

## WHITAKER WARNS AGAINST TEXAS' OVERCONFIDENCE

ears Too Great Expectation of Winning Thanksgiving Game Will Demoralize Team

By Carl Swartz

Over-confidence on the part of the student body of the University threatens to seriously weaken the Longhorns' chances of winning their Thanksgiving Day football game at College Station against the Texas Aggies. This statement was made yesterday by Berry Whitaker, Texas' head coach.

Because Rice Institute, playing one of the best games of the team's history, held the Texas Aggies to a 7-7 tie last Friday afternoon, after the Longhorns had defeated the Owls, then playing a listless type of football, 56-0, two weeks before, the general view heard on the campus yesterday was that the Longhorns would have an easy time with the Aggies. This is the spirit that Coach Whitaker is combatting, in fear that it will be transferred to his team, and will be unable to send an eleven to the gridiron Thanksgiving Day.

Team May Be Affected

"The student body's overconfidence threatens to be reflected in the team Thanksgiving Day," said the coach. "If that happens, we would be threatened with a repetition of 1915. In that year a team that the student body was over-confident over went down to College Station and was defeated 13-0."

"The psychology of winning figures 60 per cent in the game. For example, Rice came here not expecting to win. But they turned on the Aggies, and their great playing resulted. But this spirit to win is not over-confidence."

"If the student body continues to look in the terms of its present overconfidence, that overconfidence may be instilled into the team and they will not play a good game. If a team is ready for a game mentally, they can beat a team 30 to 1, but not without the proper attitude."

Robertson Out

Robertson, crack halfback, who has depended upon for most of the Longhorns' passing and kicking this season, will be out of the game, Coach Whitaker stated. This causes Whitaker to develop a new backfield combination which will have as much passing and kicking power as possible, in addition to its ability to run the ball.

Grady Watson, last year's all-weather quarterback, has returned to school, and is working out in the eleven. But "Rats" shows effects of being out of the game practically all season, and just how much can be expected from him is strictly an uncertain quantity. C. & M. begins its final session of practice before the Thanksgiving Day game Monday behind closed gates, a mystery reigns supreme over the field. One thing has leaked out, however, the fact that Coach Le is grooming a punter for the game who has consistently outplayed Sammy Sanders in this phase of the game and who is "some shucks" as a halfback, to put it in Farmer's vocabulary.

## MATH SOCIETY TO MEET

Mathematical games of different types will be played at a meeting of the Texas Mathematical Society held at the home of Miss Goldie Ton, 504 West 32nd Street, Tuesday evening at 7:30.

## SOCIAL CALENDAR

**November 18**  
Pre-Meds at the Elks Club.  
Newman Club at Newman Hall.

**November 19**  
Menorah Society at the Driskill Hotel.  
Beaumont Club at the Cactus Room.  
Acacia at Elks' Hall.

## Athletic Council Votes to Pay for Band Trip to Game

By vote of the athletic council at a meeting last night, it was decided that the council would pay railroad fare and admission into the Longhorn-Aggie game on Thanksgiving Day for sixty members of the Longhorn Band. It also was decided that in the future a committee from the band would meet with a committee from the Council to reach an agreement on the amount of expenses to be paid by the council.

The council voted to construct a fence on the east side of Clark Field, and also voted to meet in the office of Mr. Hart on the Friday morning after Thanksgiving Day for the purpose of awarding letters.

Nine members of the athletic council were present at last night's session.

## Hay House Hounds Deal Dogs' Defeat To Hash Hounds

Fighting a desperate game, the Bien Venido Chili Hounds, from the Hay Mansion, 2010 Wichita Street, dealt defeat to the football aggregation from Harrell's Hash House, 2005 Wichita Street, by the tune of 7-0, the game being one of the prettiest that has been seen on Jordan Field this season.

The chili experts used the forward pass with great effect, making their touchdown and most of their gains by that method. Cole, Kelly, Funchess, Cummins and Sutherland were the shining lights in the line for the Hounds.

The losers, finding that they did not have enough men, consulted neighboring boarding houses and finally got ten men together.

The Dogs came near scoring several times but lost out on account of costly penalties. They gained much yardage through the line. Randle, umpire and left end for the Hounds, suffered a broken collar bone in testimony of the roughness of the game. Other injuries were minor.

## EX-STUDENTS PLAN TO AID STATE EDUCATION

Ex-Students' Association Endeavors to Place University in Hands of Governing Board

Plans of the Ex-Students' Association for the next two years, according to Mr. Alfred Ellison, treasurer, will be to seek to relieve the University and other state educational institutions that are "suffering because of conditions that prevent their growth and development along with the growth and development of Texas." The ex-students intend to exert every effort to secure the submission of constitutional amendments which will give governing boards authority needed to properly conduct the University.

The subscribers to the endowment fund of the Ex-Students' Association accomplished a great work by establishing a students' loan fund "as a memorial to the dead and maimed sons of the University of Texas, who sacrificed life or limb on the altar of our country's defense." By means of this fund sixty-six University students during the past year have been given financial aid without which they would not have been able to attend the University. These loans to students have particularly interested the Ex-Students' Association and will continue to receive the attention and support of its members.

## SIMKINS IMPROVING

Colonel Simkins of the Law Department who for the past two weeks has been confined to his bed with a severe case of pneumonia is reported to be slowly improving, but as yet it is impossible to state definitely when he will be able to resume work with his classes. Dr. Butte and Prof. Rhea have been meeting his classes.

