Blodgett, Miss Batchelder, Dr. Vinson, Miss Stuart, and Miss Knox spoke on the influence of association work in its different phases. Monday morning another meeting was held for the particular purpose of helping the delegates from the association. This was followed by a delightful luncheon in the Study Hall, given by the resident members of the State committee, and superintended by Mrs. R. H. Baker. In the afternoon, a business meeting was held, after which the convention adjourned to the Study Hall to listen to Miss Blodgett's lecture.

The State committee elected no new members; the present board will serve until the regular State convention, to be held in the early part of next fall. The officers for the following year are: Mrs. R. H. Baker, Chairman; Mrs. A. E. Wilkinson, Vice-Chairman; Miss Louise Wright, Editorial Secretary; Mrs. Brooks, Recording Secretary; Miss Roberta Lavender, Treasurer.

The committee voted to publish a paper for State work to be incorporated in the "Association Monthly," which is the organ for the National Association movement. By this means the committee hopes to unify the State work; to bring all the associations over the state in to closer touch with each other, with the state work, and with the national work; and to increase interest in the association movement by giving broader information concerning the work. Miss Louise Wright, the editorial secretary, will have charge of this publication; her board will consist of the intercollegiate committees of the different associations.

MISS BLODGETT'S LECTURES.

Miss May N. Blodgett, who is delivering a series of Bible lectures in the University, will be here through the following week. The lectures this week have been well attended; every afternoon the Women's study hall has been crowded with women both from the University and from town.

All women interested in Bible study are extended a cordial invitation to attend these lectures, which are held every afternoon from five to six.

A most remarkable sale was made this year when the leading haberdashers of Paris and London bought their stock of men's apparel from a Chicago manufacturer. Hirsch Wickwire & Co., a leading clothier of this city, handles the same kind of stock.

Miss Elizabeth Wright, who has been unable to attend classes for some weeks on account of illness, has gone to her home in Palestine to recuperate.

APRIL MAGAZINE APPEARS ON TIME

REPRESENTS A PRAISEWORTHY EFFORT ON PART OF EDITOR AND CONTRIBUTORS.

The April number of the Magazine is better than usual, mainly because it contains not a single inexcusable story or essay, something almost unique in a college publication. There may be too much variety—English 2 or English 5 give too much of it—but, on the whole, the publication represents a praiseworthy effort on the part of the editor and contributors.

The first story, "Sermons in Stones," is not a homily, and there is no tinge of the Sunday school effort, but the stones are olive stones, and the sermons are but the echoes in a girl's conscience of the "long-ago stories," or to be exact, the "be good lessons" learned at mother's knee. Worthy of comment is the fact that the story is local and purports to have been acted out in the Woman's building and the library. This is easy to believe on the part of one who sees chapters and scenes from other stories in, at least, the latter, any day. The story is rather too long drawn out, and since a man was brought into it, his part is not well enough played; he does not come into the story enough to show what his relation is—though it is quite apparent what he wants it to be. The story is quite good, one of the best of the year.

"A Comparison of Shakespeare's 'Hamlet' and Kyd's 'Spanish Tragedy'" is, of course, an English essay. Its title, however, is sufficient warning, and anyone who reads it, has only himself to blame. The subject is well enough handled, though this paper, too, is butchered by the printers.

"Sun Flowers" is the strongest story (Continued on page 2.)

UNIVERSITY TEAM WINS BOTH GAMES

WAXAHACHIAN IN SEARCH OF WORLDS TO CONQUER MEET THE USUAL FATE OF WORLD CONQUERORS.

TWO GAMES TODAY WITH BAYLOR

Texas, 6; Trinity, 1.

Flushed with a victory over T. C. U. with the mighty Randall in the box, the Trinity University baseball team came to town Wednesday in search of more worlds to conquer, and met the usual fate of world conquerors. The worst obstacle they found in the way of further triumphs was a crooked little southpaw named Groesbeck, who dished out to them the crookedest variety of pitched balls seen on Clark Field for some time, and let them down without a hit for nine successive innings. Groesbeck had control, too, and walked only one man, the first one who faced him. This walk resulted in Trinity's lonely counter, owing to some bad work in the infield. After that Groesbeck put them over. Two successive errors with nobody out forced Groesbeck to work out of a tight place in the third, but he was equal to the emergency, and the visitors had no further opportunities. Groesbeck had some timely assistance, however, Wathen handling some punches into his territory that would have been hits with an ordinary baseman, while Walker robbed the Ellis county men of a possible two-bagger with a sensational catch on the right field foul line. The right fielder also pulled off a pretty throw to third, which held Templeton at second when slow work might easily have advanced a

UNIVERSITY TEAM WINS BOTH GAMES.

