

NEW RULING WILL ENLARGE NUMBERS IN UNIV. S. A. T. C.

Colonel Applewhite Announces Change to Be Effective at Once.

REQUIREMENTS ALTERED

Consideration Will Be Given High School Applicants With Insufficient Units to Enter.

An important change in the War Department's program as to the induction of men in the collegiate sections of the Students' Army Training Corps at the University of Texas and other educational institutions throughout the country has just been announced by Lieut. Col. H. LaF. Applewhite, U. S. A. retired, chief military inspector of the Students' Army Training Corps for this district, with headquarters at the University. Under the new ruling the number of men in the Students' Army Training Corps here will probably be greatly increased. The telegram making the change came from the Committee on Education and Special Training of the War Department. It says, in part: "In view of the fact that existing educational requirements have prevented the induction of men in the collegiate sections of the S. A. T. C. to authorized strength, and pending completion of new system for recruiting these sections the Committee on Education directs that institutions in which the present number of inducted men is less than the authorized quota may certify for the induction of such students who do not have the prescribed number of units, but who are the head of the institution and the commanding officer jointly believe to be competent to pursue one of the programs prescribed."

The telegram further says that due consideration should be given to such high school training as applicants have had, also to vocational and business experience, to previous military training and to such personal qualifications as are relevant to the making of an officer.

LIEUTENANT JOHNSON WRITES INTERESTING ACCOUNT OF BATTLE

Miss Hazel Edwards, a student of the University of Texas, has just received a letter from Second Lieutenant William Johnson of Abilene, who was a member of the '18 law class of the University, now serving in France. Lieutenant Johnson has been through some of the stirring fighting that has been going on there since early in September. In his letter to Miss Edwards he says that on September 14 his company alone handled 3200 German prisoners in one day.

NEW DIRECTORY OUT SOON

List of Students and Faculty Nearly Ready for Distribution.

All the material from the University for the Students' Directory is ready. The Medical Department at Galveston has not yet sent in its material; it is not known when it will be in. As yet the War Department has not sent in its instructions which may change the schedule considerably. The time of the publication of the Students' Directory, therefore, is very uncertain.

The Students' Directory gives the name, home address and phone number, location of office, and business hours of the professors; also the name, address, and phone number of the students.

NOTICE.

All men enrolled in the Junior S. A. T. C. Company who wish to do so, will report on the east side of "G" Hall, Monday, Nov. 4, at 3:15 p. m. V. W. STEWART, Lt. Inf., U. S. A., Company Commander.

RENEWED INTEREST TO BE MANIFESTED ON ELECTION DATE

Not Yet Too Late to Secure Places on Official Ballot.

With the opening of the University Monday, it is expected that interest in the coming election (which was due to be held the Tuesday following the day on which school closed) will be much more manifested, because students will have returned, and, too, many of the places are contested. Especially is this true of the President's race. There are two out for this place who are Reagan R. Huffman of Marlin and Robin M. Pate of Austin.

Wesley W. Brown, acting president of the Students' Association, states that it is not too late to secure a place on the official ballot, and that anyone is free to hand in his or her petition asking for a place. He further states that next Wednesday at noon will be the last day to get your name on the official ballot.

No one has yet announced for Junior Assemblyman from the Engineering Department. Also a Law Councilman is needed before the ballot will be complete. But anyone has the privilege to come out for the other offices which already has someone in the race if he so desires.

DR. GUTSCH BUSY PREPARING WAR HISTORY OF TEXAS

Will Have a Record of Every Texas Man Who Enters the Service.

EACH COUNTY TO ASSIST

Every Organization in the State to Be a Part of University Collection.

It is stated by Milton R. Gutsch, associate professor of medieval history of the University of Texas, who has charge of the work of collecting material for the history of this State in the war, that his plans are of the widest possible scope.

When the war history is finished it will embrace a complete record of every Texas man who was in military service. This record will give the name of the man, the date of his entry into the army, his rank if a commissioned or non-commissioned officer, the branch and unit of service to which he was attached, the various places that he was stationed, the battles in which he fought, the wounds, if any, that he received, and the length of time that he was in service.

As a means of gathering this data organizations will be formed in each county, Mr. Gutsch said. The Councils of Defense of the State and counties will also be asked to render all possible aid in making up this history.

