

UNIVERSITY OF CALIFORNIA

MUSEUM OF VERTEBRATE ZOOLOGY
BERKELEY, CALIFORNIA

August 15, 1946

Dear Dr. Stenzel —

So far as I can discover, the dept. of Paleont. is still not settled (probably you know more than I about it.) I have not been working there for some time — though I have a little to finish for Graham. He has taken a job ^(Aug. Sept) at Texas A+M! He says he had an offer from Tulane as well, but thought A+M better.

I am busy with a variety of things: Zip-a-tone distributions maps for MVZ; an outline map of Baja California for a man in L.A.; marine algae drawings for Papenfuss; Umbellifer drawings for Dr. Constance; and protozoan drawings for Kirby.

We have coffee afternoons here in the Museum but they lack the effervescence of old Economical Geology. However, I welcome a break as I work from 8 AM to 7 PM these days.

Best regards to my friend Yetsie and the rest of your family.

Sincerely,

Lip C. Taylor
