Wednesday: Fair and much colder.

No. 98

HONOR SYSTEM OPTIONAL FOR INSTRUCTORS

Moore Says Some May
Prefer Former
Method

PENALTY ASSESSED

Committee Named to
Draft Substitute
System

"Supervision of examinations during the coming finals rests with the instructor," was the substance of the last report sent out by the faculty committee.

"It is possible," said Dean V. I. Moore, "that some of the faculty members will continue under the old honor system. Others will probably resort to personal supervision."

Under the present ruling, cases of dishonesty will be tried before a committee composed of members of the faculty and at least one student. This committee will also assess the penalty.

Professor E. P. Villavaso (chairman), Dean T. U. Taylor, Professor A. W. Walker, Dean B. F. Pittenger, and Professor S. L. Brown have been appointed to work out a system to substitute for the discarded honor system. Their report will probably be given out in about two months, it was said.

"The fact that during the four months ending January 1 not one case of violation of the honor system was reported either indicates a new and unbelievable state of virtue has been reached, or that the honor system was not working," added Dean Moore.

TRAILER COURSE IN JOURNALISM OFFERED

A trailer course in Journalism 12 which is designated J. 12as, will be offered in the spring semester and will be taught by De Witt Reddick, instructor in Journalism. The course will enable students to take up News Gathering and Reporting in the middle of the year, it was pointed out.

Other courses beginning in the spring semester in Journalism are: Law of the Press, J. 345, a three-hour course given by Professor Paul J. Thompson; Writing of Advertising Copy, J. 342, and Newspaper Advertising Problems, J. 343, also taught by Professor Thompson.

GEOLOGISTS MAKE SECOND FIELD TRIP

Students in Geology 1 will make the first field trip of the 1929 semester during the week beginning February 3, when a trip will be made up Boldin Creek near Barton Springs to study rock strata and formation.

This will be the second field trip of the long session, the first study tour having been made near the Colorado River bridge, where the river deposits were examined. H. G. Damon and S. O. Burford will have charge of the trip.

CLAYTON RAPIDLY REGAINS HEALTH

Frank B. Clayton, professor in the School of Law, is rapidly recovering from the nervous breakdown he suffered just before the Christmas holidays, according to word received from him by Dean I. P. Hildebrand.

Mr. Clayton is in El Paso, his former home. It is expected that he will be able to return to Austin before the end of the second semester. During his absence, other members of the faculty have conducted his course in Equity.

SOCIAL SCIENTISTS TO MEET WEDNESDAY

Members of the Social Science Club will meet this Wednesday at 6:30 o'clock at the University Cafeteria.

Associate Professor D. B. Klein will deliver a paper on the "Psychology of Conscience," and the subject will be discussed in round table fashion.

War on Bats Rages As Ed. Building Is Riddled of Crevices

Repairs on the Education Building are being made in an effort to rid the structure of bats which are causing damage to the roof.

The crevices of the tile roofing are being cemented so that it will be impossible for the tiny animals to crawl through and scratch and break the under-roofing in such a way as to make the building leak.

NEW RANGER ISSUED TODAY AT 2 O'CLOCK

February Number Has
Local Items as
New Feature

Distribution of the "Flu" issue of the Texas Ranger will begin at the Co-Op this Wednesday at 2 o'clock, according to Burt Dyke, business manager of the Texas Students Publications, Inc.

The cover for the new Ranger is in two colors and was drawn by "Mary." Other art work was done by the regular staff members.

A page of local items under the head of the "Eyes of Texas" will feature the new issue of the comic. Staff members assert that material from all sections of the campus has been turned in for the new feature.

CHAMBERS INJURED IN AUTO ACCIDENT

Dr. O. R. Chambers, professor of psychology in the University, was slightly injured Sunday afternoon when his car turned over twice on the Austin-Lockhart road out of Austin. Chambers was returning to Austin from Lockhart with his family, when a car driven by a negro passed him. The back of the negro's car struck the front of Chambers' car, turning it over twice.

Chambers was able to meet his classes Monday and Tuesday. Mrs. Chambers received a severe cut on her hip. Their small daughter, Betty, was uninjured save for minor bruises.

SPECIALS FEATURE LONGHORN MAGAZINE

The February issue of the Longhorn magazine will include numerous special features, according to Charles Ramsdell, editor. The frontispiece will be a wood-cut by John Canaday. An announcement of the prizes to be offered by the magazine will be given in the issue.

Contributors of prose for the February issue are Frederick Romberg, Laura Mae Langham, Lorraine Barnes, and Commodore Cumley, Frances Taylor, and Martin Krost will have verse in the issue.

A. S. M. E. INSPECT CAPITOL PLANT

B. E. Short, instructor in mechanical engineering, conducted members of the American Society of Mechanical Engineers on an inspection tour of the Capitol power plant Monday night.

The plant, located northeast of the Capitol grounds, furnishes steam heat to the Capitol and is equipped to provide power for lights and elevators in the Capitol in an emergency.

JEFFERS AND BELL WILL DEBATE CALIFORNIA TEAM

Leroy Jeffers, sophomore, and Spurgeon Bell, senior, will represent the University in the debate against the University of California, at the University Baptist Church, Monday night, February 4.

Jeffers and Bell will uphold the affirmative side of the question, "Resolved, that the Jury System is Inefficient as a Means of Administering Justice," while Sanford Goldner and John A. Reynolds will represent California.

Reynolds and Goldner are both seniors in the University of California and have had two years' experience in inter-collegiate debates. They left California January 15 and scheduled to return February 8, their last stop being at the University.

SANDBURG'S WRITINGS RECOUNTED BY DOBIE; POET HERE TOMORROW

AUSTIN WOMAN WILL CONDUCT STUDY GROUPS

Sharborough Leads
Parental Education
Classes

In co-operation with the board of nutrition and health education of the University, the State Board of Vocational Education has placed a full-time specialist in the University extension service to teach parental education to classes of Austin women, according to Miss Jeanie M. Pinckney, chief of the nutrition and health bureau.

Mrs. Virginia Sharborough of Austin, who holds a master's arts degree from the University, has been chosen to lead the study groups. In 1927-1928, Mrs. Sharborough was selected by the national research council for the Laura Spelman Rockefeller Fellowship in parental education. The fellowship gave her privilege of studying at three of the leading centers of the country in this work, Merrill-Palmer School at Detroit, Columbia University in New York, and the University of Minnesota.

Several groups in parental education have been organized in various parts of the city, with an enrollment exceeding one hundred. Of those enrolled 60 are doing intensive work in child study with texts, while the others are taking a lecture course. Other groups will be organized in January.