A complete record of these Councils of Defense, the Food Administration, Red Cross, Y. M. C. A., Knights of Columbus, Salvation Army and various other organizations whose work related to the war will be gathered and made a part of the University of Texas collection.

Mr. Gutsch is preparing to begin this work immediately, the Board of Regents of the University at its recent meeting having made an appropriation of \$12,500 for carrying out the program.

MRS. D. A. FRANK DEAD

Wife of Prominent Alumnus Victim of Pneumonia—Was Buried in Dallas.

Many of the University people were greatly bereaved to learn of the death in St. Louis of Mrs. D. A. Frank, wife of one of the most loyal alumni of this institution.

Mrs. Frank was a daughter of the late Judge N. W. Finley of Dallas, and was born in Tyler, Texas, coming to Dallas with her parents when she was a child. She remained there until she went to St. Louis a few years ago. She is survived by her husband, three children, her mother, two sisters and one brother.

TWENTY-THREE INDUCTED INTO MARINE SECTION OF S. A. T. C.

Twenty-three men were inducted into the Marine Branch of the S. A. T. C. of the University, Friday morning. They were installed the same night in their barracks. Their training will be along the lines of Marine Corps regulations, while they pursue at the same time, their academic studies.

There will be, as in the other branches of the S. A. T. C. ten hours of drilling per week, and informal talks and lectures on Marine Corps life and duties.

The men who were inducted Friday were: Sam Acheson, Norman Anderson, George R. Brown, Theron H. Browne, Wesley W. Brown, Lester C. Brenizer,

Wendell M. Cox, Jarome I. Cronwell, Sterling W. Fisher, Robert V. Fite, Jess R. Freeman, John R. Gieckler, George Greene, Martin J. Hancock, Lawrence E. Hamilton, Charles H. Lester, Edward D. Miller, John Pendergrass, Hatcher A. Pickens, Finis E. Pyeatt, Frank B. Seale, Martin B. Winfrey, Joseph Edison R. Worthington.

It is not probable that these men will be called before December, and most likely not till January. The school for field officers of the Marine branch of the service is at Quantico, Virginia, and for the aviation section of the Marine branch, the men will be sent to the ground school at Boston Tech.

REGULATIONS FOR FALL TERM WORK.

At a meeting of the Executive Committee of the faculty, on October 30, the following resolutions were adopted, and copies are being sent to each member of the faculty:

1. That the fall term's work of the University shall be regarded and credited as a full term's work.
2. That classes shall be kept at the ordinary rate of work, and that no extra assignments shall be made, nor unusual amounts of work for any assignment be given.
3. That each teacher shall carefully go over the matter of his courses, and select from important points as many as can be covered in the remainder of the term at the ordinary rate of work.

Very cordially yours,
ROBERT ERNEST VINSON,
President.

American Officer Praises Bravery Of Americans at Fighting Front

President Vinson is in receipt of an interesting letter from Captain Miley B. Wesson of the Army Medical Corps stationed at an evacuated hospital in France. Captain Wesson graduated at the University in the class of '02. He was a prominent physician of Fort Worth at the time he entered military service. His letter, in part, is as follows:

"I used to think I would never get tired of doing surgery, but after standing at a table for twelve hours a day, day after day during a push, a man gets fed up on it.

"The Americans are the real thing as soldiers—they know how to fight like men and die like men and there is never a whimper. It makes a man proud of being an American. The men about here are not leaving the work to the young chaps for most of

my medical professors from Hopkins and my New York hospital attendants are located about me.

"Rank bothers nobody. I was recommended for my majority months ago and it may come through in a few years. Everything is represented here, a captain came down yesterday who is a mess officer in the line—a Harvard instructor at home.

"A Texas doctor passed through my hands (i. e., over my operating table) yesterday, who stripped off his insignia and went over with a raiding party to catch some Bosche prisoners. He got it through both legs. All he is interested in is getting well as quick as possible, so as to get back before the 'fun' is over with. These boys act like a lot of com punchers rounding up jack rabbits in the panhandle of Texas."