(Continued from Page 1.)

runner. Weathered squeezed a particularly tall one in the left garden.

The runs were all acquired in rather easy fashion in the first four innings. For Trinity Hendricks walked, stole second, and scored on some infield outs. Texas evened up in the same inning. Fulcher walked, Hughes sacrificed him to second, and Wathen scored him with a hit. Wathen took third on Scheiermeier's error, but was out at the plate in an attempt at the "squeeze" play.

Texas added two in the second. Weathered opened with a hit, Brownlee forced him at second. Robertson hit safely, and Stacy scored both runners with a good one.

Templeton, who is said to have pitched his first game for Trinity about the time LaSalle was wandering around in the vicinity of Tehuacana looking for a game, relieved Daniel at this juncture and pitched good ball. The Texans added three more off him in the fourth, however, owing to his weak support. Weathered waited, and was again forced by Brownlee at second. Robertson rapped out a good one to right. Edmundson made a sensational throw to catch Brownlee going to third, but White muffed the ball. Two more errors scored Robertson, Brownlee and Stacy, who went to second on the first one. Both teams steadied down after that, and there was very little doing for either side.

The score:

Texas.				
AB.	R.	H.	E.	
Fulcher, cf	3	1	1	0
Hughes, ss	4	0	0	2
Wathen, 3b	4	0	1	1

Hamilton, lb	4	0	0	1
Templeton, 2b-p	3	0	0	0
Kelly, cf	3	0	0	0
Edmundson, rf	3	0	0	0
Daniel, p-rf	3	0	0	1

Summary.

Struck out: Groesbeck, 7; Daniel, 1; Templeton, 2.

Stolen bases: Stacy, Fulcher, Hendricks.

Bases on balls: Groesbeck, 1; Daniel,

Texas, 4; Trinity, 2.

For Thursday's game the visitors un-

corked Edmundson, their star twirler, and Captain Graham decided to go on the firing line himself. He was not in his best form, but he retired the Waxahachians hitless except in the second inning, when they bunched five short ones, mostly bunts, and a sacrifice, for two runs. An error and a sacrifice sent a visitor to second in the fourth, and Graham walked two men in the sixth, otherwise the Trinity boys did not have a look in.

Edmundson was rather easy for the Texans, but they hardly made the most of their opportunities to score, although Graham and Wathen pulled off some of the prettiest base-running seen here this season.

Walker was given a life on Rockett's error in the second, Graham laid down a lovely sacrifice and Weathered uncorked a two-bagger on which Walker scampered over. Wathen opened the fourth with his rap to left for two bases. Walker laid himself on the altars of sacrifice, and Graham produced a lovely little bunt, on which he scampered to first while Edmundson and Beumer were vainly endeavoring to catch Wathen at the plate. The captain scored a moment later by taking every advantage of a wild throw of Beumer to catch him going to second, which Templeton permitted to escape.

The Texans added one more in the eighth for good measure. Wathen hit safely with one down, and Walker brought him home with a two-base hit to right. Graham's bunt sent Walker to third, but Weathered fled out.

A fine opportunity to score was wasted in the seventh, when Robertson hit and stole second and Fulcher hit safely. Robertson was caught a block trying to score from second on Fulcher's hit, and Fulcher was choked off trying to steal third.

The score:

	Texas.

Bases on balls: Off Graham, 2.

Hit by pitcher: Kelly.

BAYLOR TODAY.

In addition to the regular game with Baylorites this afternoon, "Holliday's Cubs" have arranged a game with the Baptists to be played this morning. The second team men are still feeling good over their victory over the first team, and are anxious to duplicate the feat by defeating some other University team, and Coach Burleson of Baylor has consented to give them the opportunity. The Cubs will line up as follows:

Benson, Weeks, Johnson, T.; McCormick, Adamson, Taylor, Browne, Hendricks, Dowell.

Utility—Tarlton, Byrne, White and Hart.

SECOND TEAM GAMES.

In addition to the game with Baylor today, Assistant Manager Holliday is endeavoring to arrange for a game between the second team and St. Edward's to be played next week, and

also has negotiations pending with Trinity for a series with that team, to be played at Waxahachie. The second team is very popular with the student body, and a game with St. Edward's next week will doubtless prove a big drawing card, as the regulars leave for New Orleans on the trip tonight or tomorrow, and there will be no more University games here until the Arkansas series, beginning April 23.

LONGHORNS WIN TRACK MEET AT GEORGETOWN.

(Continued from page 1.)

between Krahl and Aldredge promises to be especially interesting. On account of the faster track, Coach Howser fully expects that even better records will be made.

