Dr. H. B. Stenzel  
Bureau of Economic Geology  
The University of Texas  
University Station, Box B  
Austin 12, Texas

Dear Dr. Stenzel:

I have just received a letter from Professor Hewatt which includes the following insert:

"It is a pleasure to learn that Dr. Stenzel is preparing the annotated bibliography on the ecology of living nautiloids. I know Dr. Stenzel personally, and I have a high regard of his ability. He can, with much more facility, do a far better job on that group than I could do."

Kenneth Lohman and I are hopeful that you will be able to sub-divide your material into two parts as suggested in our last letter, so that we can include it in our forthcoming report.

Sincerely yours,

  
Harry S. Ladd