## LOCHRIDGE RETURNS HOME FROM TAYLOR HOSPITAL

Business Manager Is Improving Rapidly—Will Not Resume Work for a While

Last Sunday night, I. P. Lochridge, the University business manager, arrived in Austin from Taylor, where he had been confined in a hospital. He was removed to his home, 2500 University Avenue. Ever since the automobile accident, some three weeks ago, in which he received internal injuries, Mr. Lochridge has been undergoing treatment at an infirmary in Taylor.

According to Mrs. Lochridge, his wife, Mr. Lochridge is recuperating rapidly since his homecoming. He is allowed to sit up a little but, however, remains in bed most of the time.

As to when he will be able to resume his duties, nothing definite can be said because it takes time alone to heal an internal injury. If Mr. Lochridge keeps on regaining his strength and vitality, his wife believes that his complete recovery is just a short way off.

## Gilmore to Address Journalism Classes On Texas Libel Laws

Choosing as his subject "Libel Laws of Texas," Hon. Clarence E. Gilmore, attorney for the Texas Press Association, formerly editor of the Wills Point Chronicle, and Railway Commissioner for Texas, will address students in journalism 12 and journalism 16, and other journalism students, Saturday, November 19, at 10 o'clock in M. B. 7.

As attorney for the Press Association, Mr. Gilmore has made a special study of the libel laws, and he has been instrumental in framing and passage of recent measures favorable to Texas newspapers.

W. H. Mayes, professor of journalism urges that the students in the department of journalism attend the lecture.

## AUTUMN PLANTING IS BEGUN ABOUT CAMPUS

Fall planting on the University is in full swing. H. B. Beck, supervisor of grounds, and his staff of gardeners are making new flower beds and setting out trees. Two large canna beds are being dug between the Woman's Building and the Library.

The dirt taken from the beds is being used to fill up the adjacent paths which have been cut across the grass. A hedge is being planted at the base of the shack on Speedway to conceal their unsightly foundations.

East of K Hall there is a new rose garden. "We have always had lots of roses," Mr. Beck stated, "but we hope to get a better effect by massing them here together in one bed."

Mr. Beck is getting the green-house ready for the winter season. The giant queen's crown which covered the entire roof has been cut back to admit more sunshine. The hyacinths and other bulbs are up and the sweet peas are ten or twelve inches high. In addition there are geraniums and ferns for winter cutting. Flowers for all offices are supplied by the greenhouse during the winter.

## Democratic League Chooses National Officers for Year

At the recent national convention of the Young American's Democratic League held in the law auditorium of this University, the officers for the next year were elected. Due to the fact that the results had not then been definitely determined, the names of these officers were not published at the time when the other business at the meeting was made public.

The list of some of the principals now follows: M. J. Pickering of Pennsylvania, president; Frank E. Carstaphen, New York, first vice president; H. B. Jewett, Texas, second vice president; Miss Hallye B. Fought, Texas, corresponding secretary; Mrs. R. McKinney, Texas, recording secretary; Hamilton Beazley, Texas, treasurer; Rolland Bradley, Texas, chairman of research committee. The other names have not yet been given out.

## Vagaries of Studies Show In Directory

Release of the students' directory has revealed many interesting and strange facts concerning the student body.

The Smith family leads the list in numbers present, having forty-two. Following them are the Williams family with thirty-four, the Jones with thirty, Johnson with twenty-six, Harris twenty-two, and many others having fewer numbers.

Among the cities represented, Austin leads with 791 students. Dallas follows with 178, San Antonio 149, Fort Worth 127, and Houston 102.

Many Nations Represented  
Many states have contributed students, and several countries are represented. Mexico has sent seventeen, whereas Honduras, China, Serbia, Venezuela, and New Zealand have each given one.

There are students whose names assume every shape, form and fashion. For the Fishers there is a Lake, a Pond and a Poole in which they can catch Bass and Trout.

For the Hunters there are Cranes, Crows, Martins, a Stark, a Polly and a Broussard.

Variety of Colors  
Colors are in abundance with Green, Brown, White, Gray and Black, predominating.

For the lovers there is plenty of Love, and they have Parks, Lanes and Woods for their pleasure.

Among the nobility at the University are Kings, Nobles, Dukes, and a Prince.

And while there is only one Street several Rhodes are about the campus.

## SUPPORT OF COLLEGES ENLISTED BY AMATEUR ATHLETIC ORGANIZATION

Officials Are Making Big Effort to Firmly Establish Organization in This State

Officials of the Amateur Athletic Union are making every effort to firmly establish their organization, the recognized leader in amateur athletics in this country, in the Southwest. Realizing the huge part played in the athletic activities of this section by the universities and colleges, the A. A. U. authorities have been working hard to enlist the sympathy and support of the various State higher institutions of learning. Texas University is one of the several universities to enroll as a member of the A. A. U.

Dallas Gets Water Meet  
Dallas has long been awake to the fact that competitive sports, properly supervised, constitute one of the greatest assets a city may have. Dallas citizens are determined that their city shall be the A. A. U. center of the Southwest. Already, the A. A. U. swimming meet for the Southern states has been secured by Dallas for 1922. During the past year the Dallas aquatic team created a stir in sporting circles by its splendid showing at the A. A. U. meet held in New Orleans.

