offers an opportunity to hear
a program of good music.

VOL. XVII.

AUSTIN, TEXAS, SATURDAY, APRIL 28, 1917.

No. 158

DEAN OF S. M. U. CALLED TO HELP SECRET SERVICE

John H. Keen Former Varsity Instructor, Is Wanted for Government Work.

Special to The Texan.

Dallas, Texas, April 27.—John H. Keen, formerly instructor in the University of Texas, dean of the College of Arts of Southern Methodist University, is in Washington conferring with officials with regard to the organization of a department of the Federal Secret Service, announced Dr. Robert S. Hyer, president of the University yesterday.

Mr. Keen was called to Washington by Attorney General T. W. Gregory several days ago, and yesterday the Attorney General telegraphed Dr. Hyer asking for the release of Mr. Keen for the remainder of the year. The Attorney General asked that Mr. Keen be allowed to enter government service on half pay, since appropriations for the Secret Service is too small to cover the increased demands of the present war situation.

Dr. Hyer telegraphed Mr. Gregory yesterday that the request to release Mr. Keen would be granted on condition that the government furnish an artillery officer and all equipment to train an artillery corps at Southern Methodist University. Although no reply has yet been received, it is expected that the request for an artillery officer will be granted because of the government's need for Mr. Keen's services.

MISSIONARIES TO VISIT "Y" SUNDAY

Men Who Have Served in Foreign Countries to Talk to Students About Missions.

Under the auspices of the Y. M. C. A., Messrs. Harry A. White and Jess T. Hopkins, both foreign secretaries of the Y. M. C. A., will visit Austin Sunday and speak at the different University churches during the day. Mr. White is a graduate of the University of Nebraska. In 1909 he traveled in the West and South for the Student Volunteer movement, and then went to India. For three years he had charge of the religious and physical work departments of the Madras association, and during the last three years was traveling secretary for the associations of South India. Since his return from India his addresses on the political, commercial, and religious outlook for India have been heard by business men in many cities of the United States. He has visited the association work in China, Japan, and the Philippines, and speaks with first-hand knowledge of these countries.

Mr. Hopkins is the technical director of physical education for the government of Uruguay. He went to Montevideo in 1919 as director of physical training in the Y. M. C. A., and his work in that capacity was so successful that in 1915 he was appointed advisor to the government. Seven playgrounds built and put into operation, several native young men trained and put into the work, a hand in the formation of a national amateur athletic federation, volleyball and basketball firmly implanted, the complete reorganization of the physical department of the National University—these are some of the salient features of Mr. Hopkins' work in Uruguay. When Mr. Hopkins was in the Springfield Y. M. C. A. College he played on the Varsity football and hockey teams.

During Sunday either Mr. White or Mr. Hopkins will address the Methodist Baracac, then the Methodist Epworth League, the B. Y. P. U., the Baptist Church, and one of them will preach at the Presbyterian church at night. Also one of them will speak in Chapel Monday morning.

MANY APPLICANTS FOR TRAINING CAMP

University Students Sign Up for Leon Springs Camp—Fifty Still Dropped From Rolls.

Physical examinations for those planning to attend the training camp at Leon Springs continued yesterday. It is not known definitely just how many have been examined, but the number is large. It has not been determined as to the salary of the faculty members who choose to attend the camp, and many men of the faculty await a ruling on that point. There are a number who will go, regardless of salary.

The number of delinquent students was reduced yesterday to about fifty. These fifty have not furnished the authorities with satisfactory excuses, but will be rounded up without delay. The officers were busy with the eleventh-hour applicants, as those who had not met the requirements by Thursday evening were notified by mail yesterday.

NO SLACKERS HERE, SAYS REGISTRAR

Misunderstanding Cause of Failure to Register—Students Permitted to Re-enter.