CAMP QUARANTINE LIFTED

S. A. T. C. Given Freedom From Supper to 11:15 Tonight. Guards Must Stay.

Orders were issued yesterday allowing men in the S. A. T. C., Collegiate Section "A" to be absent from camp without a pass from supper until 11:15 tonight. This means that all men in the camp will be free during that period, with the exception of those who are detailed for guard duty at that time and those who may be held in camp for disciplinary reasons.

LONGHORNS PLAY REAM FLYING FIELD TODAY

Game Called at 3:45 on Clark Field—Students' Army Training Corps to March Out in Formation and Must Not Break Quarantine at Game—Will Be First Game They Have Witnessed Varsity Play Since the "Flu" Began.

REGENTS APPROVE UNIVERSITY BUDGET

Appropriate \$12,500 for War Collection—Provide Scholarships for French Girls.

At the regular fall meeting of the board of regents on October 22, the budget that had been prepared and submitted for approval was revised somewhat and approved as revised. The changes were made necessary by conditions arising out of the war which had caused changes in the faculty and work in certain departments.

The board approved an appropriation of \$12,500 for the collection of material relative to the part Texas is taking in the great war and for the accumulation of general war material for the University library. Milton R. Gutsch, adjunct professor of medieval history, will be in charge of this work.

The board made preparation for the opening of a library training school at the University, beginning next September. The demand for a library training school in connection with the University library is indicated by inquiries coming to librarians throughout the State and by dozens of letters received by the University library.

The board made an appropriation for scholarship for three French girls to be sent here by the French Government for an education along American lines by the University.

Members present were Chairman Fred Cook, San Antonio; R. E. Brents, Sherman; J. A. Kemp, Wichita Falls; C. E. Kelley, El Paso, and W. H. Daugherty, Gainesville. F. W. Graff acted as secretary.

RAILROAD WILL BE RUN TO PENN FIELD FOR RADIO USAGE

School Will Move From Engineering Building Soon.

In order to afford a railroad transportation outlet for the new Radio Artillery School which the University of Texas will open soon at Penn Field, just south of Austin, a spur track connecting with the International and Great Northern Railroad is to be constructed.

This line will be about 5,500 feet long. The survey has been made and construction work will soon be started. The new brick barracks and other buildings at Penn Field are nearing completion and the removal of the Radio School from the Engineering Building at the University to its new location is rapidly being completed.

E. J. MATHEWS MADE NEW INSPECTOR OF DISTRICT S. A. T. C.

Will Cover Arizona, New Mexico, Oklahoma and Texas.

E. J. Mathews, registrar of the University of Texas, is one of the inspectors of S. A. T. C. units of the different educational institutions in this district, which comprises the states of Texas, Oklahoma, New Mexico and Arizona.

Mr. Mathews' duties will take him away from the University a considerable part of his time. During the periods of his absence from the University Miss Anna Belle May will act as registrar of that institution.

VISITORS TO COME HERE IN AIRPLANES

Four All-American Men on the Team—Considered Strongest Army Team in State—Every Player An Officer.

This afternoon the Varsity Longhorns will again appear before the public in a regular game with the fast fliers from Ream Flying Field at Houston. The clash will occur on Clark Field at 3:45 and all S. A. T. C. students will march there in formation and not break their quarantine at the game.

This will be the first time that the S. A. T. C. men have seen the wearers of the Orange and White since the horned frogs from Fort Worth were defeated here by a 19 to 0 score on September 28. Since that time no games have been played on account of the influenza quarantine, though two practice clashes have occurred with the Radio team, each resulting in a Varsity victory by scores of 25 to 0 and 22 to 7, respectively.

Forty Varsity football men have been practicing daily throughout the quarantine period and Coach Juneau has a squad of well trained fighters that will compare favorably with nearly all of Varsity's former representatives. A versatile and fast back field together with a stonewall line are assets of which any Texas coach may well be proud.

Ream Field Flyers are generally regarded as the strongest army team in the state. Their lineup includes four all-American players as well as a number of other stars. Every man is a flying officer in the aviation branch and the whole team is expected to fly to Austin for the game. Two weeks ago Rice Institute was defeated 7 to 0, while on last Saturday Texas A. and M. managed to luck a victory by a score of 6 to 0. This last game was played in the rain with eight minute quarters.