Want Basketball Tourney

Just now, the Dallas enthusiasts are engaged in trying to bring the A. A. U. basketball tourney for the Southern district to Dallas. Such an attraction would draw to Dallas basketball quintets from many cities and universities. In all probability, practically every member of the Southwestern Conference would send its five to the big contests. The winner of the Dallas elimination tournament would be eligible to appear in the National A. A. U. tournament.

Should the A. A. U. become firmly established in this section, the athletic interests of the University of Texas, and of all other schools of the Southwest would, it is said, be immeasurably benefitted. The annual meets, held for many branches of sports, would place the athletes of this section in competition with the best time stars. And it would, doubtless, be possible before many years had elapsed to bring the A. A. U. National Championship Track and Field Meet to some enterprising Texas City.

## GRADUATE OFFICERS ARE ELECTED FOR SESSION

Richardson, von Koenneritz, and Ramsey Chosen—Other Plans Are Made

Completing arrangements for a permanent organization of graduate students, a meeting was held Tuesday afternoon in Room 158, Main Building. O. R. Strackbein of Rock Springs last year's president presided. The following officers were elected: Rupert N. Richardson of Abilene, president, Helena Von Koenneritz of Austin, vice-president, and Nena Kate Ramsey of Abilene, secretary-treasurer.

A social committee will be appointed for the purpose of planning an entertainment to be given this term.

To all graduates the appeal was made by the retiring president to make the graduate organization lively and wide-awake.

## Degrees Conferred On Second Day of Masons' Fall Meet

Conferring of degrees from the seventeenth to the twenty-third, inclusive, was the program for Tuesday, the second day of the Scottish Rite fall reunion. In the large number of candidates who are taking part in the ceremonials are the following University faculty members and students: J. B. Heedler, A. L. O'Bannon, B. C. Thorp, L. P. Powell, Clayton Heare, T. B. Coopwood, E. L. Park, W. H. Young, Gordon Halley, Burnett Pharr, D. P. Bailey, R. C. Ballard and C. D. Gipson.

A barbecue is being planned for next Thursday, to be held on the site of the new Masonic dormitory now being constructed. Only members of the Scottish Rite are invited.

## PLACE OF Y.W.C.A. ON CAMPUS IS EXPLAINED

"What place does the Young Women's Christian Association have on the campus? Of what value is it to be an active member of the Association? How far is the membership committee responsible for friendship on the campus? What is the particular duty of this group?" These questions were asked by Miss Josephine Budd in her talk to the girls of the membership committee of the Y. W. C. A., Tuesday afternoon at 5 o'clock.

In answering these questions, Miss Budd stated that the Y. W. C. A. stands for practical Christianity as expressed in the spirit of democracy and friendliness in all college life. She explained that the duty of the membership committee is to recruit girls, develop leadership, help crystallize public opinion, and lead students into definite church affiliations.

This work is carried on in religious channels by means of varied programs presented every Monday afternoon at 5 o'clock, and by Bible classes and discussion groups. Teas, campus mixers, freshman parties, and friendship days are held in a social way and the junior and senior cabinets make themselves responsible for meeting new girls who have not taken any part in school activities. Leadership is developed by giving the girls responsible positions, and practical social service work.

## Geologists to Go to Washington in Boundary Dispute

Dr. E. H. Sellards and Dr. R. H. Hill left last Friday for Washington to give their testimony as geologists concerning the Texas-Oklahoma boundary case. They will repeat the evidence given here before the United States Commissioner F. Tyler, who will also hear the case at Washington.

The disputed territory covers several million acres. The purpose of the case is to define the original boundary between Texas and Oklahoma, as set forth in the treaty. Attorney General Cureton, representing Texas, went with Dr. Sellards and Dr. Hill.

Dr. Sellards, with his family, will perhaps be gone for the rest of the month.

## Large Number to Try-out In State Debate Contests

Drawing for places for the coming debate on the State question was held in the Auditorium of the Law Building Tuesday evening. It is the largest number of entrants that have ever gone out for the State debate. A total of ninety-seven will be in the preliminaries, which is thirty-seven larger than any preceding number. First preliminaries are to be held in the Law Building on the 29th of this month. Total prizes to be given amount to \$250.00.

## Dashing Hero of Frosh Gets Sorely Scared

Scare a freshman and you have achieved the utmost height of fright. All upperclassmen know this to be a fact, especially if they ever had the privilege to stand in the background and watching one when he is frightened. Last night a bold young freshman ventured forth for a stroll on the campus after all other stragglers had dropped by the wayside or gone to their respective places of abode.

A thorough survey of the campus was made by the victim in question and as he crossed between H Hall and the J Shack, an ashy paleness crossed his young and naive face. He saw a dead man, right by the window in a bed. He only stopped when he was safely under the covers.

This morning he was determined as all other knowing freshmen, to discover the identity of the corpse. He ventured into H Hall. He peered into the open door and lo! There was his "dead man."

He was pale and his face was shaven, and there he lay cold and stiff. He crept closer and looked over the bed, he jumped back for it was the dummy of the H. E. Department.

The freshmen departed, shamefully rebuking himself for his cowardice of the night before.