"There is no evidence of shirkers among those who failed to register for a course in Military Science," said Registrar E. J. Matthews, when questioned about the delinquents. The failure to register was merely a misunderstanding in most cases. Many had given their names for drill work, and had considered that all that was necessary. Some had instructors away, and some students had been out of town or sick. A number had not taken their mid-term exams, but were going ahead in some class in Military Science. A large number of special students were among the delinquents. All day Friday the dean's office was filled with students who wished to get back into the University. The excuses were almost as numerous as the individuals, and the majority have arranged to re-enter. On producing an ample and reasonable excuse, they were permitted to re-enter.

A letter was sent Thursday to the 149 delinquents, advising them that they had been dropped from the rolls of the University, and requesting that the person see the dean of his department. Of those dropped there were 79 in the College of Arts Department, 35 in the Law, 8 in the Engineering, and 7 in the Graduate Department.

MEMBERS NOT YET DISMISSED.

No official announcement as to what faculty members and employees of the University will be affected by the recent rule passed by the regents requiring all non-citizens of the United States to be dropped from the University employ. The rule has temporarily not been put in force, but as soon as definite information can be learned it will be put in practice. It is almost certain that the rule will apply to those who have never taken out any citizenship papers and also to those who have not completed the citizenship process yet. It is strongly rumored that several of the most prominent members of the faculty will be affected.

GEOLOGY TRIPS ABOLISHED.

The School of Geology has definitely abandoned all field trips for Geology 1 classes for the remainder of the year, in order to cause no conflict with various Military Science classes. This order includes the trip to Granite Mountain and Marble Falls, which is usually taken each spring.

Dr. Tucker, the field geology instructor, is helping Dr. Painter in his Military Science course of field signaling and map-making.

NOTICE.

In the event of rain today military contingents will meet in the men's gymnasium instead of on Clark Field. Lectures will be given on first aid and the handling of the rifle.

Captain Boswell.

ROYSTER TALKS TO PHILOSOPHY CLUB

English Professor Justifies More Impetuous War Enthusiasts in Talk Last Night.

Dr. J. F. Royster delivered an address before the Philosophical Club Friday evening on "Attitudes Toward the War." Dr. Royster justified the more impetuous war enthusiasts, showing by illustration from history and from literature how wise and conservative men need fools to awaken them from their lethargy.

He showed how ardent the pacifists were in their war for peace, and spoke of the cruelties and horrors of social wars, in which pacifists engage freely. He discounted those who must get mad before they will fight, and who will become indignant only when the war invades their selfish zone.

Dr. Royster spoke of the war as "a bad job that must be done," as a preparation for peace that is to follow. He expressed appreciation of those who went too far in their zeal, because they tend to equalize the resistance of those who are too slow to act. "All hogs and most men," he said, "have some human nature in them, and it is natural to get excited."

CATALOGUE UNDER WAY.

The University catalogue for the session 1917-1918 will be available for distribution in a few days, according to Dr. W. J. Battle, who heads the faculty catalogue committee. He is now busy reading proofs. The work has been delayed owing to the rush in the printing business of the State printers, occasioned by the session of the Legislature and consequent extra printing to be done.

INTERSCHOLASTIC LEAGUE MEET

MAY 4 AND 5.

According to the custom of the past years, students of the University will be called upon to assist in entertaining the contestants in the Interscholastic League meet. A large number of students are used on committees to meet trains and act as escorts to the visitors.

Students who assist in this manner will be excused from classes during such service. All those who will be willing to serve on these committees, please see that your name is handed in to Bob Skiles, chairman of reception committee, immediately. This is necessary because the deans must pass upon the names submitted before absences will be excused.

The University Y. M. C. A. will be headquarters for the preps during the meet. A record will be kept there of each visitor, and you may find your friend by applying there after registration begins.

Many of the contestants who will be the guests of the University are small boys and girls, and they will be accompanied by either parents or teachers. It is desired that lodgings for such may be secured together, and anyone who can provide lodging for a boy and his mother will do the committee a service by letting them know about it in advance.

There will be a large number of girls here in the declamation and spelling contests. The sororities and girls' boarding houses who can take care of girls are requested to notify the committee at once.