The University Faculty Club will meet Saturday, January 26, at 8 o'clock at the club house, 2304 San Antonio Street, to hear the report of the committee organized to select a new secretary for the club, following the resignation of Dr. M. R. Gutsch. Dean H. T. Parlin is chairman of the committee.

L. Theo. Belmont, president of the club, has been acting secretary until the vacancy can be filled. Other officers of the club were elected at the last meeting. L. Theo. Belmont was re-elected president; Judge Charles Wilcox, vice president; and Professor H. C. Walling was elected treasurer.

CLUB MEETS FOR COMMITTEE REPORT

The University Faculty Club will meet Saturday, January 26, at 8 o'clock at the club house, 2304 San Antonio Street, to hear the report of the committee organized to select a new secretary for the club, following the resignation of Dr. M. R. Gutsch. Dean H. T. Parlin is chairman of the committee.

L. Theo. Belmont, president of the club, has been acting secretary until the vacancy can be filled. Other officers of the club were elected at the last meeting. L. Theo. Belmont was re-elected president; Judge Charles Wilcox, vice president; and Professor H. C. Walling was elected treasurer.

FACULTY MEMBERS JUDGE PROBLEMS

Juniors of the department of architecture have had two problems judged by members of the faculty. On one of the problems, "A Garage on a Private Estate," Everett Signus received a mention commended, and K. D. Verner received a mention.

On the other problem, "A Summer Colony," mentions were awarded Everett Eignue, J. L. Thomas, Allyn Gordon, and E. Bodet.

TRANSFERRED TO MCAMY

Joe Bill Herald, who received his bachelor of science degree in chemical engineering at the University in 1927, has been transferred from the Humble Oil Company in Baytown to McCamy, where he will be in charge of construction of desulphurizing equipment of his own design.

JEFFERS AND BELL WILL DEBATE CALIFORNIA TEAM

Leroy Jeffers, sophomore, and Spurgeon Bell, senior, will represent the University in the debate against the University of California, at the University Baptist Church, Monday night, February 4.

Jeffers and Bell will uphold the affirmative side of the question, "Resolved, that the Jury System is Inefficient as a Means of Administering Justice," while Sanford Goldner and John A. Reynolds will represent California.

Reynolds and Goldner are both seniors in the University of California and have had two years' experience in inter-collegiate debates. They left California January 15 and scheduled to return February 8, their last stop being at the University.

"Carl Sandburg is a man of great sympathy, a man of sensitive responsiveness, and a man of expansive nature," J. Frank Dobie, associate professor of English, said recently in speaking of the American poet who is to lecture and read poems at 8 o'clock, Thursday night in the auditorium of the Austin High School.

Sandburg will be introduced by Dr. L. W. Payne, Jr., professor of English, in the absence of J. Frank Dobie who is in Mexico. The lecturer is brought here by the Texas Folk-Lore Society and will give a complimentary lecture as appreciation for help given him in his ballad collecting. He also appeared in San Antonio the first of the week, and will appear at other places in the state.

He is a comradely fellow, not boisterous, not a glad-hander, but he is genial with people that he likes," Professor Dobie continued. "He is by no means a faultless artist, however, and is not the greatest figure in American literature; but he reflects American people in a way no other American writer has reflected them. He was reared on the prairie, and sings of the prairie folk. For many years he has resided in Chicago, and his theme has been 'The hog butcher of the world,'" Dobie explained.

"Sandburg has treated of American folk-songs with a dignity, understanding and compassion that no other poet or professional folk-lore enthusiast has yet attained. In his biography of Lincoln he has regarded the man as a representative of the people, and thus has taken seriously the vast cycle of folk-jokes of and by Lincoln. In his poems he is always getting down to the ground and translating what he hears there," Dobie stated in giving an estimate of Sandburg's worth in American literature.

Professor Dobie became acquainted with Sandburg intimately when the latter was in Austin several years ago. The poet was the guest of John Lomax, Jr., author of "Cowboy Songs." The three men went to east Austin and remained in a negro restaurant listening to songs until after midnight, and Sandburg is said to have enjoyed the trip more than anyone in the crowd.

"Sandburg nearly always parts with the expression, 'Well, we are both young, and will meet again,' and he is still young, despite the fact that he has turned fifty," Dobie continued. "The main characteristics about his personality is the fact that he is informal in all that he does."

Old Adage Concerning the Wins Idol for Diligence Female Claimed Corrected

By WILLIAM EILERS, JR.
"Vanity, thy name is Woman" was the sad plight of some disillusioned male of the long ago. He must have been the kind of gentleman who never looks into a mirror and thus knew nothing of the horrible things of life, and having never looked into the "root of all evil," of course no woman ever gave him a second glance 'cause he never knew when his hair needed mowing or when his chin needed a house cleaning.

Old Adage Concerning the Wins Idol for Diligence Female Claimed Corrected

But a young lady who came in early, and therefore found all the machines "on the blink," established a record for long suffering, and to her do we dedicate the idol with the clay feet. She uses the touch system, which makes this story possible.

Seating herself at a machine, she typed her entire story before she discovered that her paper was as blank as the average college's mind. Then she arose, went to the next machine, and repeated the process. In all she did this five times, and at last she was told the why and wherefore by the assignment editor.

Having been thus disillusioned, she smiled sweetly, said "thank you," readjusted the machine, and typed her story out cheerfully, and in short order.

Don't look like that, folks, it's a fact.

JONES TO JOIN SUMMER FACULTY

Professor H. S. V. Jones, of the University of Illinois, will be on the English faculty of the University during the second summer term, according to Professor R. A. Law. He will probably teach graduate work of the renaissance period.

Professor Jones has taught at the University for several summers. He studied a year in France and is one of the editors of the Journal of Germanic and English Philology.

Professor Shows Strange Affinity As He Dates Worm

The faculty dance, held last Saturday night, had its amusing angles, other than the antics of the participants.

One bashful professor, desiring to escort a maiden, telephoned for the date three weeks in advance.

"Why, certainly," cooed the femme, "I'd just love to go." "Ah!" quoth the delighted professor. "The early bird gets the worm."

LITTLE CAMPUS MEMBERS HEAR TOM POLLARD

'Old B. Hall Spirit'
Is Subject of
Address

"Old B. Hall Spirit," was the subject of Senator Tom Pollard's address at the meeting of the Little Campus Association, Tuesday night, at the Little Campus Dormitory. After his speech, he was voted an honorary member of the Little Campus Association.

A nominating committee was appointed for the elections of officers to be held February 5.

John Woodruff was elected editor of the Little Campus Free Press. He was also given a vote of thanks for starting the paper.

About one hundred members of the association were present to hear Senator Pollard who is an ex-student of the University.

