We then request the authorities to follow up this issue without delay because if this continues and this person continues to operate the same way, the Inyenzi are going to capture even Gisenyi, Kibuye, Gikongoro, Butare and Cyangugu.

This is being said by the inhabitants who return to their homes from Gitarama. It is still too early for us to disclose the name of this colonel, but we will eventually do so.

For us, it is unimaginable that a Hutu continues to betray another Hutu. As for a Tutsi Inyenzi, we have known this for a long time. They [Tutsis] have been Inyenzi ever since before. We know that even for the attacks that Tutsis launched against Rwanda during 1960, 1963, and 1967 there never was any cease-fire. The Inyenzi resumed the war on 1st October 1990, but it is the same war that continued. They are the same Inyenzi, the same Tutsi Inyenzi.