## LEGIONNAIRES REVIEW NATIONAL CONVENTION

Members Thank Longhorn Band for Services on Armistice Day

Last night's meeting of the American Legion was featured mainly by a recounting of the occurrences and proceedings of the Convention at Kansas City. According to the lowest estimates there were some 75,000 former service men in attendance. The convention was attended by the leading military and naval officers of most of the allied countries, among whom were Marshall Foch, General Diaz, Baron Jacques and Admiral Beatty. Each of these men made speeches that were received with much enthusiasm. Marshall Foch spoke in a clear cut manner in his native tongue and was well received. He wound up his speech by the assertion: "As for me, I shall always count it the highest honor of my life that I led upon the road to victory the American army in 1918 with the aid of their chief."

New Orleans was selected to be the next convention city, with San Francisco as a close competitor. The convention adopted a unanimous decision to make every effort to have Congress act upon the question of adjusted compensation without further delay. This compensation calls for a money dispensation to all World War veterans of \$1 for every day spent upon American soil and \$1.25 for every day spent upon foreign soil.

By a unanimous vote of all members present the Legion passed a vote of thanks to the Longhorn Band for the willingness and patriotism with which they aided the Legion in staging the Armistice Day Parade.

The next regular meeting of the University Post of the American Legion will be on the second Thursday night in December.

## DEAN OF WOMEN WILL ORGANIZE STUDENT BOARD

New Body to Co-operate With Students' Association—Members From All Groups

By Katherine Shaw

Miss Lucy J. Newton, dean of women, was the speaker at a meeting of a representative board of women of the University, held Tuesday evening in the Girls' Study Hall. The board is composed of some fifty girls, one being chosen from each dormitory, boarding house and sorority.

In the plan outlined by Miss Newton, a woman's organization will be instituted on the campus for the management and administration of women's affairs. At present there is no effective organization of this kind. The organization will work in unison with the Students' Association. Miss Newton stressed the dying out of tradition among the women students, and the great necessity and importance of unity. Such an organization will restore and pass on democratic ideals and social equality.

Purposes Outlined  
Its purposes, as suggested by Miss Newton, are threefold:

1. "To further in every way the spirit of unity among the women of the University."
2. "To increase their sense of responsibility toward each other."
3. "To be the medium through which social standards may be placed high and kept high."

Must Kill Clique Spirit  
Miss Newton emphasized the need of some factor which will kill out the clique spirit in the University, and encourage the spirit of fraternalism.

Talks were made by Etta Gilbert, president of W. A. A., Elizabeth Eby, president of freshman girls; Birdie Grant, president of the Y. W. C. A.; Nelle Collins, president of Cap and Gown; and Blossom Wooten, chairman of the woman's council, in which they, as representatives of their respective organizations, echoed the suggestions of Miss Newton.

Definite Plans Later  
Definite plans will be worked out this week, put before the groups of girls in the different houses for discussion, and will be put into working order next week. This organization marks a new mile post in the history of student government in the University.

## Interest In Cactus Contest Is Greater as Close Approaches

The last week of the Cactus popularity contest finds the greatest interest manifested. The standing of the candidates has been changed by the recent voting. The standing today is:

Emily Nalle, 79,250; Martha Rivers, 78,250; Ruth McCelvey, 59,300; Dave Maude Cummins, 54,200; Margaret Kelly, 50,400; Etta Bain, 36,000; Luci Bell Snyder, 34,300; Kathryn Anderson, 33,500; Evelyn Barnwell, 29,300; Lucille Franklow, 17,050; Ann Hamilton, 15,900; Helen Bass, 9,600; Mildred Chambers, 8,600; Lavonia Baker, 7,500.

The final count of the contest will begin at six o'clock on Saturday, November 19th at the University Co-op. All parties interested are invited to be present.

The count will be made by three disinterested faculty members whose names will not be divulged until after the contest closes. This insures absolute fairness to all of the candidates concerned and will insure the correct counting of all of the votes.

Any club, honorary fraternity, or other organization whose picture appears in the Cactus may obtain votes by paying the management the price of the page and picture. The pictures of such organizations cannot be made until a later date but the votes from them can be secured by paying the money in advance as stated above.

## DEBATING

Largely because of interscholastic league training the number of candidates for places on the debating teams is growing rapidly from year to year. Before long to be a Varsity debater probably will be as high an honor as to make a letter on most of the athletic teams; particularly since debating gives ample room for individual initiative, provides benefits which accrue to the individual himself, furnishes trips to other colleges for successful candidates, and offers substantial cash prizes for the ranking four men. All this is as it should be, since, under the modern system of higher education, debating ought to be encouraged.

The value of debating does not come in training participants to think clearly. As a matter of fact, it is extremely doubtful if it really does lead to clear, unbiased thinking. A proposition is first laid down; then it is proved—a complete reversal of the true reasoning process. Consequently there develops a tendency to emphasize facts which point in the desired direction and to ignore all others, a tendency that may be carried into fields other than debating although the proceeding is one which hardly conduces to accuracy in reasoning. Science, it is true, lays down hypotheses which it attempts to prove; but a scientific hypothesis which is altered in conformity to further factual discoveries differs radically from a debating question which is to be proved or disproved as originally stated, regardless of new information. The difficulty is not done away with by having the debaters prepare both sides of the question. This simply adds a touch of humor to the situation. Truth frequently is a compromise between the original proposition and its negative, so that much of the debaters' effort necessarily is placed on an attempt to prove something that actually cannot be proved. Even where one side of the question is true, half of the debaters' work must be wasted in an attempt to find proof that an untruth is true, since it is quite obvious that a proposition and its negative cannot both be true at the same time. In other words, the fallacy of debating is that it follows the old sophistic doctrine which makes the end of debating, not finding truth, but victory.