Following is the summary of the events: 100 yard dash—Callan of Texas, first; Nettles of Southwestern, second; Leonard of Texas, third. Time 10 1-5 seconds. 220 yard dash—Nettles of Southwestern, first; Callan of Texas, second; Jones of Texas, third. Time 22 2-5 seconds. 440 yard dash—Callan of Texas, first; Jones of Texas, second; Newton of Southwestern, third. Time 52 2-5 seconds. Half mile run—Ayrres of Texas, first; Lyday of Texas, second; Stanford of Southwestern, third. Time 2 minutes 7 1-5 seconds. Mile run—Ayrres of Texas, first; Lyday of Texas, second; Ootman of Texas, third. Time 4 minutes 48 seconds. High jump—Bone, Brownlee and Thomas, all of Texas, tied for first place; height, without jumping off the tie, 5 feet 7 inches. Broad jump—Nettles of Southwestern, first; Brown of Southwestern, second; Moore of Texas, third. Distance 19 feet 11 inches. Pole vault—Thomas of Texas, first; Snipes of Southwestern, second; Bone of Texas, third. Height 9 feet 8 inches. Shot put—Aldredge of Southwestern, first; Krahl of Texas, second; Steiler of Texas, third. Distance 37 feet 6 inches. Hammer throw—Krahl of Texas, first; Aldredge of Southwestern, second; Steiler of Texas, third. Distance 111 feet 11 inches. 120 yard hurdles—Nettles of Southwestern, first; Wright of Texas, second. Time 17 2-5 seconds. 220 yard hurdles—Nettles of Southwestern, first; Wright of Texas, second; Brown of Southwestern, third. Time 27 1-5 seconds. Mile relay race—Texas team, Krahl, Lyday, Jones, and Callan, first; Southwestern team, Nettles, Webb, Newton, Brown, second. Time 3 minutes 42 1-5 seconds.

APRIL MAGAZINE APPEARS ON TIME.

(Continued from page 1.)

of the issue, and one of the most powerful of the year. It is the story of a girl, a dog, and a man, but principally of a girl. She is the real sunflower, though the story makes believe that she is gathering them, the flower sunflowers, to give a title to the story. The hero is thrown from his automobile and partially paralyzed. Naturally, he does not mention his love to her again. The story gathers about her efforts to make him see her love without the fancied humiliation of telling him of it. His self-sacrifice is quite noble, but is nothing when compared with hers in trying herself to a life-time cripple, brought about by the accident of her stopping at the door to escape a passerby and hearing the exclamation of torture wrung from the hero in his desolation. The story is well told and full of feeling.

"Night Above the City" is one of those things, stories I suppose, which have appeared about every two weeks since Poe began to write. They are best written, according to report which seems to find some basis of fact, when the writer has been on a drunk, or has taken the requisite quantum of some drug. This writer apparently didn't go through the preliminaries, though his story is quite good of its kind. His debt to Poe or DeQuincy is too evident, however.

"L'Allegro—A Study" is another English paper.

Only one of the sketches makes any

pretension to the dignity of a story, though all are quite interesting. The "Exit of a Soul" is beautiful of its kind, the story of a prodigal dying in a foreign land with a Mexican priest pointing him the right way. He is carried across the gulfs that lie between shameless life and the Better World, one would infer from the conclusion, straight to Abraham's bosom. It is doubtful whether this writer ever saw death, or heard people talk who are on the brink of the dark stream. Dying people don't use the pompous flowing style which this dying infidel affects. The agony and revolting animal suffering of death is not indicated. The style is good enough, however, though the basis of truth for the writer's philosophy seems remote enough.

"Billy O'Brien" is more original, a brief characted sketch, drawn from life apparently, and telling us a great deal about Billy.

"The Wheels of Time" has the time-worn plot of the disappointed lover returning rich years later and finding the "summoning vision"—and the rest of it—transformed into a reality, maternal, fat, and forty.

The verse is quite good. "Memories" has a lilt and swing suggestive of, and, perhaps, suggested by "Locksley Hall." It is good, though marred by the misplacing of a line. At least the last line ought to be first, whether it was meant

so or not. "Illusion" is musical in all its lines, well sustained. "If Sound Claimed Aught of Color" is poetic both in conception and execution. "Fear" could be a great deal better. "You" is poetic in thought, if time-worn, and the versification good. "Spring on the Colorado" is a real poem. It has feeling, thought, imagination, and a marvelous expression. "Liken Sword," "Lyric Streams," "misted Peaks," and "Truant Dreamer," all show the poet. "Once Fancy Led Me," also by Mr. Greer, turns from nature to men, and is not so good as either of his other verses appearing in this number.