2ND MUNICIPAL CONCERT TO BE GIVEN SUNDAY

Symphony Orchestra Led By Prof. F. L. Reed Will Perform at the Majestic.

The Austin Municipal Orchestra will give a varied program of fugues, symphonies, suites, concertos, and folk-music at its performance at the Majestic Theater next Sunday afternoon at 8:30 o'clock. The company, consisting of forty players, many of whom are faculty members and students of the University, has been working consistently under Professor F. L. Reed, conductor, and is determined to make the orchestra a success and a permanent institution in this city.

This is the second concert given by the orchestra and is one of a progressive series given both for entertainment and also to show something of the systematic growth of music. The orchestra is not professional in any respect, all its members being residents of Austin, and the program will be in keeping with the demands of Austin music lovers.

Arthur Saft, violinist, will be soloist, and will play several selections which will allow full play to his abilities.

After the concert begins the doors will be closed and none will be able to disturb the music. Babies in arms will not be admitted. No admission will be charged.

FIELD COURSE PROGRESSING.

To date there have been ten applicants accepted for the course in Field Geology to be given at Bend, Texas, by Dr. H. B. Bybee. There have been a number of inquiries made. The course is limited to those students who have credit for one college course in Geology, either from the University of Texas or some other college.

Dr. Bybee has set May 10 as the last day for sending application and making deposit. It is necessary to limit the time of application in order to give sufficient time to buy all material and equipment. The number to go on the trip has been limited to fourteen.

UDDEN ON NAT'L. RESEARCH COUNCIL

Head of Bureau of Economic Geology Offers Laboratories for Government Use.

In accordance with the decision of the faculty that the laboratories and research departments of the University should be thrown open to the use of the government, work of service to the authorities in time of war has already begun in the Bureau of Economic Geology.

By special request of Prof. Clark of Johns Hopkins University, chairman of the National Research Council, Dr. J. A. Udden of the Department of Economic Geology, has accepted membership on the committee, and pledged himself to aid in its work. Dr. Udden is to make a report to the committee on road material for rapid construction of roads back of the front.

CAPS AND GOWNS APPEAR ON CAMPUS

Junior Girls Initiated and Presented With Senior Regalia by Class '17 Members.

Fifty-three Junior girls, the new Cap and Gown members, wore the dignified regalia of the Seniors yesterday, the regular day for Senior regalia. The privilege of wearing the caps and gowns on this occasion was conferred upon the Juniors with appropriate ceremonies at the end of the initiation services held Thursday evening in the Girls' Study Hall. At this meeting Ada Miller told of the history and purpose of Cap and Gown, and Alda Barber talked on "Friendship."

The next meeting of the club will be held in about two weeks, at which time the officers for next year will be elected. At present the officers are: Madge Davis, president; Mary Robinson, vice-president; Madeline Murphy, treasurer; Agnes Ledbetter, secretary. The club is only two years old, but has already done much towards promoting friendships and class spirit among the Seniors and Juniors.

Electrical Storm Threatens Texan

The electrical storm last night was not without effect on the University. Early in the evening the electric lights went out in the "down town" Texan office, and it seemed for a while that there would be no Texan for Saturday. The services of the Salvation Army, which holds nightly revival meetings next door to the Texan office, were very much in demand, for the printers and issue editors almost lost their religion in giving vent to their vehement protests against the darkness.

All the lights in the University neighborhood were turned off, and the campus was in total darkness. The lights in the Library were also out, and a talk fest took the place of studying for about half an hour.

MARTIN ALSO CANDIDATE.

In the list of Barb Party candidates announced in yesterday morning's Texan the name of Bill Martin, Middle Law, and candidate for president of the Men's Student Council, was inadvertently left out. Martin is running in opposition to George Howard, his being the only contested place in the Barb primary. The election will be held May 2.

WHAT'S IN A NAME.

