Dr. H. B. Stenzel
c/o General Delivery
Centerville, Texas

My dear Stenzel:

This will acknowledge your letter of November 27. I am glad that you will talk on the Llano region. So far as I can see at the moment, it will not be necessary for you to come in much ahead of time. The arrangements apparently are moving along satisfactorily and you can adjust your coming in to your own convenience and in accordance with the best planning of the work.

Very sincerely yours,

E. H. Sellards, Director