For Texas a number of good backfield men are striving hard to win the coveted football letter. Among those who will probably get into action today are: W. B. Ferguson of Waxahachie at quarterback; Joe Ellis, halfback; Alvarro McCallum of Austin, halfback; Louis Smyth of Dallas, fullback; Ben Brown of Austin, quarterback; Frank Mason of Marshall, halfback; Tom Dennis, fullback; J. M. Pendergrass, halfback; and George McCullough of Waco, quarter and halfback.

Ghent Graves letter man from last year will be in uniform again today but may not get into the game on account of injuries received in practice. Louis Smyth is the only other letter man in the backfield, although Ferguson and McCullough are veterans from last year's squad. Ellis, McCallum, Mason, Brown, Dennis, and Pendergrass are all freshmen this year.

The linemen are easier to pick than the backs, although none of them have yet cinched their places. Swenson seems to be the leading candidate for center although, Roquemore, Carrol Smith and Schwegman of San Antonio are all showing up well in scrimmage. All four of these men are freshmen. Joe Spence of Dallas and Tom Newman of Garland will start the game at guard with John Hunter and William Ellis and several others to substitute. Big Bib Falk of Austin and Dave Pena are opening big holes at tackle. Addison, Marshall, Smith and Christian are other linemen who will probably be used.

C. L. Brewer of Fort Worth, formerly coach of Missouri University and one of the best informed men on football matters in the whole Missouri Valley Conference has been secured to referee today's game.

The city and University authorities as well as the University physicians

OUR CONSOLATION.

The latest and we suppose the final announcement of the University authorities is that University work will be resumed again on Monday morning, exactly twenty-five days since the order of closing went into force. During that time many if not most of the students and faculty have had the Spanish Influenza and several have had pneumonia. The crisis is now over with only one fatality.

The University class work for the year is entirely disorganized, several classes having never met, and others had barely started during the first week of school. Unprecedented work on the part of students and faculty members will be necessary if any of the fall term's work is completed by Christmas. It is to be hoped that the faculty will ameliorate this condition of affairs by changing the requirements of mid-term examinations and in other ways recognize the changed conditions.

But the one consolation for the loss of time, and general disruption of the whole University, is that the Students' Army Training Corps has had a chance to find itself, and not a day's time of the enforced vacation has been wasted by those directing the activities and training of these men. Practically every man in the post has mastered all of close order drill without rifles, the post organization is completed, the men are completely supplied with their regulation outfits, and the whole machine is running smoothly.

Forty-eight men have already been sent out of the S. A. T. C. to various officers' training schools and many others are soon to go on their way. Every man in camp has been classified according to his age, his years in college, previous military training and present capabilities, and all future selections of men for the officers' schools promise to be on a fair and systematic basis of efficiency.

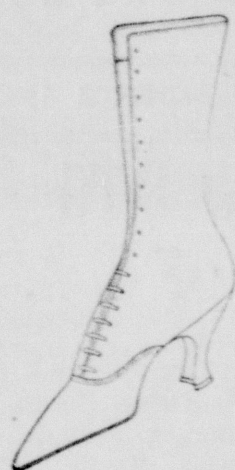

We are proud to be a cog in the National S. A. T. C. machine, and we point with pride to its organization and believe we are not in error when we make the claim of having the best S. A. T. C. in this district.

OUT TO WIN.

As never before there seems to be more of a spirit among the students of determination to get somewhere and achieve something. This manifests itself in every activity and phase of college life. Every man in the S. A. T. C. knows that it is up to him to do his best and be recommended for an opportunity to earn his commission. They have gone after their military drill, details and other duties with a good spirit and they are now going after their school work in the same fashion.

Nearly every girl in school has some definite aim in her stay here this year. Many expect to go actively into Red Cross, War Camp Community Service or other war activity work as soon as school is out. Nearly all are planning to fit themselves into the win the war program of this country. Many are training themselves to take the place of men in business and industries of the nation.

The boys not in the S. A. T. C. realize that they are expected to fill as far as possible the places made vacant by the departure of so many of our young men to foreign fields. They are grimly working to do their best to keep the home fires burning. The faculty members are doing all they can to boost the war activities, liberty loan campaigns, Red Cross and other patriotic enterprises, and at the same time are keeping up the standards and efficiency of the University itself, and this with over forty percent of the instructing staff in the service.

