Houston, Texas

Dear Mr. Stenzel:

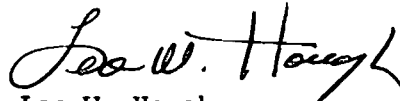

We are preparing for publication a paper entitled "Cenozoic Cyclic Deposition in the Subsurface of Central Louisiana" by Dr. Louis H. Dixon. The research for this article was sponsored by the Louisiana Geological Survey and was used by Dr. Dixon as a Ph.D. dissertation at L. S. U. last Summer.

In this dissertation he used the illustration, from your paper published by the University of Texas, Bureau of Economic Geology, Bulletin No. 5704, of Creola Bluff near Montgomery, Grant Parish, Louisiana with some modification. We would like to use this same illustration in our publication and would like to have your permission. Enclosed is a photo copy showing the modification which Dr. Dixon made.

Thank you very much.

Yours very truly,

LOUISIANA GEOLOGICAL SURVEY