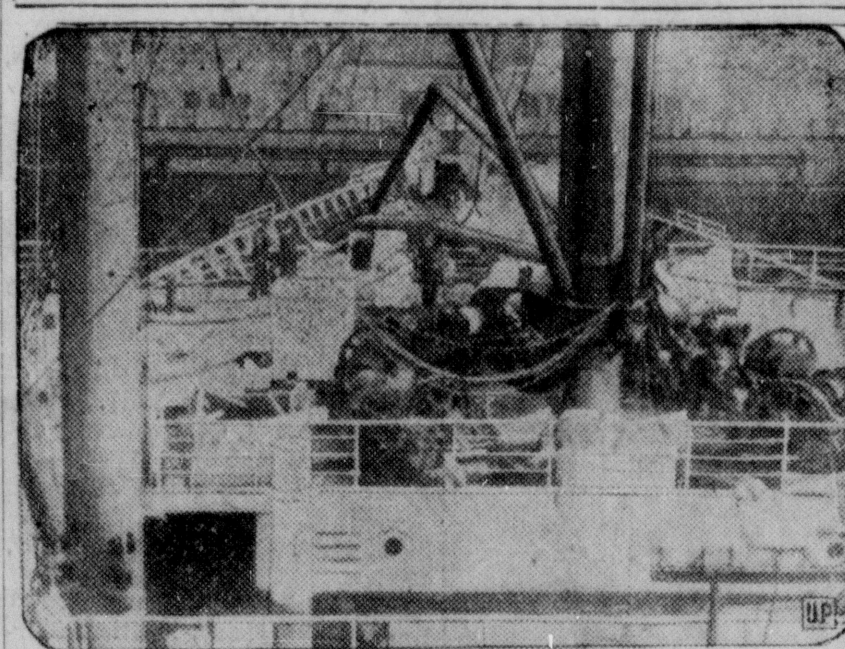

BURGLAR ENTERS HOME OF DOLLEY

A burglar entered the home of Dr. James Clay Dolley in Rice Courts, 706 West 24 1-2 Street Monday night between 7:30 and 10 o'clock.

Entrance to the house was gained by taking the screen off the back window. Dr. Dolley was not at home at the time and when he returned his house showed signs of having been plundered.

Various articles were stolen, ranging from a sheet of postage stamps to a pair of silk hose. An empty pocket book belonging to Dr. Dolley was also taken.

HIGH SEAS DAMAGE LINER

View of the damage done to the White Star liner Majestic which on its last voyage from London encountered high seas.

Hot Check Artists to Face Penalty -- Moore

Students who persistently write worthless checks in the future will be rendered liable to immediate dismissal from the University, according to V. I. Moore, dean of student life.

Following is a communication recently sent by Dean Moore to the Retail Merchants' Association of Austin:

"In answer to various inquiries as to the policy of the discipline committee in regard to students charged with writing worthless checks, the following procedure has been agreed upon: a record is made of the first offense; the student concerned is required to make good his check and warned to avoid the practice.

"A second offense causes the student to be put on disciplinary probation. Additional offenses render him liable to immediate suspension."

Down-town merchants, as well as those of the University district are said to have complained that they are unable to stand the losses from "hot checks" passed by students and have asked that steps be taken to curb the practice.

It is reported that one store on Guadalupe Street has a collection of worthless paper amounting to \$300 and that two drug stores in the district have lost \$200 and \$250, respectively, on bad checks.

KFDM BROADCASTS IN SONG CONTEST

Selections chosen for the Inter-scholastic League Music Memory contest will be broadcast over radio station KFDM, Beaumont, February 15, from 8 to 10 p. m., and from WRR, Dallas, from 8 to 9 p. m. the same day, it was learned Tuesday from Roy Bedichek, chief of the Inter-scholastic League.

The selections will be played by the Magnolia Band of Beaumont, under the direction of R. M. Dhasche. "This will be an excellent opportunity for pupils studying for music memory contests to hear the selections played by a band," Mr. Bedichek said.

LEAGUE HAS ISSUE OF RULES PRINTED

The Inter-scholastic League Bureau has had printed a new issue of their constitution and rules, according to Roy Bedichek, chief of the bureau. The first edition of 8,000 copies of the present rules, has been exhausted, and 2,000 more copies were ordered printed of the same edition to satisfy the increasing demand from Inter-scholastic League schools.

"The final enrollment for the year of 1929 has not yet been checked," Mr. Bedichek said, "but has probably run well over 5,000. Membership fees postmarked as late as January 18 are being accepted."

ARCHITECTS' PLANS AWARDED MENTION

Two problems completed by seniors in the department of architecture have been judged by the members of the faculty and mentions were awarded the following on the problem, "A Hydro-Electric Station": Billy Burke, Temple Phinney, and George Knisp. Mentions were awarded to N. S. Nayfach, M. M. Moseley, Jim Hammond, and Billy Burke.

BANQUET FOR DANA X. BIBLE HELD MARCH 8

Veteran Mentor to Be
Honored by Aggie
Exes

In appreciation for what Coach Dana X. Bible has done for Texas A. & M., a banquet is to be given in his honor at Fort Worth March 8 by former students of the college and by Aggie fans. Coach Bible will go to the University of Nebraska as head football coach.

The banquet, a state-wide affair, is to be given under the auspices of the Fort Worth A. & M. Club, of which E. P. Hutton, Jr., is president. Joe W. Ridgeway, a member of the Fort Worth club, is general manager of the affair.

The banquet will be in the nature of a tribute to Coach Bible, not only as a coach but as a man who has added much to the development of the finer things in athletic competition in the southwest. The banquet will be open to friends and supporters of the veteran coach whether or not they are A. & M. men.

Colonel Ike Ashburn, former commandant at A. & M., now manager of the Houston Chamber of Commerce, will be the "referee" at the banquet. Speakers on the program will include President T. O. Walton of A. & M. and former President W. B. Bizzell, now president of the University of Oklahoma.

Coach Bible has been at A. M. since 1916 when he was freshman coach for the cadets. Matty Bell, formerly head coach at T. C. U., has accepted the position left vacant by Bible's withdrawal.

WEBB SPEAKS THURSDAY

Dr. Ernest C. Webb, of the Wesley Bible Chair will deliver the address to the graduates of the Austin Junior High School at the graduating exercises Thursday morning at 10 o'clock in the school auditorium.

CASTANEDA LECTURES ON EARLY MEXICAN COLLEGES

"Few Americans realize that, at the close of the Sixteenth Century, Mexico had a university and seven graduate colleges, all of which were granting degrees in law, theology, and divinity equal in value to those granted by leading universities of Europe," said Professor C. E. Castaneda in his lecture on "College Life in Mexico in the Sixteenth and Seventeenth Centuries," at St. Edwards University Tuesday night at 8 o'clock.