Evidently, then, the value of debating is to be sought elsewhere, and it is to be found in the contribution made to that new kind of training which students now expect to find in colleges. Debaters certainly develop ease in public speaking, they develop a spirit of give and take, they learn how to organize their material; all of which are contributions either to efficiency in making a living or to so-

called culture or social poise, the chief ends of present day collegiate training. The value of debating, therefore, rises or falls with the value of the system of which it is a part; and the value of that system can be proved only by time.

## BUTCHERING THE KING'S ENGLISH

Last week a foreigner prominent in diplomatic affairs, had occasion to remark that even those Americans who profess the most intelligence fail to speak the English language with any marked degree of correctness. One's first thought is to pass by the remark as being hypercritical. But on reflection and consideration of the statement in view of conditions at the University, it can be seen that there is much truth in what he said.

It is beyond the scope of this article to discuss the prevalence of slang on the campus. Instead of deserving the severe "panning" that some of our elders think, this can be upheld because it lends a touch of local color to the collegian's vocabulary. But anyone who frequents a few of the favorite student haunts is a witness to a murder of the English language. Grammatical errors are made in abundance by people who profess to be educated and who are attempting seriously to convey that impression. Scarcely less offensive and much in evidence is the over-use of expressions such as "awfully nice," have got, and similar phrases many of which are no longer actually considered poor grammar, but all of which are either trite, meaningless, or bad form. The offense in both instances is probably due to habit rather than a lack of knowledge as to what is correct and what is not.

This is not intended to be a homily of grammar. But, in the language of the Bible, what profit it a man if upon leaving the University he takes with him a complete knowledge of foreign languages, anatomy, football, and fussing, if he cannot speak the English language correctly? —Michigan Daily.

## Speakers' Club

Meeting last night, the Speakers' Club gave the following program:

"The Past Policy of the U. S. Regarding Immigration"—by Reynold Martin.

"The Present Policy of the U. S. Regarding Immigration"—by C. R. Smith.

"Permanent Policy of Immigration"—by Albert Nash.

Andrew Patton, a freshman, was elected critic. Places for members of the club on the coming debate of the state question were announced.

## Athenaeum

Taking for his subject the reform of B. Hall, John C. Young discussed B. Hall as a campus institution from the standpoint of a freshman, at the regular meeting of the Athenaeum Literary Society last night.

The rest of the program was devoted to a discussion of Far Eastern problems as they relate to the disarmament conference. Ed. Gossett spoke on "War With Japan" propaganda. In a debate on the subject: Resolved, That all the powers should give up their interests in China, William B. Carr and E. J. Walker representing the negative won the decision over Lloyd N. Rutledge and B. E. Shanblum representing the affirmative.

Harry McCleary of Waco, Charles Bannister of Corsicana, and Harry Foerher of Elgin were elected to membership in the society.

## Hogg

Hogg Debating Club met Tuesday night with constitutional revision as the main feature of the program. Interest was manifested by all members, discussing the vital questions which naturally arose in this revision.

After the closing of the constitutional discussion reports of various committees were given, the most important one being given by Mr. Nelson, which resulted in a change of the meeting place to the cabinet room of the Y. M. C. A. Building.

## CHAPEL NOTICE

At chapel this morning, Mr. George will speak on Persia. Mr. George is a native of Persia, and is at present a student in the Presbyterian Seminary in Austin.

## THIS WEEK

## Today

Turtle Club, Y. M. C. A. pool, 7:00-8:00 p. m.

Longhorn Band, men's gym, 5:00 p. m., for marching practice.

Student Volunteer Band, Library Room, Y. M. C. A., 5:00 p. m.

Kappa Delta Pi, Ed. Building 118, 7:30 p. m.

Membership Committee of Miss Decherd's class, M. E. Church, 8:00 p. m.

Sidney Lanier, M. B. 204, 5:00 p. m.

Reed Music Society, S. Hall, 5:00 p. m.

## Thursday

Public Reading by J. Frank Dobie from the poems of Alan Seeger and Rupert Brooke, M. B. 218, 5:00 p. m.

Brownwood Club, M. B. 158, 5:00 p. m.

Masonic Study Club, Ed. B. 312, 7:00 p. m.

Pre-Med Society, Chapel of Y. M. C. A., 7:30 p. m.

Daniel Fund Committee, Methodist Church, 7:30-8:00 p. m., instead of on Thanksgiving night. Collectors and members notice.

Longhorn Band, men's gym, 7:15 p. m., to play for rally.

Phi Sigma Chi, R. Hall, 5:00 p. m.

Tertulia rally, 1108 Guadalupe, 7:00 p. m.

Home Economic Club, 5:00 o'clock, H. E. Building 16.

## Friday

Pennybacker Debating Club, M. B. 142, 5:00 p. m.

## Sunday

Initiated men in Phi Lambda Epsilon, 2708 Nueces, 11 a. m.

## OFFICIAL NOTICES

TERM REPORTS: The addressing of fall term reports to parents will begin in a few days. The regulations provide that "Self-supporting students over 21 years of age may receive their reports instead of their parents, if they request it in writing." All such requests should be made not later than December 1.

