Dr. S. W. Geiser  
Southern Methodist University  
Dallas, Texas

Dear Doctor Geiser:

I am very glad to have the separates of your historical papers on early geologists of one sort or another. They are very informative. Francis Moore's collections of Tertiary fossils described by Cabb and Conrad have given me considerable trouble (compare Catalog of North American early Tertiary Fossils of the Gulf and Atlantic Coastal Plain, Card no. 38, published by the Bureau). His locality descriptions are questionable or indistinct.

With many thanks.

Sincerely yours,

HBS:hrb

H. B. Stenzel  
Geologist