UNANIMOUS GIVING FOR UNIVERSAL SERVICE.

At the request of President Wilson, seven recognized agencies of War Service have united in a great campaign to be waged during the week of Nov. 11-18. Great obstacles had to be overcome in order to make this unified program possible. Prejudice, jealousy, narrowness and greed threatened to make this united drive impossible. But far-sighted leaders saw the advantages and the

program has been carried through.

Surely no arguments need be given here for supporting these good works with our dollars. We have all been close enough to army camps to know from personal experience of the invaluable services rendered by the Y. M. C. A., Y. W. C. A., National Catholic War Council K. of C., Jewish Welfare Board, War Camp Community Service, American Library Association and the Salvation Army. The only consideration should be how much we shall give. Originally the budget asked for and approved by the War Department was \$170,500,000. But with the prospect of peace within a few months and the consequent greater problems which will come with the taking care of the idle armies of the allied nations it will be necessary to ask for a fifty per cent oversubscription, or nearly two hundred million dollars, according to a telegram just received from John R. Mott, director general of the campaign. This decision was arrived at after a conference of campaign directors with military and state authorities at Washington.

The local organization is rapidly being perfected and will no doubt announce its plans for carrying on the subscription within the next few days. The cause is just, the need is clear and our duty is plain. Let us not fail to measure up to what is expected of us.

LAST ISSUE OF TEXAS MUNICIPALITIES HAS INTERESTING STORIES

The current number of Texas Municipalities, of which Albert A. Long, secretary of the Bureau of Municipal Research of the University of Texas, is editor, contains a number of articles that are of special interest to the authorities of the cities and towns in this State. This bi-monthly magazine is published by the League of Texas Municipalities. Among the contents of the last number is an article on "A Municipal Lily Pond," by W. L. Delery, park engineer of San Antonio, dealing specially with a description of the lily pond and Japanese garden in Brackenridge Park. Municipal notes on the different cities and towns in the State are also given.

HILL-McFARLAND.

Miss Lola McFarland and Captain Joe M. Hill were married on October 24 at Ladonia, Texas. Only the immediate relatives and a few friends were present at the wedding, which occurred at the home of the bride's sister. Mrs. Hill is a graduate of the Texas Christian University.

Captain Hill is the son of Mr. W. R. Hill of Wolfe City. He received degrees from both academic and law departments of the University in the class of 1916. He was commissioned first lieutenant at the second officers' training camp at Leon Springs, and received his captaincy at Camp Dix, N. J. Before entering the service Captain Hill was connected with the legal department of the M. K. & T. railway, with headquarters at Muskogee, Okla.

Captain and Mrs. Hill left immediately for Boston, where Captain Hill is now stationed.

Miss Alice Scheiblich, a student in the School of Journalism last year, is now on the staff of The Waco News-Tribune.

UNIVERSITY MAN HONORED.

"Stars and Stripes" published the following poem recently about Theodore Jones, of Dallas, for three years a student of the University, and who entered the first training camp at Leon Springs. Jones was a member of the Phi Kappa Psi fraternity here, the Speaker's Club, and served one year on the Y. M. C. A. Cabinet.

THE PRAYER OF THE THIRD PLATOON.

The Third Platoon is a good one,
And we thanked our lucky stars
That we had the best little lieutenant
Who ever put on the bars.

The bars were of gold when he joined us,
But he was so game and so bold
That the high command saw he earned it,
And traded him silver for gold.

He was smaller than most of the small ones,
And 'tis true he looked pretty young
But he showed his worth and his valor
Wherefore his praises are sung.

He was with us when we were rookies,
He trained us to do squads right,
And later, in this strange country,
He led us into the fight.

He was with us on post in the trenches
He led the battalion patrol;
Charged with us across the Ourcq
When we made the Boche hunt his hole.

He came the first Sunday of August
To bid the platoon goodbye,
And said, "Men, 'tis other duties."
And there was something like a tear in his eye.

Of course, we are all down-hearted,
For we loved our Jonesie well,
And as long as he was with us,
We would have chased the Boche through hell.

But we've fought quite a bit for our country—
Some gave all a soldier owns—
And now we don't ask for much, dear colonel,
But please, sir, send us our Teddy Jones.
Third Platoon, Company L.— Inf.
(Pvt. I. D. B.)