The exchanges as usual show the excellent discrimination of the editor of that department, and the same spicy style we have learned to expect. It takes much of talent to infuse interest into a department necessarily brief, and generally regarded as having no other excuse than custom or space-filling.

The editorials are along conventional lines, and no comment on them seems necessary or desirable.

On the whole this number shows improvement over any previous numbers, and the editor is to be doubly congratulated in that the material was gotten together during examination month.

POLITICAL SCIENCE ASSOCIATION MEETS

VERY INTERESTING PROGRAM
RENDERED—PAPERS READ SHOW
MUCH WORK AND PREPARATION.

The regular monthly meeting of the
Political Science Association was held
Thursday afternoon at 4 o'clock. The
following program was carried out:

A. T. McKean—"Inquiry into the In-
dustrial Labor Problem."

E. P. Collins—"The Houston and Gal-
veston Differential."

J. L. Highsaw—"Early Trade Routes
and Trade Centers in Texas."

Each of these subjects was treated
in a thorough, and at the same time
very entertaining manner. The papers
showed much work and preparation on
the part of those who had prepared
them, and are undoubtedly real contribu-
tions to the literature of the subjects
discussed.

Mr. McKean gave some very inter-
esting things on the labor problem. He
showed the prices paid for skilled labor
in the various cities of Texas, and the
influence of unskilled foreign labor on
wages. Especially interesting was his
account of the work of the labor unions
in Texas.

Mr. Collins showed Galveston's side
of the differential question. He showed
very clearly the justice of putting Hous-
ton and Galveston under the same blan-
ket rate for long distance points, and
under these conditions allowing them
to compete for the cotton trade.

Mr. Highsaw's paper was peculiarly
interesting because of the subject, and
because one sees so little on that sub-
ject. He had prepared on a large scale
a map showing the early stage and
trade routes in Texas, and very graphi-
cally illustrated his paper from this
map. He showed the influence of these
early lines on the colonization and de-
velopment of Texas, and also gave con-
crete examples of the time required to
make some of the more important runs,
the fare charged, and other interest-
ing incidents of pioneer travel in Texas.

These papers, together with others
that have been prepared and read by
members of the association during the
year, will be filed away and kept for
use and reference in the future. It is
the purpose of the association to gather
in this manner the latest and most re-
liable information on important Texas
questions. The value of such a collec-
tion is seen at once. It will furnish
a ready source for members of the leg-
islature, students, and others who wish
to inform themselves on the subjects
treated. The association feels very much
encouraged over the work done this
year, and looks forward to still greater
accomplishments next year.

AT OTHER UNIVERSITIES.

By defeating the Eastern champions,
Pennsylvania, in two out of three
games, the University of Chicago basket-
ball five has won the amateur champion-
ship of the United States. The score
of the deciding game was 17 to 16 in
Chicago's favor.

"Billy" Sunday, who styles himself
as the "baseball evangelist," has de-
nounced the Universities of Chicago and
Harvard as "hotbeds of atheism."

Seventy-three students have been
dropped from Princeton University for
glaring deficiency in recent examina-
tions. The Sophomore class seemed to
suffer most, the number of failures be-
ing double that of last year.

Six Juniors at Iowa were ducked un-
der the pump for going to a class which
the rest of their fellow-students had
agreed to "cut."

March 21 was Tulane night at New
Orleans and practically the whole stu-
dent body turned out at the theater to
do honor to the occasion.

Minnesota debaters are attempting to
schedule a contest with George Wash-
ington or New York University.

THE JUNIOR GIRLS ENTERTAIN

NEW MIRROR IN MRS. KIRBY'S ROOM IS UNVEILED—APPROPRIATE TALKS MADE BY SEVERAL.

The Junior girls were hostesses for a most enjoyable party Saturday afternoon in Mrs. Kirby's room. The prominent feature of the afternoon's program was the unveiling of a new mirror which the girls have just bought.

Misses Anne Sowell and Norma Egg were called upon for impromptu speeches, and both responded very substantially.

Then came the unveiling ceremony, with Miss Marian Bliem as mistress. After a short, appropriate speech by her, the maids of honor piled huge bouquets of blue-bonnets at the foot of the mirror, each making some appropriate little speech as she did so. These maids were Misses Louise Lawrence, Leah Andrews, Willie Thatcher, Marguerite Stewart, Lila Knox and Dora Givins.

After the unveiling Miss Bliem invited Mrs. Kirby to be the first one to look in the mirror, to which invitation Mrs. Kirby responded immediately.

Amid much laughter and talk, immense sticks of red candy were passed around, and every one left declaring that it was one of the most enjoyable afternoons they had ever spent.
