Dr. Darling E. Greger  
Fulton, Missouri

Dear Doctor Greger:

I am very sorry to be of no help in Scaphopod collecting. As far as known there are no serious collectors of shells along the Texas Gulf Coasts. Years ago H. S. Ladd of the U.S.G.S. made collections of shells in connection with some geologic problem. He may have some Scaphopods. As to myself I have never had an opportunity to spend enough time on the coast of Texas.

Sincerely yours,

H. B. STENZEL  
Geologist
