

March 12, 1963

Mr. John P. Burch  
4206 Halldale Avenue  
Los Angeles 62, California

Dear Mr. Burch:

Would it be possible for you to assemble a set of reprints of papers on the subject of oysters (Ostreidae), fossil and living? Any papers, not necessarily exclusively concerned with oysters, would be of interest to me. What I have in mind is a set similar to those listed in your List 537, p. 10.

Please send me the following from your List 537:

Powell, Shells of New Zealand, 1962 Edition	\$ 4.00
MacPherson & Gabriel, Marine Molluscs of Victoria	12.00
Bolitho, The Glorious Oyster	4.50
Morton, Mollusca, paper bound	1.40
Spry, Sea Shells of Dar-es-Salam	1.50

If you have a copy, please send me Proceedings Malacological Society of London, vol. 31, pt. 1.

Very truly yours,

H. B. Stenzel