Among the new initiates of Phi Beta Kappa one is first struck with the fact that 14 out of the 21 members are girls, which is a very large percentage. Also of the girls, three are named Mary, three Lois, and three named Estelle; of the boys, two are named Baker. Regardless of the name, the students are all recognized students of ability.

BASEBALL AND GYM "T'S" GIVEN BY COUNCIL

13 Men Given Baseball Letters, 4 Gym "T's"—Tennis Team to Go to Ft. Worth May 23.

The Athletic Council met at the Y. M. C. A. Building last night and awarded "T's" in baseball and gymnasium to members of the 1917 University teams. Thirteen men were awarded the baseball letter and four insignia in gym.

The Athletic Council also voted to send a team of four men to the State tennis meet at Fort Worth on May 2 and 3. This team will consist of James Thomas, Sellers Thomas, Houston Jones, and one other man to be chosen tomorrow or the next day.

The men awarded gym "T's" are: Elmer Luter, Ted Jones, Olin Seurlock, and W. E. Glaze.

The baseball men are: Sellers and Milton Thomas and Brooks Henderson, pitchers; Maxey Hart, catcher; Don Keeble and Bob Nunn, first base; Joe Fernandez, second base; Joe Secor, shortstop; Jack Keltner, third base; Walter English, Bobbie Cannon, and Lamar Hart, outfielders, and Thad Scott, manager.

OKLA. U. STUDES FAVOR DRAFT PLAN

Unofficial Poll of Students Shows No Opposing Votes—200 to Go to Leon Springs.

Special to The Texan.

Norman, Okla., April 27.—Students in the University of Oklahoma, representing every section of the State, are unanimous for the conscription bill proposed by the War Department and by President Wilson. Harry L. S. Halley, president of the Students' Association, made an unofficial poll of a large number of students Thursday afternoon. He failed to find a single man opposed to the plan. Nine in ten took the opportunity to express themselves as strongly for it. Many other men about the campus made similar investigations. The results from all were the same.

Students in the University, the majority of whom would be affected by the passage of the bill, believe that the security of the Nation depends upon what Congress does with the passage of the bill.

Probably 200 men at the University have either already enlisted or are planning to enter the Officers' Training Camp at Leon Springs, Texas. Scores of others are waiting to see what Congress will do before they decide what action they will take. They are drilling under civilians on the University campus.

BLACKWELL READS FOOD PRODUCTION LECTURE TO CLASS

Military Science 103, a course on food production, is proving an interesting course to those interested in food problems in times of stress. The course is being conducted by Dr. C. P. Blackwell, instructor in Agricultural Education. Laboratory sections are held Saturdays and Wednesdays, the 125 students enrolled being divided into two sections.

Dr. Blackwell discussed in his lecture yesterday food production from the farmers' viewpoint, and read a pamphlet addressed to farmers.

WOMAN'S COUNCIL CABIN.

The cabin which will be built in the woods on Lake Austin for University girls, is being built by the Women's Athletic Council, under the leadership of Miss Eunice Aden, and not in connection with the Y. W. C. A., as stated in yesterday morning's Texan. It is hoped to get the structure under way soon, as it will furnish a delightful place for overnight camps, etc.

THE DAILY TEXAN

The Student Daily Publication of the University of Texas.

Published every morning except Monday during the college year.

THE CAMP.

The names of all students who have signed for the Officers' Reserve Corps, to be held at Leon Springs, beginning May 8, will be published in Sunday's Texan. In addition, a list of what each man should carry to the camp with him will be suggested by Captain Boswell, and we will be able to get a line on things as they now stand.

Any person who stood at the recruiting station in the Federal Building yesterday afternoon and watched the students of the University of Texas line up and wait their turn to sign their names to the slip which obligated them for three months' training and any commission that might be given them, could readily see the spirit of the student body. Not those anxious to shirk work and leave college, not those who want to go for novelty's sake, but those who are willing to make the sacrifice of time, energy, and self when the call is made, were among the number present.