Student life in Mexican universities and colleges was surprisingly similar to that of today, Professor Castaneda pointed out. The first student revolt against academic autocracy recorded in the New World occurred August 12, 1686, in one of the major colleges in Mexico.

"Students were early subjected to regulations as to dress, living quarters, and their spending money," Professor Castaneda continued. "No student could wear gold braid, rich embroidery, or curled wigs. They were to live in quiet and respectable houses, and no student could borrow or lend money."

U. OF T. BILLS TURNED DOWN BY COMMITTEE

Unfavorable Report to
Be Made on Four
Measures

FIFTH CONSIDERED

Pope of Corpus Christi
Leads Opposition
Argument

A distinct check was given the University legislative program Tuesday night, when the House committee on public lands and buildings decided to report unfavorably four of the five major University bills referred to them. The fifth measure was still in the hands of a sub-committee, and probably will be brought up for discussion in the main committee today.

The four bills on which action was taken related to the investment of the University permanent fund, the borrowing of money, and the exemption from taxation of pledges and obligations of the University. The bill appropriating money to buy the Cavanaugh tract of land met with little defense, and was voted down.

Representative W. E. Pope of Corpus Christi led the opposition, basing his argument on the contention that the bills were not specific enough in some instances. The term "pledges and obligations of the University" met with considerable criticism, and leaders of the opposition said that they were not the proper legal terms.

Recommendations of the sub-committee, headed by W. R. Montgomery of Edinburg, that two of the bills be reported favorably, one be further discussed, and the other be re-referred to the committee on appropriations, carried little weight, and efforts to table them also met with no success.

Cox stated that there was no need for the purchase of the Cavanaugh tract at the present time, and that he did not favor losing the interest on the state money involved if the land was not going to be used in the near future.

Montgomery and Penrose Metcalle, the latter of San Angelo, attempted to defer action until the authors of the bills had been heard from further, but the arguments of the opponents that there had been sufficient hearing were sustained in the vote. The chairman of the committee, Joseph McGill of El Paso, stated after the vote that in his opinion the advocates had had ample notice of the meeting, and he felt the committee had not acted unfairly.

One of the bills, by which University pledges and obligations would be exempt from taxation, passed the Senate Tuesday morning.

HOSPITAL LIST NUMBERS SIXTEEN

Students on the hospital list Tuesday numbered 16, according to the University Health Service.

Students in Seton Infirmary are: Fred Meredith, Lydia Russell, Dan Bruhl, Edwin McCarroll, Robert Darden, Kathryn Horn, and Lucille Struve.

In St. David's Hospital are: Calvin Guiley, G. Barton, Martha Ingersoll, Mary Jones, Juanita Batchelor, Weldon Brewster, Mary Jo Todd, Melba Johnson, and Athene Posey.

What Do You Know About—

By J. C. WATKINS

1. Governor ousted?
2. American killed?
3. Chicago raids?
4. Auto accidents?

Impeachment—a quaint old Oklahoma custom.

Proving that the only way to be governor in Oklahoma is to run for lieutenant-governor W. J. Holloway yesterday stepped into the shoes of Henry S. Johnston, who was suspended from office following acceptance of impeachment charges by the state senate.

Declaring that he will not resist suspension, Johnston said: "In deference to the will of the people, I will not oppose the defacto government set up by the senate's vote. The people are entitled to an orderly government. Whatever I do, I shall not attempt to set up a dual government. I will pursue this course in conformity with what I consider to be patriotism. Any acts of the defacto government, with W. J. Holloway as its acting head, will be legal."

Now it's the Wahabis.

Henry Bilkett of the American mission in Iraq was shot by Wahabi tribesmen when he blundered into an ambush. Bilkett was with a party of travelers on the Iraq frontier.

A member of the party who escaped declared that the attackers numbered about one hundred, but were so well concealed in the desert scrub that none of them were visible.

The Wahabi tribe of religious fanatics in recent months have been causing some trouble in the northern part of the Nejd, making raids on Transjordan to the west and Iraq to the northeast. The Wahabis have always been noted for their fierceness. (Yes, I know but this space has to be filled and you know how it is during dead week.)

Chicago's joy joints yielded a fruitful reward to the boys from headquarters over the week-end, and yesterday the raiding squads were ordered to halt the drive so that the 3,400 prisoners might be questioned, photographed, and finger-printed.

Yesterday morning, it is reported, a stream of lawyers began to pour into the criminal courts with petitions for habeas corpus. It was in vain, however, as police intend to hold all suspects until investigations are completed.

Police hope to find the solution of many unsolved crimes through the racketeers, thugs, and hoodlums taken into custody. Already many suspects have been named in connection with sensational murders of the past, it is said.

Bad news for pedestrians—automobile accidents took a toll of 11 lives in Texas over the week-end and a score or more persons were injured, according to all reports. In one accident Dr. E. A. White, professor of physics at Baylor University, was seriously injured when struck by a car.

Statistics:
Helen Will will be married in 1930.

Since her divorce, Gilda Gray says she feels "like a bird in the springtime."

A girl in Philadelphia fainted after dealing 13 hearts in a bridge game.

CZECH PAPER TELLS OF EXTENSION WORK

Extension work at the University is the subject of an article recently printed in a Czechoslovakian publication which is read throughout Central Europe. The author, Dr. Eduard Micek, instructor in Germanic languages at the University, has made a study of methods employed in extension work in leading colleges and universities of America, and the educational review published in the Czechoslovakian journal summarizes the results of this study.

Mrs. Charles Joe Moore, chief of the University Bureau of Visual Instruction, is mentioned as having furnished statistics on the work being done here.

BULL BELLOWS

By ALEX MURPHREE

THOUGHT FOR TODAY

THE STRONG, silent type of person is strong because nature was kind to him in that respect, and silent because nature did not supply him with a thinking apparatus.

—William Eilers, Jr.

THE DUTIFUL CO-ED

Mary, 'tis true
And that I know
Because professor
Told me so.

And if he said
That pigs were mules
I'd know it so
The little jewels.

And if he'd ask
When black was white
I'd grin at him
And wouldn't bite.

For if he said
That red was blue
I'd know that he
Could prove it, too.

Because he is
A clever man
I imitate him
When I can.

And so I hope
My brains will grow
'Till all the students
Love me so.

IDLING ALONG WITH EILERS

The vision of a Phi Beta Kappa key usually obscures from the horizon of a student's college life many other things which may in the long run be more worth while. For such a key does not necessarily unlock the door of opportunity which leads into the mansion of happiness.

The roughneck who attempts to conceal a lovable nature behind a hard-boiled exterior usually succeeds in building up a reputation for being vulgar and coarse.