PETE SEZ.

Pete sez he got a box from home,
Filled to the top with things.
An' ever since he stops an' looks
At every box they brings.

Pete sez his maw knows what he liked
An' give him home-made fare,
But Pete sez hit can't be beat,
He'd bet that anywhere.

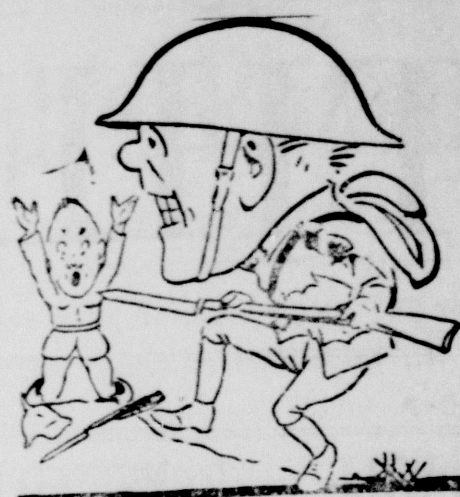

She give him cake, the kind he liked;
An' a glass plumb full of jelly—
Pete sez hit liked to make him sick,
He felt funny in his—stomach!

Pete sez give him so much fare
Hits hard to tell hit all,
Pete sez he'd et hit all at once,
But he never had the gall.

He sez he likes the army mess,
Hits good for soldier fare;
But Pete sez hit takes his maw
To come up to his air.

She seasons things just right, Pete sez
To make a feller eat;
She knows jest how to do the stunt
That fills him up complete.

—William Russell Clark.

SMITH & WILCOX
616 CONGRESS AVENUE

COAST ARTILLERY OPEN

S. A. T. C., Civilians, and Enlisted Men May Apply—Many Officers Wanted.

Men in the S. A. T. C., together with civilians of any draft classification and enlisted men in any branch of the service may now make application for admission into the coast artillery training schools, for the purpose of receiving the necessary instruction preliminary to a commission in the Coast Artillery Corps.

A large number of men is needed to meet the demands made by the increased army program of four million men in France by July 1, 1919. All guns above six-inch caliber, all howitzers, large trench mortars, and the anti-aircraft guns are handled by this branch of the service.

Any man subject to draft, no matter what his age or classification, can apply for voluntary induction with the object of trying for a commission in the heavy artillery. Men in Class 1 who are so inducted and fail to make good for a commission, are retained in the military service as enlisted men. Men in deferred classifications on account of dependent relatives, who fail to obtain a commission are returned to civil life.

Officers in the heavy artillery must possess the qualities of personality and leadership necessary for an officer in any branch of the service. In addition they must possess the educational requirements that will enable them to place the fire of their batteries on German forts, ammunition dumps, and railroad bridges after they get their commissions and receive instructions in their duties. They should have a knowledge of algebra, geometry and plane trigonometry, and should be familiar with the use of logarithms. The candidate who has once studied these subjects will be given ample opportunity to go over them again at

the school, and especially in their application to problems of gunnery and orientation.

No commission is guaranteed the candidate at the school. Whether or not he obtains one is dependent, directly and only, on the work he does. Every effort is made to give to each candidate sufficient instruction to enable him to qualify for a commission. No candidate will get a commission unless he has convinced his instructors by his work that he will make good use of it in helping to lick the Huns. In other words, each man gets as much as he gives.

POLICY OF SCHOOL
WORK FOR MEN OF
S. A. T. C. STATED

Men Twenty Years of Age
Here One Term—Others
Longer.

The general plan for the Students' Army Training Corps is that men twenty years of age and over will be in the University one term; those nineteen, two terms; and those eighteen, three terms.

The government has prescribed a special program of study for men twenty years and over for the current term, it being the plan to transfer these men elsewhere at the end of the term.

Men preparing to become officers in the infantry, field artillery, and heavy (coast artillery will take the following subjects:

Surveying and map making, Prof. Bantel; military law and practice, Judge Townes and Prof. Cofer; sanitation and hygiene, Dr. Hartman; war aims; one course elective; military instruction, 11 hours per week.

Men preparing for air service have the following schedule:

Map reading and navigation, Prof. Ettlinger.

