Prof. Emmett Bennett  
1978 Yale Station  
New Haven, Conn.

Dear Emmett :

Your letter of May 16 is saddening to us in that it represents substantially the end of <sup>the</sup> last vestige of what had been a fine dream. For us, at least, I mean. But the dream does seem to be over, for I had a letter also last week containing what must be considered the ultimate negative from our imagined source of money. So if we start work again, it will be on a wholly new edifice with entirely new material

As for your side of the picture, it looks pretty good to me. I have heard that Texas is ambitious, and what is more has the wherewithal to develop its ambitions. At least the quid-pro-rank is better than here. I should think you might feel well pleased indeed.

In any case we do wish you the best of all possible luck - you and all of yours. Let us know how things work out -

Very sincerely

*Bob Sermon*