Lynching in the southern states may decrease as a result of the passing of the persons who read movie titles aloud. Like the American buffalo, advancing civilization has wiped them off the face of the earth.

Bunk is organizing a coughing marathon to be held in any University classroom any time he gets there in time. The professor will be the judge; the prize, a crepe-de-chine hanky, and sneezing will be a personal foul.

WANDERING WITH WATKINS

The population of the world is now 1,906,000,000. Adam and Eve should swell with pride at this news. They started a snowball which since has come to assume mountainous proportions. (Excuse us, Mr. Brisbane, we did not mean to steal your act.)

"Bible's Successor Selected," starts a headline. Wonder if they know this in Arkansas.

"Denies Rumors as New Frog Coach," informs the Fort Worth Press. Who wouldn't?

—J. C. Watkins.

HOW LITTLE WHIFFENPOUFEL WON THE FAIR PRINCESS

SYNOPSIS—
Little Whiffy after being unsuccessful in getting the idol's gold, tries the ogre in Finland and succeeds in killing and starts devising a means for getting the gold of Wallachia so he can marry the princess.

Chapter VII.—Little Whiffy Gets the Gold.

Well, Little Whiffy had never seen so much gold and he just couldn't think of any way to get it back to Wallachia, try as he might. You see he had thought out a way to kill the ogre and there wasn't another thought left in the old thought basket.

But all at once he did have an idea, proving that if you think long enough you'll have a thought. Why not scot it down on the glacier? You see right by the ogre's castle there was a glacier and it was all made up of nice slick ice that you could slide on if you wanted to slide and most of the little Finlanders wanted to slide and they were sliding all around.

After chasing the little Finlanders off the glacier, he gave a great big shove. You never saw such a shove, and got the gold started down the glacier and then he climbed on top and away he went on top of his gold. And the longer the hill grew, and it was a sort of a mountain so it was pretty long, the faster the gold slid and when he reached the bottom which was somewhere in Russia he just kept on going because of the momentum he had gained, although there wasn't any more glacier. The friction had heated the ice until it had melted.

(To Be Continued.)

New Books In The Library

A classified list of new books received at the Main Library since Christmas has been prepared by the librarians. The additions are as follows:

Philosophy
E. S. Brightman, A Philosophy of Ideals, 1928.

Classification
A. Adler, Understanding Human Nature, 1927.

Logic and Ethics
B. B. Bogoslovsky, The Technique of Controversy, 1928.
P. H. Odegaard, Pressure Politics, 1928.

Religion
R. S. Cavan, Suicide, 1928.

Religion
R. W. Sellers, Religion Coming of Age, 1928.
J. B. Pratt, The Pilgrimage of Buddhism, 1928.
A. V. W. Jackson, Zoroastrian Studies, 1928.

Sociology
J. H. S. Bossard, Problems of Social Well-being, 1927.
Pitirim Sorokin, Contemporary Sociological Theories, 1928.

Political Science, Government
Kung Chuan Hsiang, Political Pluralism, 1927.

History
R. G. Gettelf, History of American Thought, 1928.

History
R. H. Murray, The Political Consequences of the Reformation, 1926.

History
Z. Chafee, The Inquiring Mind, 1928.

History
C. E. Merriam and L. Overacker, Primary Elections, 1928.

History
E. Freund, Administrative Powers Over Persons and Property, 1928.

Economics
H. G. Hayes, Our Economic System, 1928, v. 1-2.

Economics
N. W. Senior, Industrial Efficiency and Social Economy, 1928.

Economics
H. Bilgram, The Remedy for Over-Production and Unemployment, 1928.

Economics
G. M. Price, Labor Protection in Soviet Russia, 1928.

Economics
E. Dane, Wages and Labor Costs, 1927.

Economics
Pooling Wheat in Canada, 1927.

Economics
H. A. Haring, Corporations Doing Business in Other States, 1927.

Economics
H. D. Wolf, The Railroad Labor Board, 1927.

Economics
R. P. Teele, The Economics of Land Reclamation in the U. S., 1927.

Law
J. M. Spaight, Pseudo-security, 1928.

Law
J. Donaldson, International Economic Relations, 1928.

Law
A. P. Higgins, Studies in International Law and Relations, 1928.

Law
B. M. & C. G. Haines, Constitution of the U. S.

Law
J. M. Kenworthy and G. Young, Freedom of the Seas.

Insurance

HANDBALL MEET NEARING FINALS

Intramural handball doubles took a step toward completion yesterday afternoon when the fourth round of the tournament was played. The matches were well played, but none were close enough to leave any doubt of their possible outcome.

Jones and Joltz, laws, defeated Hasche and Eby, E.B.A.'s, 21-10; 21-4. The Rusk Literary Society, stepping beyond the realms of argumentation and oratory was awarded a decision over the Little Campus "A" team when the dormitory boys failed to put in their appearance. Bratt and Williams, Delta Tau Delta, came through with a win over Fisher and Sullivan, Kappa Sig's, 21-7; 21-11. Scanlon and Waggoner, Delta Sig's, whipped Wells and Woods, Sigma Alpha Epsilon, 21-12; 21-18.

BILLS FAIL TO PASS HOUSE COMMITTEE

(Continued From Page 1)

ing without a dissenting vote, and was referred to the committee on revenue and taxation when introduced in the House shortly afterwards.

An open hearing on the bill regarding control of University land lease sales, was held before members of the Board of Regents and President H. V. Benedict Tuesday afternoon, but after nearly two hours of argument, the subcommittee in charge decided to withhold their report another day.

Representative Coke R. Stephenson of Junction was framing a new substitute bill late Tuesday night, which he hoped would overcome the objections hitherto raised against giving the control back to the land commissioner. The proposal that the control be given to a board of two Regents and the land commissioner met with approval from the subcommittee Tuesday afternoon, but seemed doomed to failure, as the new substitutes made no provision of that nature.

MODERN 'NOAH' AWAITS FLOOD

William Greenwood (inset) of Olympia, Washington, has constructed this strange vessel in preparation for the devastating waters that he says are to pour over the Pacific coast next year because of the sinfulness of the world.

FACULTY MEMBERS PUBLISH 16 SCIENTIFIC ARTICLES

During the past year, members of the faculty of the department of botany and bacteriology of the University have had published nearly a score of articles, bulletins and discourses on scientific subjects relating to their particular field of work.

Dr. I. M. Lewis, professor of botany and bacteriology, is the author of five different articles and reports accepted by the editors of scientific journals. The magazines in which his articles appeared are the Journal of the American Water Works Association, Science, Centralblatt für Bakteriologie and the Journal of Bacteriology.

Dr. Frederick McAllister, professor of botany, wrote an article for the bulletin of the Torrey Botanical Club, which appeared in the February issue of 1928.