Military Law and Practice.

War Aims.

Physics I.

One course elective.

Military instruction, 11 hours per week.

A third group change is the pre-medical students in the S. A. T. C. The freshmen pre-meds have been re-registered. They will complete Zoology I in the fall and winter terms by taking an extra lecture and laboratory period a week. In the spring term, they will begin Physics I and continue it through the summer term. Other courses are Chemistry I and 107, English I and War Aims, given just as normally.

The government has not prescribed special work for those in the Marine or Naval service.

FOUR MEN SENT TO CAMP

Successful Candidates Assigned to
Coast Artillery Officers' School.
Men From Mabry Also Sent.

Four additional Varsity men have been sent to training camp during the influenza quarantine. The successful candidates were selected by a board of officers from a number who applied. They were ordered to report to the Coast Artillery Officers' Training School, Fort Monroe, Va. The successful ones were:

Will A. Andrews, Gaius G. Gannon, Cecil R. Chambrelain, and Robert F. Kerzee.

These men went with a similar group from Camp Mabry, in charge of one of the Camp Mabry men.

AIRPLANE PHOTOS
NOVEL FEATURE
OF NEXT CACTUS

Views From Sky Made by San Antonio Fliers. Real Birds-eye Views.

One of the most novel features of this year's Cactus will be the photographs recently taken from airplanes over the city of Austin. This original feature, conceived by Ed Angly, editor, and carried out through the cooperation of President Vinson, Major Channing, and Lieut. James O'Donnell, officer in charge of photography at Kelley Field, will add an unusual interest to a year book that already promises to be a monumental achievement of original ideas.

Several views were made of the University Campus as well as all of the military schools of the University. Pictures of Lake Austin were also snapped.

The airplane equipped with a regular war camera, similar to that used in photographing German trenches, together with a complete photographing outfit, came over from San Antonio last week. Several motor lorries equipped as up-to-date photographic laboratories on wheels accompanied the plane, and the pictures were made and finished with as much despatch as in actual service conditions.

The regular views of the campus have also been made and finished. They will furnish the very artistic pictorial record of the campus which is a regular annual feature of the book.

FIRING LINE

B. C. Warlick, of Dallas, who was business manager of the Texan last year, and who went to the training camp in June of this year, was sent across within six weeks after he left his home for the camp. He is with the A. E. F. 159th Infantry, Company F. A recent letter tells of his newspaper work in France:

"I left the trenches just two days before my company, with others, made the late drive which took them to success. I was not with them when they went over the top. I was brought to Paris and am now with the 'Stars and Stripes,' the American paper published here.

"Being with the newspaper men, I feel very much at home. Am having a great time. There are many wonderful sights in Paris; have not been here long enough to see much, but shall do so, I think.

"I am studying the language, making splendid progress, can talk with natives now and hope in a short time to qualify for an interpreter. I am doing well and so ask that you not worry about me.

"Things appear now like the fight will soon be over, so I may get to eat Christmas dinner at home.

"You do not write me often enough. Write oftener and longer letters. Tell me everything about Dallas and home folks."

AMERICAN CONSULAR SERVICE

Blufields, Nicaragua

October 1, 1918

Editor of The Daily Texan.

Dear Sir: Please find enclosed \$3 to apply on subscription to The Daily Texan. Please start me out with the first issue and if \$3 is not enough, let me know and I will send more.

What is the matter with the Alcalde? I noticed a few days ago in The Statesman that some one suggests reviving it, and I want to say that I think this should be done by all means. The Alumni and ex-students association are losing the greatest opportunity we have ever had for knitting a closer union; for getting in the habit of keeping in touch with each other. It is such an interesting epoch to live in: so many big things are taking place in the world: a time when people forget themselves to think of others. I do so wish I could know how it goes with every alumnus and ex-student of dear old Texas U. Some have already made the supreme sacrifice. The death of Lieutenant Creator, I notice, pales to silver the seventeenth star in our service flag. We have two thousand other stars in our banner of patriotism. Wouldn't you like to know where each one is and how he is getting along? I would. We know that every one is doing his level best to overthrow the rule of might that right may reign, but this only increases our interest in each other. Let's revive the Alcalde.

