

AGRICULTURAL AND MECHANICAL COLLEGE OF TEXAS

COLLEGE STATION, TEXAS

DEPARTMENT OF GEOLOGY

Box 306

McAllen, Tex
Aug 6, 1933

Dear Stenzel:

I have your letter and am glad you are enjoying yourself. I presume by staying at home you mean at Austin. There is really nothing to do at the department until after the 1st of September as Phil Norton is looking after the furniture etc. If you go to College before the 1st you might tell Norton you will help him any way you can. I doubt if the lights and other things will be ready so there is little we can do.

One thing I want you to be sure to do. Have a memorandum of the total amount of prepaid freight you have sent in, waiting for me at college by the 21st of August. I will be able to pay most or all of it from the present appropriation. Also when you get back to Texas let me know where you are so I can get in touch with you. Mueller was supposed to write me concerning the assistantship offered him but I have not heard from him.

There is no news on the salary budget but it appears there is no change in the prospect in regard to 75% cuts. McAdams & Mueller will be assistants in the department and there may be another graduate student from the U. of Texas.

Another thing, be thinking over an outline for geology 419-420 (new combined course) in case I decide to assign you to the whole course. If I do this I will need a written outline to discuss with you before school begins.

Regards
J. L.