In the Proceedings of the International Congress of Plant Science

now on the press will be found an article written by Dr. J. T. Buchholz, professor of botany, while in the next issue of Genetics will appear another report on which he collaborated with A. F. Blakeslee.

Dr. B. C. Tharp has written two scientific articles on vegetation which appear in the Carnegie Institution Year Book. On one of the articles he collaborated with F. E. Clements.

C. B. Williams, associate professor of bacteriology, is the author of three articles, two appearing in the Journal of Immunology, the third in the Journal of Bacteriology.

Dr. Frederick McAllister, professor of botany, wrote an article for the bulletin of the Torrey Botanical Club, which appeared in the February issue of 1928.

teriology. On the latter, he was aided by Miss Marie B. Morrow, instructor in botany and bacteriology.

Anton H. Berkman, now with the University College of Mines at El Paso, contributed an article to soil science last February.

Miss Roberta Mohling Ma was the contributor of an article to the American Journal of Botany, and Miss Frances Marion G. Kenyon has had an article accepted for publication in the Bulletin of the Torrey Botanical Club.

NO NEWSPAPERS ARE ADDED BY LIBRARY

"Because of lack of space, no additions to the regular files have been made to the newspaper collection of the library this year," E. G.

THEATERS
WITH C. B.

"THE BARKER." "Not good not bad," say I. "Good!" says everybody else. And so it's "Good." Yes, at the Queen.

"BROTHERLY LOVE." A Karl Dane-George K. Arthur to-do, said to be really good this time. Also Jean Arthur. At the Majestic.

"FOUR SONS." Three good things: Charles Morton, Margaret Mann, and the river mist scene. Not epic. At the Hancock.

"THE WIFE'S RELATIONS." Chiefly Shirley Mason, but also Ben Turpin et al. Laughter sketch. And such. At the Crescent.

"THE MAGIC FLAME." Ronald Colman in a double role, Vilma Banky opposite. Listen my children and you shall hear—At the Texas.

CHARLES MORTON
IN HANCOCK FILM

If you like Charlie Farrell and if you like Buddy Rogers—in fact, if you like your heroes sweet and unsophisticated, go to the Hancock and see Charles Morton as Johann in "Four Sons." His charm is distinctly different from the hot, bothered, chest-heaving type of lover who has been in vogue lately. His is a fresh boyish quality which is appealing in its simplicity. Personally, I like him and want all of you to give him a big hand and pray that he won't be cast as a "Fazil."

Margaret Mann as the mother is, of course, the major attraction in this film. Her acting is astonishingly smooth and quiet for a first performance on the screen. A lot of these leaping, grinning, gesticulating stage stars now coming on the screen could learn a great deal from her. At all times her poise and quiet dramatic interpretation is well sustained. She reminds one strongly of Whistler's Mother—and needless to say, the producers did not lose the chance to pose her similarly.

One point of dislike—I didn't care for Francis X. Bushman and Charles Meeker. Bushman never seemed quite able to subordinate himself to his role—always he remembered that he was A BUSHMAN! And Charles Meeker, well, I just didn't care for his type—very may. He handled his part very competently. James Hall as the son who went to America and found happiness in a delicatessen shop is up to his usual standard.

A poignant tale rather overdrawn and sentimentalized and excellent characterization combine in a very good picture. At least, it has won the approval of critics all over the country—so, you might as well see it.—B. D.

'THE BARKER' IS
A HIT AT QUEEN

Everybody seems to like "The Barker" at the Queen.

Life and realism is something which all of us seek. The makers of motion pictures, being merely human, have been striving to show life as it is ever since the inception of the industry. At times they have almost attained perfection in their portrayal of the conditions of life as they are found in certain sections of the country or among a certain class. In "The Barker," which is playing at the Queen all week, the producers have at last turned out a picture which tears away all the glamour from carnival life, and shows it in all its ugliness, sorrow, and hatred, though it isn't a tragic picture.

Milton Sills as the "barker" is about as perfect as one could desire. In fact every member of the cast is as good as one could want. Betty Compson, as the little Hawaiian dancer, is the first person we ever saw do that dance that didn't get vulgar at some time during the act. Dorothy Mackaill and Douglas Fairbanks, Jr., complete the cast for the picture.—R. M. C.

DANE-ARTHUR AT
MAJESTIC NOW

It is with some hesitation that I herald a picture called "Brotherly Love," which is the latest comedy special co-starring those two utter idiots Karl Dane and George K. Arthur, coming to the Majestic today. Because the title is not distinctly one for comedy, I think, and should not be used for such. Rather, it ought to be reserved for some splendid film on the general theme of "Beau geste," wouldn't you think? On the contrary, perhaps, it is such a perfect title for a real and serious, possibly tragic, work on such a theme that it should not be used for that purpose for just that reason—its perfection. There

NOW AT MAJESTIC

PRESENTING, again, our screen favorite for girlish sweetness—Miss Jean Arthur, who lends her charms to "BROTHERLY LOVE," now at the Majestic. It's a Karl Dane-George K. Arthur opus with laughs.

can be little doubt that "Brotherly Love" will not fit the present opus of the Messrs. Dane and Arthur, the yarn being a hilarious one of happenings as they could not possibly occur in and about prison farms where football is the major pastime. You aren't asked to imagine that, all you are asked to do is laugh and then laugh some more if you're able without cracking a rib. For they tell me that "Brotherly Love" is funny without any stuttering when they said it. And I do not hesitate in passing the word on to you.

Nor do I hesitate in recommending to your kindest attention one Miss Jean Arthur (no kin of George K., please) who furnishes the feminine appeal for this film. She's got it, meaning she's got what it takes, but don't ask me what that is. Good things are 'most always indefinable, aren't they? Well, hers is a sweet charm which is utterly enchanting in its beauty. And she puts into her acting that essential warmth of characterization which makes a part seem to live and breathe on the screen. Oh, well, panegyrics and panegyrics. I'm for her.

And so you might as well put on your laughing togs and go down to the Majestic prepared to tear up a row or so of seats. —C. B.

Miss Evelyn Lamme Weds E.W. Teich
At Presbyterian Church Saturday

Miss Evelyn Lamme became the bride of Edgar William Teich Saturday evening at the First Presbyterian Church of Austin, with the Rev. G. Cravens of San Antonio officiating. The ring ceremony was used. The bride and groom were both former students of the University.

The brides attendants included Miss Bess Buchanan as maid of honor, Little Miss Virginia Jordan as flower girl, and Miss Irene Whitman. Preceding the entrance of the wedding party, Miss Dorothy Sandlin sang "I Love You Truly" accompanied by Miss Bertha Hawkins at the piano.

