

Urbana, May 3, 1951

Dear Professor Bennett,

It is for me a surprise to receive your convocation for the Third International Colloquium to be held under your direction. I don't say it is a pleasant surprise because unfortunately I cannot attend. The reason is that I have to leave this country.

My visa is as a visitor on exchange basis, and the law obliges me to return to Spain, at least for two years.

So my plans have changed, and I will try to remain in Suburba; I will leave Urbana by the 10th instant, and it is not possible for me to remain until September.

What I would do with pleasure is to try to send you a paper, and so contribute to your meeting and

express your very thanks. Do you think that
I may do so, not being a proper member
of the meeting? Please let me know
if you think it is convenient, and although
for the moment I have no new projects
of paper on Mycenaean I will try to
prepare something before the deadline.

Do you intend to publish the contri-
butions to the colloquium?

Yours very sincerely

Antonio R
