June 10, 1966

Dear Mr. President:

I thought you might want these copies of photographs of the surface of the moon taken by the Surveyor I spacecraft.

These and other photographs will be distributed to the scientific community of the world in the hope that they will contribute to our combined knowledge of the lunar surface.

I have the strong feeling that if we are wise and earnest, what is happening in outer space can help us live better together on earth.

Sincerely,

His Excellency
Antonin Novotny
President of the Czechoslovak
Socialist Republic
Prague