The bride, who entered with her father, D. T. Lamme, was met at the altar by the bridegroom and the best man, Charles Warren of Houston.

Following the ceremony, the relatives and close friends of the couple were guests at a reception at the home of Mr. and Mrs. Bulman, an aunt and uncle of the bride.

The bride is the daughter of Mr. and Mrs. D. T. Lamme, and the bridegroom is the son of Mr. and Mrs. A. R. Teich.

Mr. and Mrs. Teich left after the reception on an extended trip to California, Utah, and Colorado, after which they will be at home in Austin.

MASTERSON- CARDWELL
MARRIAGE ANNOUNCED

Mr. and Mrs. O. C. Cardwell announce the marriage of their daughter, Floyd Jean Norwood, to J. D. Masterson, Thursday, December 13, 1928, at Oklahoma City. Mrs. Masterson was a former student of the University, and a member of the Zeta Tau Alpha sorority.

Mr. and Mrs. Masterson are residing in Dallas.

Morgan-Coopwood Rites Solemnized
Saturday Evening at 6 in Lockhart

Emmanuel Episcopal Church of Lockhart was the scene of a wedding Saturday evening at 6 o'clock when Miss Frances Minerva Coopwood, daughter of Judge and Mrs. E. B. Coopwood, became the bride of Dr. Williams Palmer Morgan, with the Rt. Rev. Bishop W. T. Capers of San Antonio reading the ritual, assisted by the Rev. Williams Capers.

The bride's attendants included her cousin, Miss Russell Flowers, as maid of honor; Mrs. Wynne Pierce of Orange, matron of honor, with Misses Emily Long of Austin, Exabelle Sublette of San Benito, Julia Coopwood and Elizabeth Capers.

Dr. Overton of Dallas served the groom as best man and Dr. C. J. Paternostro, Carroll Coopwood, Sam Taylor and Gershom Rosenwasser were ushers and groomsmen.

Dr. Morgan is a graduate of the University, having received her bachelor of arts degree in 1927. She is a member of Kappa Alpha Theta sorority.

Dr. Morgan received his bachelor of arts degree at Baylor University and later graduated from Baylor Medical School at Dallas.

T. C. U.	5	1	4	.200	
Baylor	3	0	3	.000	

GAMES THIS WEEK

Friday
A. & M. vs. S. M. U. at Dallas.
Saturday
A. & M. vs. T. C. U. at Fort Worth.
Rice vs. Baylor at Waco.

With the dread examination week looming on the horizon, the Texas cagers continue their preparation for the defense of their stronghold against the Rice Owls Monday. The Owls lost to T. C. U. to sleep in the second half after leading the Toads 18-3 at the end of the first period. The Frogs came through with a one point victory when Wallin sank one from the floor with less than a minute to go. This win by the Christians left the Bruins sole owner of the cellar.

Just coasting! That's the way that the track coaches describe the work of their hopefuls this week and next. The men are reporting every afternoon with the mentors being on hand to help them in the workouts. The hours which had been set for the men have been laid aside, and the men are working out any time they can get out to the field.

"It will depend on how the men come through the finals as to what our track team for 1929 will be," declared Littlefield. With only seven lettermen back, the reserves, rookies and new men will have to make up the major portion of the squad. Among the new men is found some of the most promising material which has reported for a Steer track squad in years.

T. C. U. will have a powerful ball club to put in the conference baseball race, according to news from that seat of learning. The Toads will have a huge hurling staff, including veterans and rookies on its roster. A veteran infield, and an outfield of rookies, with an inexperienced backstop will about complete the line-up of the Toads. Meyer has been handicapped by the lack of material in his previous years at T. C. U., but this year he will have all the men that he wants.

TICKETS FOR OWL GAME READY FRIDAY

Steers Resume
Work After
Day of
Rest

With the next home game coming on Monday, basketball fans will have to look elsewhere for their entertainment Saturday night, and then when the game does come around, only those persons whose names begin with C, D, or E will get to see it.

Tickets for persons whose names begin with C, D and E will be distributed from the offices in Z Hall, starting Friday morning, and continuing through 5 o'clock Monday afternoon. Up until 2 o'clock Monday only students bearing blanket taxes with names of persons whose names begin with C, D or E will be able to get tickets. After 2 o'clock Monday, any person holding a blanket tax may secure tickets, provided of course, that some are left at that time.

Coach Walker returned to Austin and resumed work with his cagers after watching the Owls go to sleep and permit the Horned Toads to win by a one point margin, after the Rice quint was leading 18-3 at the half. Walker looked over the Owls from every angle, and figured out just what it will take to stop the boys when they hit Austin Monday night. Saturday night Pug Daugherty's boys will clash with the Baylor Bears in Waco in what should develop into a nice fight.

With final exams in the immediate offing, Walker is sending his men through strenuous workouts every afternoon and ordering them home to study early. Coach isn't wanting any of the squad to be lost through ineligibility.

The Steers looked like world-beaters in the Pony clash, and if they continue to show the improvement that they have since the opening clash with Baylor, it's going to be bad news for somebody before the year is over. Their defense was working to a perfection, while the offense was clicking along with Brock, Camp, Rose and Wray featuring the scoring for the night.

EDUCATION MAJOR
EXAMS DISCUSSED

The major examination for students taking a degree from the School of Education will be confined to courses in education, stated Dean B. F. Pittenger Monday night. A motion to this effect was adopted at the education faculty meeting Monday afternoon.

Aggies Have Strong
Nucleus to Build
Track Team Around50 Men Report to
Anderson for
Opening
Work

Special to The Daily Texan.
COLLEGE STATION, Jan. 22.—A squad of more than fifty men, including 11 lettermen, gives Track Coach Frank Anderson a promising group of candidates on which to pin championship hopes in the Southwest Conference this year.

The Aggies appear strongest in the running events, having lettermen in the sprints and quarter and half-mile runs and with nearly every member of the relay teams which won so much renown last season back again this year. Hershel Burgess, Hale Center, and Bob Graham, Jasper, are the lettermen back in the sprints and with J. D. Roensch, Smithville, fleet freshman numeral man last year, should prove formidable in any meet.

Captain Dan O'Neil, Greenville, one of the fastest quarter-milers in the conference last year and probably the outstanding man of last year's Aggie team, and R. S. Hodges of Taft, another fleet letterman from last year, give Coach Anderson a good start in the quarter-mile. Besides these men are M. H. Badger, a squadman from Austin; C. A. Tracy, Houston, and Maurice Sessions, Austin, two freshman numeral men last year. While running for San Marcos Academy several years ago, Sessions and Tracy were teammates with Hodges and these three men were members of the mile relay team which set the present world record for academy teams.