You won't find those of the feminine variety there, nor those who put self above everything else, but you will find those men who believe they can qualify to the extent that they can be of more service than they otherwise would be. Some of the best athletes in the University, some of the best students, and men who have taken part in student activities are on the list. And these are the very men the government needs. They are the men who must be depended upon to drill those who must be whipped into line by the passage of the conscription bill. They have taken the initiative, and we dare say that in the event Congress passes some of the bills now pending, many more will apply—but it will be too late, for the number is limited. Will your name appear in Sunday's list?

The Senior Law class will have several absent marks on the roll after next week.

Surely there will be no wenders of white feathers in the Engineering Department.

School politics has been placed in the background, and justly so. Such should be forgotten at this time, for if we cannot forget faction lines in the University, can we expect our representatives over the country to ignore party lines, and back the President?

A man who plays student politics in these war times reminds us of the fellow with two good eyes playing blind man's buff with eyeless children.

Over 1000 Soft White Shirts

Stock Up With Shirts for the Entire Season
This sale is the result of a large purchase several months ago. As a result we are offering you a shirt worth \$1.35 in this sale for \$1.00—all fresh, clean stock, just arrived—not odds and ends, but every size, in the most desirable shirts for summer. CHAPEL NOTICE

The emphasis of Mr. Gebbie's talk yesterday was on Jesus, the man and at the same time our Savior. While all things are not under the feet of man and sin seems to triumph, we remember that the prophets of old looked for the coming of the Savior, that His own day saw Him, that we see Him today. When discouragement comes and we wonder when all things will be put under the feet of man, we can look to Him and see in Him the victory over sin and the grave. He rules and will rule.

Mr. Gebbie speaks again this morning.

PAPER ON CAMPUS.

H. B. Beck, superintendent of buildings and grounds, is authority for the statement that it now requires the services of two men to go over the campus and pick up the waste paper every morning. And when it is windy during the day they are usually sent on a second paper hunt in the afternoon. A small piece of paper can be seen very easily on the ground when the grass is mowed short, and Mr. Beck thinks that a small, dingy piece of paper spoils the effects of the pretentious lawn or flower bed.

There has been a great improvement in the campus in the last few years. One of the chief obstacles to keeping the campus presentable is the paper that is thrown down by careless students. However, Mr. Beck says that the present student body is not at all in this respect as former ones. There being no suitable receptacle on the campus, the average student often forgets and throws a piece of paper on the campus.

I'll meet you at Reasonover's Barber Shop, Littlefield Building.

Wonder if every man who voted for military training in the straw vote is drilling daily? Surely such individuals could not be so inconsistent, providing they are able-bodied persons, as to drift into some of our soul-killing courses.

J. F. H., of column fame, is one of the leaders in preparing for the emergency. Only another example of practicing what he preaches. Many other Texan Firing Line experts, however, are in the rear at present.

Editors, issue editors, managers, and everything else concerned with The Texan, 20 years and 9 months of age, will make their exit soon.

SOCIETY

Owen Haas returned from a week's stay in San Antonio.

Miss Emily McManus has returned from a week-end party at the fort in San Antonio.

The following San Antonioans have returned from the Fiesta in San Antonio: Misses Fred Marie Peyton, Emily McManus, Pearl Zilker, Louise Berry, Christie Moore, Katherine Farmer, Velma Hazlewood, and Dorothy Hirshfield.

Floyd Smith, Dan Cook, Alva Howard, and Hubert Jones attended the wedding of Mr. Charles I. Wilson and Miss Ida May de Steiguer at San Marcos on Wednesday evening. Miss de Steiguer is a former University student, and Mr. Wilson was formerly a teacher in A. & M. They are to make their home in Henrietta, Okla.

Mrs. Goodwin accompanied Librarian Goodwin on his visit to Yoakum. They are to return today.

Miss Marian Hill is ill at Seton. Miss Jordt, a former student of the University, will be back in school next week.

The boys at the Numbers Mansion entertained Mr. Bob Moseley with a farewell smoking party.