Perhaps the Texan staff knows that I am in the Consular Service and that I am stationed at Blufields, Nicaragua. But I am in the war, too, don't mistake that. I am helping to wield the economic arm. I am helping to drive the stench of Kultur out of Nicaragua, and I am getting this side of this wonderfully rich country pretty well cleaned out, too.

With best wishes to all and success to our boys "over there."

Truly yours,

JOHN O. SANDERS,

A. B., 1916.

Captain E. H. McLeod of Palestine, who was a former student of the University of Texas, graduating at the medical department in the class of '98, is now serving in the Army Medical Corps in France. Dr. McLeod in a letter to Mr. and Mrs. G. H. Turner of Palestine describes some interesting experiences that he has met with in the fighting zone. He says:

"I am commanding officer of a field hospital, which takes care of 260 patients, sometimes as many as 500 or

LONGHORNS PLAY REAM FLYING FIELD TODAY

(Continued from Page 1.)

have allowed the Athletic Council to hold this game as they believe that there will be no danger from influenza to those who attend.

The teams will line up as follows:

King	Right End	Finnegan
Falk	Right Tackle	Emerson
Spence	Right Guard	Metcalf
Swenson	Center	Valentine
Neuman	Left Guard	Mooney
Pena	Left Tackle	Winant
Hill	Left End	Parmlee
Ferguson	Quarterback	Vincent
McCallum	Left Halfback	Lees
Joe Ellis	Right Halfback	Penland
Smyth	Full Back	Grimes

Lieut. Sheffield is manager of the team from Ream Field.

600 at a time. I have five captains and lieutenants and 83 enlisted men, such as sergeants, corporals and privates, under me. I am responsible for the care and treatment and feeding of all the patients and personnel of my hospital. We also have certain military duties to perform and I have to act as instructor in that; so you can imagine how much time I have. But I like it, and wouldn't be out of it for anything in the world. I think the young man who misses the opportunity to help win this war has missed the biggest thing we will ever have.

"I wish I could tell you where I am, but of course I am not allowed to on account of the censor, but I can tell you this much; I am in what is called the zone of advance, which means I am at the front—can hear the gun fire all the time, and see it some of the time. They get pretty close to us sometimes, and then we have to move. A field hospital is only a short distance back from the line, and we are the first hospital to which patients are brought after being wounded.

"France is a great country, but not as great as America. Of course, no country is as great as America, and the nice thing about it is the French are beginning to think that way, too. They tell you frankly that the United States saved France, and for my part I am glad we have, as otherwise we would have had to fight Germany later, and it is far better to fight them here than in our own country.

"I have enjoyed my time over here and have seen some wonderful things which I will tell you when I return home, which we hope won't be long now, as we notice in the French papers that Bulgaria is ready to quit, and we should be able to get home in six months after peace is declared."

First Lieut. J. J. Goodfellow, a former student here, was shot down by five Boche planes, according to a letter received by his parents from Capt. M. H. Lewis, a field artillery officer who witnessed his death. In his letter he describes the fight as follows:

"I saw Pilot John J. Goodfellow of San Angelo, Texas, and his observer, Elliott Durand of Chicago, killed the other day and had them buried. About five Boche planes shot them down. I have a list of their personal property which I took from them and am turning over the effects to be sent back to their folks. I would have sent a list if I was sure of their whereabouts so they would know what their boys had on when killed."

WANTED—Good quality slightly worn three-piece woolen suit (size 36 coat, 32 or 33 pants), overcoat, silk shirts, etc. Advise Al Williams, P. O. Box 111, Capitol Station.

LOST.—Gold Sigma Chi key with H. J. Ettlinger, U. of T. 1918 inscribed on back. Reward. Phone 4591.

SEE our new line of suitings, clothing made to your measure. Hooverize and bring your old suit; have it cleaned, pressed, repaired, or altered (no delivery). 1610 Lavaca St. The University Shop.

If you want the best pipe that can be made, you can get it in a W D C—up to \$6. If you want the best genuine French Briar that as little as 75 cents will buy, you can get it in a W D C. American made, in all sizes and styles, and sold at the best shops.

No man ever had a better pipe than this one. Carefully selected genuine French Briar, a sterling ring and vulcanite bit, hand fitted and finished by an expert.