REGISTRAR.

FOREIGN LANGUAGE examinations to satisfy requirements will be held November 18 and 19 from 3:00 to 5:00 p. m.: Spanish, M. B. 218; French, M. B. 205; German, M. B. 208; Greek and Latin, Ed. B. 303. Those who expect to take the examinations should hand in their names by November 17 to chairman of committee.

J. O. LOFBERG,  
Chairman.

#### Counts-Harris

Announcement has been received of the wedding on November 21 in Albuquerque, New Mexico, of Miss Anne Harris to Captain Jerry Counts, Corps of Engineers, U. S. Army, of Los Angeles, California.

Miss Harris received her B. A. degree from the University of Texas in June 1920 and was a member of the Kappa Kappa Gamma sorority.

#### Theater Tea

The members of Delta Delta Delta were entertained by their pledges with a Majestic party on Saturday, November 12th. After the theater tea was served in the Mecca Tea room where very effective decorations were obtained by the use of palms and the colors of the sorority, blue, gold and white. The guests of honor were Miss Lucy Newton, Mrs. M. Keys and Mrs. Price.

#### McCabe Mansion Dance

McCabe Mansion entertained with dance for twenty couples at theactus Tea Room Saturday night. Theaperones were Dr. and Mrs. W. T. ether and Mrs. D. B. Emmons.

#### Journalistic Tea

Theta Sigma Phi, honorary journalistic fraternity, will entertain the students of the School of Journalism tea from 5:00 until 6:00 this afternoon at the Delta Delta Delta use, 2402 University Avenue.

The girls at Mrs. Stelfox, at 2009 Hitis Avenue, entertained Justine ra with a birthday dinner on November the 13th. A color scheme

of lavender and pink was carried out in the table decorations. The guests were offered a novelty entertainment in the form of songs and games.

Kathryn Anderson spent the week end in Galveston.

Delta Tau Delta announces the pledging of Robert Harris of Cleburne.

Oscar Powell and H. Tyman have returned from a hunting trip along the Colorado River.

Nona Turner has returned from a week end trip to her home in Taylor.

Jack Ball of San Antonio, a former student of the University, is in Austin for the Scottish Rite reunion. He is a guest at the Acacia house.

Lieutenant Hillyer and Sessions of Kelly Field were the guests of Bob Castleman for the week end.

Etta Barber will spend the next week end at Lockhart.

John Stilly of De Leon, of the class of 1921, was a visitor here Monday.

Eno Murrah of Georgetown visited Frances Weathersbee over the week end.

John Lockhart has returned to his home in Galveston, after a few days visit in Austin where he has been a

guest at the Phi Gamma Delta house.

Pi Kappa Alpha announces the pledging of Clyde Harvell of Robstown, Texas.

Grace Nimon is ill.

Marion Legg, who received her B. S. degree here last June and is now teaching in the Brackenridge high school in San Antonio, spent the week end at her home in Austin.

Hardy Neel has returned from a week end visit to San Marcos.

Mattie B. Craig of Navasota is a guest at the Pi Beta Phi house.

Nina Woodall spent the week end at her home in Hillsboro.

Robert Bingham of Chicago is visiting at the Delta Theta Phi house.

H. E. Snow and S. P. Gerling have returned from San Antonio where they attended the reunion of the 90th Division.

Genevieve Cullen will spend the next week end in San Antonio.

Miss Jo Ownsby of Bartlett, an ex-student of the University, spent the week end in Austin.

Estelle Craver has returned from San Antonio where she spent the 11th of November.

Miss Thelma Linnartz of San Antonio is visiting with Mary McMillan.

Hester Brite and Eleanor King are spent the week end in San Antonio.

Phi Kappa Psi gave an informal dance at the Country Club on Saturday night in honor of its pledges.

#### INSTRUCTORS ADDRESS FEDERATION OF CLUBS

Dr. J. L. Henderson of the Education Department, Miss Mary Gearing and Miss Edythe Hershey of the Economics Department, are in Fort Worth, attending the 24th annual convention of the Texas Federation of Women's Clubs, which meets this week from November 14 to 20.

Miss Gearing is chairman of the finance and public health committees. She will preside at the first meeting which will be held at 9:00 a. m. in the Cactus Room of the Texas Hotel. Dr. Henderson will give several addresses to the Federation, and Miss Hershey will speak on the "Business of Home Making."

About three hundred delegates are expected to attend the convention. They will be elaborately entertained with lectures, luncheons, and dinners. The business session will end on Friday, and Miss Gearing is expected home on Saturday.

Connelly's Austin Floral Co.,  
722 Congress, Phone 8261.

#### THEY ARE GOING NOW

And because we know they will go speedily, we make this special appeal to those who know our policies and values best to take advantage of this final showing and selling of these exceptional dresses in fabrics and fashions for winter wearing.

### SNAMAN'S

Ladies' Exclusive Clothier and Milliner

# Everything for QUALITY— nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigaretty aftertaste.

Camels are made for men who think for themselves.

## Oliver B. Shallenberger

IT IS ONE THING to produce a new idea that is simply of theoretical interest. It is another to make the new idea into a commercial success.

This is the story of Oliver B. Shallenberger, and how in 1888 he discovered the principle that led him to invent the watt-hour meter, the familiar little device that makes practicable the commercial distribution of alternating current, which means 95% of all the electricity that is distributed.