Mr. Allison Russ will spend the week-end in Jefferson with Mr. Bob Moseley, who has withdrawn from the University.

Miss Nellie Robinson, who has been ill at the Austin Sanitarium, will return to the Woman's Building tonight.

The Phi Mu Sorority will entertain its patronesses next Tuesday afternoon with a reception at the chapter house.

Mr. Frank Tucker will spend a few days next week in Georgetown.

Mr. Dave Woodward of San Antonio has been visiting at the Phi Gamma Delta House.

Miss Boles, sister of John Love Boles, will visit friends in Austin soon.

"COTTONSEED MEAL AS FOOD" IS SUBJECT OF CHEM. CLUB LECTURE

Miss Anna E. Richardson, adjunct professor of Home Economics of the University, will address the Texas Chemical Club tonight on the subject, "Cottonseed Meal as Food." The speaker has studied research carried on in the laboratory of the School of Domestic Economy, has gathered a number of interesting facts concerning this well known and abundant commodity.

Miss Richardson spoke to the club last year on a similar problem concerning nutrition. The apparent scarcity of foodstuffs and the declaration of war has led to the more intensive study of the value of cottonseed meal as a food. The lecture promises to be of interest, and will be free to the public.

COLLEGE NOTES

Nathaniel Jacks, Editor
Harvey B. Henry, Associate.

Green Button Dine.

One hundred and fifty Freshman girls of Wisconsin University dined last week at the annual Green Button banquet of the Freshmen. Many stunts which had been practiced secretly were "pulled off." The dinner was followed by toasts and dancing. Every one attending had to wear a 1920 green button.

Credit Farmers.

The Missouri College of Agriculture has taken an action in favor of preparedness which is the first of its kind. The faculty has unanimously voted to allow all students to leave school at once if they desire to work on the farms in the State. Those who show that they are needed and who are of actual service will be given credit for the full year's college work.

Wireless Dismantled.

The wireless stations of the University of Syracuse, the University of Wisconsin, and nearly every large university in the United States are to be dismantled as a result of a recent order from the United States War Department.

Yale Museum Closes Down.

The Yale Peabody Museum, which for forty years has housed the famous Marsh collection of fossil remains, the Gibbs mineralogical collection, for which public spirited citizens and Yale students paid \$20,000 almost a hundred years ago that it might not go to the rival city of Hartford, and other collections of recent date, closed its doors to the public last week. The building is to be razed, and for the next two years visitors to Yale will have no opportunity of seeing the University's famous collections in natural history until the new Museum on Sage-Pearson plot is finished.

Large Registration.

The University of Illinois claims a total enrollment of 6828 students in all departments of the University, according to the registration at present. The largest department is the School of Liberal Arts and Sciences, which has 1776 matriculates.

"Jolly the fellow who is down today, Give him a smile for his sorrow, For this old world has a funny way And you may be down tomorrow." —Anon.

At Old Penn.

Reginald DeKoven, in a lecture recently at Pennsylvania, attacked the idea that there was such a thing as American music. Ragtime he characterized as "ineffectual grief."

Spring Football.

More than fifty candidates opened the spring football practice. Six Varsity men and three from other schools were among the candidates.

Aero Squad.

About forty men signed up for the aero squad at Purdue, and if indications bear out, Purdue will soon have a full squad, as by a recent ruling, Freshmen and Sophomores are eligible for this squadron. All those who have signed up so far are electrical engineers.

Regatta.

The women of the University of California will stage a regatta this month. The crew race between women will be the feature event.

"The Perfect Girl."

The following are the attributes of the perfect girl as seen through Harvard eyes, some fifty bachelor graduates having recently, and after considerable discussion, agreed on them for the "girl that's worth while:"

She is attractive, graceful and healthy, but not necessarily pretty. She can dress tastefully and entertain anyone and make him feel at ease.

She can make bread as well as fudge, and cake as well as "rarebit." Her dancing is not necessarily the latest, her tennis is not necessarily up to the standard, but she is appreciative of the dance and the sports.

