March 1, 1948

Dr. Myra Keen  
Box 1563  
Stanford University, California

Dear Miss Keen:

Thank you for your letter of February 12. I am indeed through with these fossils and I am returning them by separate mail.

In consideration of your generous help, I have added a few specimens that might be of interest to the Stanford collections as a present.

With regards,

Sincerely yours,

H. B. Stenzel  
Geologist