Shallenberger, who resigned a Naval commission to take up his work with Westinghouse, made his discovery while experimenting with a newly devised alternating current lamp. His attention was attracted by the behavior of a small spring which had fallen upon the main magnet of the lamp, into such a position that the forces proceeding from both the magnet coil and the extended soft iron core affected it. And the simple little thing that he noticed was merely that the spring was slowly rotating! But to the intelligently curious observer, that was enough.

Further experiments having satisfied him that the action was caused by alternating

electric currents, he set to work, encouraged by his knowledge of Westinghouse policies, to make practical the newly found principle. Three weeks of almost uninterrupted toil, and he had produced the first practical alternating current meter of the induction type—the universal type of the present time.

Thus for the first time the measurement of the quantity of alternating current passing through a line was made commercially practicable and its distribution became possible from an economic as well as an engineering point of view. In fact, the whole structure of our great power systems depends upon the accurate measurement, by millions of such meters, of the electricity used in the homes and industries of the nation. So well was Shallenberger's work done, and so complete was his conception of the possibilities of his discovery, that for more than thirty years his fundamental idea has been in use in many and various forms.

The encouragement which Westinghouse has always given to new ideas, and the judgment with which they have been evaluated, are nowhere better exemplified than in this story of the alternating current meter.

Shallenberger's Meter—1888

Single-Phase Meter—1921

## GILSTRAP CONTINUES TO LEAD CONFERENCE IN POINTS SCORED

Gardere Holds Second Place—Three Texas and One Baylor Man Tie for Third Place

Bully Gilstrap, Longhorn backfield man, continues to lead in point scoring by Southwestern Conference players by virtue of his two touchdowns against the Mississippi Aggies last week. His total number of touchdowns now rests at 8, with his total number of points 48.

Gardere, substitute quarterback for the Longhorns, is in second place in point scoring, with a total of 31. McCallum, Hemsell and Domingues, of Texas, and Bradshaw of Baylor, are tied for third place with a total of 30 points each. "Bugs" Morris, Texas A. & M. quarterback, is next with 25 points.

The standing among the first fifteen men follows:

Player, team	T	G-T	F-G	T1
Gilstrap, Texas	8	0	0	48
Gardere, Texas	4	7	0	31
McCallum, Texas	5	0	0	30
Hemsell, Texas	5	0	0	30
Domingues, Texas	5	0	0	30
Bradshaw, Baylor	3	0	4	30
Morris, A. & M.	2	7	2	24
Kennedy, Rice	4	0	0	24
Tanner, Baylor	4	0	0	24
Elam, Texas	4	0	0	24
Moore, Texas	0	22	0	22
Smith, Ark.	3	0	0	18
Williamson, Baylor	3	0	0	18
Chambers, Rice	2	5	0	17
Weathers, Baylor	0	13	1	16

T—Touchdown; G-T—goal from touchdown; F-G—field goal; T1—Total.

Points made by other Texas players that are not listed in the standing are: Townsend 7, Robertson 7, Coit 6, Pena 6, Tynes 6, Hamilton 6, Burns 6, Brown 6, Luhn 6, Stacy 1.

## INTRAMURAL CROSS COUNTRY

Intramural cross country runners continue to practice hard in preparation for the intramural cross country which will be held about a week after Thanksgiving.

The intramural run was first set for November 14, but many departments declared that their runners could not get into the best of trim by that time, so the intramural athletic council voted to postpone the event until the week following Thanksgiving.

Each department may enter as many runners as it desires.

## ST. EDWARD'S COLLEGE TO CLASH WITH FROSH

Longhorns Will Rest for Thanksgiving Classic—Captain of Frosh Is Injured

With Varsity not scheduled to play a game this week, Coach Littlefield's freshman team will furnish the Clark Field football contest Saturday afternoon, meeting St. Edward's College at 3 o'clock.

St. Edward's has developed a strong football eleven and expects to put up a hard fight against the freshmen. The college bunch defeated Allen Academy 20 to 9, San Marcos Baptist Academy 27 to 0, and held Daniel Baker to a scoreless tie. The freshmen have not been defeated this season and have not been scored upon.

Blue Smith, freshman captain and halfback, and Nelson, tackle, will not be in the game Saturday afternoon. These men suffered bruised ankles in the Shorthorn game last week.

Marshall College will come here on Thanksgiving Day for a game with the freshmen.

This game was arranged in order that those who will be unable to go to College Station may witness a football game on that date, and also for the benefit of the business people of the city who will not be able to see the A. & M. struggle. Reports from the Texas A. & M. game will be received at Clark Field at the end of each quarter.

## PRE-MED DANCE

Urging the necessity of procuring their tickets for the Pre-Med hop scheduled for Friday night at the Elks' Hall, Jacob T. Bennett, president of the society states that every pre-med who expects to attend the dance should make early arrangements because the sales would close in a short time.

## Pre-Meds Play Frosh Today in Intramural Football at Three

Pre-Med football warriors will make their first appearance Thursday afternoon at 3:00 o'clock in an intramural game against the freshman eleven last week's 2-0 winners over the sophomore team.

The Pre-Med team has been practicing hard in order to get into trim for the intramural session and promises stiff opposition for the first year aggregation.

