Dr. R. Soyer, Geologie  
61, Rue de Buffon, Museum National  
D'Histoire Naturelle  
Paris V<sup>e</sup>, France

Dear Doctor Soyer:

Thank you very much for your letter of January 6 and the enclosed tire-d-part concerning the "Sables d'Auteuil" which is very welcome. I hope you will honor me with copies of your publications when they appear.

If you could be so kind as to send me a list of French geologists and paleontologists interested in my publications, with their exact addresses, I would be glad to send them my publications. I have no way of finding their addresses. Particularly, I would appreciate the address of J. Morellet.

With best regards,

Sincerely yours,

H. B. STENZEL  
Professor of Geology
