Dr. H. B. Stenzel
3726 Colquitt Ave.
Houston, Texas, 77029

Dear Stenzel,

I have recently borrowed a copy of the Griffith & Pidgeon edition of the Cuvier, Animal Kingdom, vol. 12. One of the items being checked was the name Ostracita, attributed to Griffith & Pidgeon by Neave, and listed by you among the Ostreidae. I am enclosing herewith a copy of the portion of the text concerned. It seems quite clear to me that this is one group (name) that you can safely forget. This, it seems to me, is the best kind of Christmas present I can send you!

Many thanks for the data on Sokolovia.

As ever

A handwritten signature in dark ink, appearing to read "J. E. Pidgeon", written in a cursive style.