The final intramural football game of the season will be played Wednesday of next week between the Engineers, last week's conquerors of the Laws, and the winner of Thursday afternoon's contest.

OH! OH! CINDY!

Lots of fun, lots of amusing situations, and many pretty girls contribute to make the musical fantasy "Oh! Oh! Cindy" to be presented Thursday and Friday nights, November 17 and 18, at the junior high school, one of the best home talent productions to be shown in Austin this season. This musical review will have a cast of 150, with Mrs. Martyn Elliott, well known Austin blackface entertainer, and Miss Emma Hubbard, instructor in dramatic arts at St. Mary's Academy in the leading roles.

The plot of the production is the fanciful story of a chorus girl who tires of her theater life and desires to try the secrets of life a la Robinson Crusoe. Through the mystic power of her fairy godmother she finds herself and company on a desert island.

They meet up with Crusoe with Friday and Saturday and find that they are not contented because of the rivalry of Friday and Saturday over the hand of the cannibal queen. The whole troupe decides to leave for the Land of Heart's Desire.

In this place the chorus girl languishes under her daily shopping tour and other members of the party become dissatisfied. When things come to a miserable head, the spell is sud-

denly broken and the entire cast find themselves in the theater ready to begin the night's performance.

The play is being produced by John B. Rogers Production Company, under the auspices of the Knights of Columbus. Splendid illumination effects, gorgeous costumes, and wonderful settings are said to mark the production.

## Hancock

Royal Scotch Highlanders Band with Roy D. Smith conducting opened their three days engagement at the Hancock with a matinee performance of an excellent program of popular and classic Scotch selections. The renditions were well received by the audience.

With the Highlanders Band were six other act and vaudeville novelties: the Rosand Duo in Roman Rings and Gymnastics, Harold Stockton in Whistling solos, Geo. Feborgh with Xylophone soloist, the Holoways with their bicycles and wire acts, Babbie Broilier, Scotch Tenor, and the Delamade Troupe, Living Statuary.

## NEW EXTENSION ASSISTANT

Mrs. F. M. Stewart, nee Dulin, has been appointed assistant in the package loan library of the Extension Bureau. Mrs. Stewart will have charge of the Interscholastic League material and of general reference work. Last year she was librarian at the Sul Rose Normal at Alpine, and before that was assistant reference librarian in the University Library.

## CONSOLATION PRIZE TO BE AWARDED TO LOSERS

Participants in the All-University tennis tournament, which is to begin tomorrow on the Varsity courts, who are so unfortunate as to be eliminated in the first round will still be eligible to compete for a handsome prize.

In addition to giving trophies, well worth striving for, to the winner and the runner-up of the tournament who are able to survive the strenuous rounds of competition, Will T. Caswell, a local tennis "shark" has announced his intention of awarding a worth-while trophy to the winner of the consolation rounds. All players who lose their first match will be eligible to compete for the consolation prize.

## It is Free To you this week

This 10-Day Tube of Pepsodent. Present the coupon to the dealer named below.

Make this delightful test. Watch the quick effects—see the change in a week. Then you will realize what this new way means to you and yours.

Each use of Pepsodent multiplies the salivary flow. That is Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acids.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay.

Five important effects come from every application. And modern authorities deem all of them essential.

## Not for women only

The most conspicuous effect is glistening teeth. Countless women employ it largely on that account. Few things add so much to beauty.

But men also want white teeth. Men who smoke find that teeth discolor quickly, due to stains in the film.

Pepsodent means more than this, however. It means cleaner, safer teeth. Children need it even more than others. Their teeth are easily attacked, and very few escape. Dentists advise that Pepsodent be used every day from the time the first tooth appears.

To all it means a new conception of clean, well-protected teeth.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

This test will prove a delightful revelation. To you and yours it may bring life-long benefits. Every day you wait may mean new damage. Cut out the coupon now. Present it this week.

# A Surprise Tonight

If you will try this way to prettier teeth

This test will surprise and delight you. The results are so quick, so pleasing, so conspicuous.

Millions have already made it. The glistening teeth seen everywhere now show some benefits it brings.

Go get this free tube from the dealer named. Use it and watch the effects. It will open up to you and yours a new era in teeth cleaning.

## Why prettier teeth?

This method brings whiter, prettier teeth because it fights the film. Your teeth are now covered with a viscous coat. Feel it with your tongue. It clings to teeth, enters crevices and stays.

Old brushing methods do not remove it all. Enough remains to make the teeth both dingy and unsafe.

That is why teeth look cloudy. The film-coats absorb stains. Film also causes most tooth troubles. And, under old methods, all those troubles have been constantly increasing.

## How film ruins teeth

Film dims the teeth's luster. It also forms the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Many other serious troubles, local and internal, are now traced to them.

Countless people find that teeth brushed daily still discolor and decay. The main reason lies in that film.

## Now we daily fight it

Dental science, after long research, has found ways to fight that film. Able authorities have proved their efficiency. Now leading dentists everywhere advise their daily use.

These methods are combined in a modern dentifrice called Pepsodent. Millions now employ it, largely by dental advice. The use is fast spreading the world over among those who know.

That is the tooth paste we ask you to try. Watch its effects on the film. See how your teeth improve. Then let your own good sense decide between old methods and the new.

## Three other essentials

Modern science also requires three other effects from a tooth paste. The old methods did not bring them. Pepsodent brings them all.