Two lettermen are back for the half-mile, Ed Thompson, Cameron, and J. B. Michael, Fort Worth, both lettermen in track and cross country. There are also several promising men from last year's varsity and freshman squads from whom to choose additional half-milers. In the mile and two-mile, however, the Aggie coach does not have a single letterman although every member of this year's championship cross country team will be available.

Dick Winders, Houston, Southwest Conference cross country champion; G. H. Moore, Dallas, captain of the champion Aggie harriers last fall; C. Y. Shoemaker, Jacksonville, captain-elect of the Aggie cross country team next year; L. H. Brown, San Antonio, also a member of the cross country team; M. G. Perkins, Mount Pleasant; A. H. Grantham, McGregor; T. B. and W. B. Powers, Beaumont, are the outstanding candidates for the distance runs.

For the hurdles Anderson has no lettermen but in L. G. Dick, San Antonio; Don B. Slocumb, Cameron, and H. D. Phillips, McKinney, are three of the most promising candidates in the conference. Dick, a squadman, ran close to Kennedy, hurdling ace of the conference last year.

The return of Howard Ashley, San Antonio boy, one of the outstanding pole vaulters in the southwest two years ago, has brought greater strength to the Aggies in the field events. Besides this letterman, the Aggies have Harry Stiteler of Smithville, A. D. White of Gustine, and V. S. Anderson of Dallas, all promising freshmen vaulters last season.

Tomie Mills of Groesbeck and R. R. Farmer of West Columbia, are the lettermen back in the jumps. Farmer is both a broad and high jumper and Mills' specialty is the broad jump. W. B. Holsonbake, Farmersville, and N. D. Thomas, El Campo, freshmen last year, are expected to strengthen the team in the broad jump.

Farmer will also aid the Aggies in the weights as he was outstanding last year with the discus. Z. W. Barlett of Marlin, big captain of the Aggie football team last fall, was also a letterman in the weights last year, throwing both the shot and the discus. H. B. Delery, big Houston boy, who manned a tackle on the Aggie football team last fall and a freshman numeral man in track last year; W. H. Markle of Port Neches, a varsity squadman last year; and S. R. McCluney of Waxahachie, also a freshman numeral man last year, are three other promising candidates with the weights.

J. R. Johnson, Pharr, a letterman last year; R. J. Blount of Gainesville, champion intramural javelin thrower last year; and J. G. Floyd of Rosewood, a freshman numeral man last spring, are listed for the javelin event for the Aggies.

1929 Steer Ball
Club Introduced
To Texas Studes

By C. A. BURTON
Name—Mario De La Fuente.
Home—Del Rio.
Age—19 years.
Height—5 feet, 10 inches.
Weight—154 pounds.
Position—Pitcher.
Throws right; bats right.
Experience—Three years at Del Rio High School; five summers amateur ball at Del Rio; one year freshman. During his three years at Del Rio High School, De La Fuente won 14 and lost one. Last summer at Del Rio he won 10 and lost four. As a freshman he won two and lost none.

Track Practice
To Continue
Through
Exams

"Track work for the 1929 season will continue right on through examination week, but the men will be expected to put plenty of time in on their courses," declared Coach Littlefield yesterday. "The coaches will be out there to help anybody who reports for practice, but I'd rather see every member of the squad put in their time on their studies, and remain eligible for competition this season than come out when they should be studying," he continued.

"Track prospects for the current season, which will officially open with the Texas Relays, March 29, are about 50-50 with the outcome of the year depending on how the new men come through. If all those on whom the Texas mentors are depending come through their finals in good shape and stay eligible, the chances for a good

League winners in ten of the 11 leagues of intramural basketball have been designated and all basketball has been suspended until after examinations.

When the engineers meet the pre-laws February 4, the departmental championship will be decided unless the pre-laws should overthrow all existing dope and advance indications by downing the Alecs, in which case the latter will be thrown into a tie with the laws and a play-off will be necessary to decide the championship.

Tau Delta Phi ran away with the championship in Fraternity League A with five straight wins, all by top-heavy scores. Fraternity League B was won by Delta Kappa Epsilon with four wins and one loss to Lambda Chi Alpha.

In League C, Alpha Tau Omega annexed the championship by four

team are bright, while if those on whom much of the hopes of the squad are resting become ineligible, the chances for a winning team will be rather "slim."

Among the new men reporting for work are some of the best prospects that have been in the institution for some time, and if everybody comes through as they should, the hopes for a good year on the cinder path will be helped considerably.

Bruins Return
And Start

WACO, Jan. 22.—The Bears returned from Fayetteville Sunday, glad to be back on their own

straight wins. Four victories and a single defeat at the hands of Acacia was the record of Omega Beta Pi in winning League D. Kappa Alpha swept League D with four straight wins.

League A of the independent division was won by the Cafeteria in four victories, while the Wichita and Little Campus "B" established the same record in winning Leagues B and C, respectively. The University Faculty five played and won three games in taking the title of League D.

Newman Club was outstandingly the best team in the Sunday School group and won their four games to take the championship in that division.

The next game on the intramural schedule will be the contest between the engineers and the pre-laws February 4. Three weeks will be devoted to the play-offs. The five league winners in the fraternity division will play for the championship of that division and a chance to enter the quarter finals, as will the four independent winners. The University championship will be decided the latter part of February.

native heath once more. The Baylor Bears tried their stalling game but Schmidt had a plan that completely wiped out any advantage which might have resulted from such tactics. He had his men foul the Bruins every time they started playing catch down in their own end of the field. Then if the Bears made the shot, Pickell got the ball on the toss-up, and if the Bears missed the toss, the Porkers would take it off the backboard, and within a very few minutes, another two points would be added to the Razorback total.

On their return, the Bruins settled down to work for their fourth conference clash of the present season with the Rice Owls here Saturday night. The Owls have one win to their credit, a thriller won over the Aggies in their second engagement of the year, while they have lost to the Farmers and the Toads. The loss to T. C. U. can be blamed on the Owls, and the Owls alone. They were leading 19-3 at the half, and then went sound asleep in the second period and let the Christians nose them out 28-27. The Bears are determined that if they get the lead, the Owls will not catch them going to sleep on the job.

It was Aubrey Smith and Jake Wilson, who were the shining lights of the Bear five on their Arkansas invasion, and these men are being picked to stand the brunt of the Bruin attack for the remainder of the season, although Captain Barksdale will be called on to do his share.

the greatest
Style Exhibit ever shown

Thursday—Friday
Saturday—this week

This style exhibit will give well dressed men an opportunity to review Society Brand's complete line of suit and topcoat models for spring. A tailoring expert from the Society Brand organization has made a special trip from Chicago for the occasion. He personally will take the measurements of visitors who wish to have clothes made up, either in regular ready-to-wear sizes, or according to individual measurements.