She is broad-minded and sympathetic, tactful, unselfish, optimistic, thrifty, of good disposition, and moderate in all things, and can stand reverses without worry.

She is gentle to children, and kind to old people, especially to her parents.

She has a broad education, but not necessarily a college one.

She is modest and true and home-loving.

She has a good social standing, is of religious nature, and is not too

proud to pray.—Baltimore Sun.

But alas, and alack! here ain't no such. She is an angel.

EXAM APPLICATIONS BY SATY.

The extra examinations to remove conditions or postponed examinations which are given especially for students planning to attend the training camp at Leon Springs, must be applied for before noon Saturday. This

examination will include the "bust-outs" from last term, which would ordinarily have to wait until three months from the time of their examination.

Our Fountain Is at Your Service

We Cater Especially to University Students

GRAHAM'S

Ninth and Congress

Cornell University Medical College

IN THE CITY OF NEW YORK

Admits graduates of the University of Texas presenting the required Physics, Chemistry, and Biology.

Instruction by laboratory methods throughout the course. Small sections facilitate contact of student and instructor.

Graduate courses leading to A. M. and Ph.D. also offered under direction of the Graduate School of Cornell University

Applications for admission are preferably made not later than June. Next session opens September 27, 1917.

For information and catalogue, address

THE DEAN,

Cornell University Medical College,

Box 415

First Avenue and Twenty-eighth Street, New York, City.

Notice!

Whether you are going to buy a suit of clothes, a pair of shoes, a cold drink or a ticket to a moving picture show, always tell the man that you saw his advertisement in The Texan.

When you buy anything from anyone that does not advertise in The Texan, tell them that if you are to continue to buy from them that you shall expect them to advertise in The Texan.

A Most Attractive Figure

Redfern Corsets

A corset is so personal—so much a part of one's very self—that it should be most thoughtfully selected and fitted by a skillful fitter.

Redfern Models enhance figure beauty and correct figure defects.

You will appreciate the value of a Redfern Corset, and you will like the beauty of form and exquisite daintiness of the latest models.

CONVENIENCE

THIS IS JUST ONE OF THE WAYS
we have of giving you the most efficient service.

Have you ever stopped to think of the inconvenience you would have if the Co-op were located blocks away? Well, let's think of it a minute. Last week, when you were taking your mid-term exams, your fountain pen went dry four or five times each day. But you were not inconvenienced, because the Co-op is here for the purpose of keeping just such things as that from inconveniencing you. And you ran out of paper, perhaps, or forgot to buy your blue books ahead of time, or lost your blotter. But the Co-op was "just at the head of the stairs," so it did not matter.

We make it our business to prevent trouble from troubling you. We appreciate, in turn, your patronage.

Watch for our next ad. It will tell you something else you had not thought of.

AUSTIN, TEXAS

TEXAN ONE YEAR AGO TODAY.

Texas yesterday won the triangular track meet with Baylor and Southwestern, scoring 97 points out of a possible 126. Baylor managed to capture enough places to get 24 points, while the Methodists garnered 5 points. Berry of the Longhorns heaved the shotput 42 feet 11 inches. Outside of the large score, the meet was featureless.

The School of Geology will hold its annual excursion to Granite Mountain for the Freshman class Saturday, April 29, leaving at 7 a. m. and returning about 6:30 p. m.

The University rifle team will compete with A. & M. College for the championship Saturday, April 29. The team will consist of George Merrill, Charley Turner, and W. E. Brown.

Announcement has been made that Editor Howard of the 1916 Cactus will leave immediately for Kansas City, taking the final copy of this year's annual. Much of the work has already been done. Editor Howard expects to be gone some two or three weeks.

The new skating rink will open its doors tonight at 8 o'clock. Many students expect to enjoy this new recreation.

THE thirteen men awarded "T's" in baseball will meet at Jensen's in uniform at 2 o'clock for Cactus picture. W. J. Disch.
