Dr. C. Gardley Moon
c/o Exploration Department
Humble Oil and Refining Company
P. O. Box 2180
Houston, Texas

Dear Gardley:

Ohio State University has asked me to give them names of persons who might be interested in teaching petroleum geology there. I am turning your name in, so possibly you will hear from Dr. Spieler, the head of the Geology Department. That university is one of the better ones and the department has much to recommend it. If you are still interested in going into the professional field the opportunity is excellent. I am prepared to give you considerable information concerning the place in case you are interested.

Best regards,

Sincerely yours,

H. B. STENZEL
Geologist
