

September 27, 1940

Dr. Albert O. Hayes
Director of Geological Museum
Rutgers University
New Brunswick, New Jersey

Dear Dr. Hayes:

You will notice from some of the reprints I am sending you that I am keenly interested in the Tertiary fossils of New Jersey. I would appreciate it greatly if I could obtain some Tertiary material from your state. If it is acceptable to you, I would be glad to enter into an exchange of materials. We have here some very fine Cretaceous material, oil well cores, and other things for exchange.

Sincerely yours,

H. B. Stenzel, Geologist
