MARIO E. COSENZA  
THE DEAN OF THE FACULTY

My dear Mrs. Kober: I take pleasure in sending you a circular letter which describes briefly a cooperative scholarly project. From the first paragraph you will see that it has already received the approval of three important groups of American scholars. This is the project of which I have already spoken to you. We are now selecting and extending invitations to other scholars? Will you join us? Please read the letter carefully, and then select one or more authors upon whom you will work. When you let me know, I shall communicate with the other members of the Editorial Board. This work will serve to balance the African research upon which you are now engaged.

How are you? I am sure you are enjoying your sabbatical leave to the utmost.

Sincerely yours  
M. E. Cosenza
