Dr. H. B. Stenzel
Shell Oil Company
Box 2099
Houston, Texas

Dear Dr. Stenzel:

Work sheets for the geological map of North America have been received for checking against the material sent in from here. You will recall that you supplied information. The material you supplied has been accurately transferred to the new map. However, you may wish to review it. It would not be practical to send down the work sheets but we can send an enlarged colored tracing if you so desire.

Very truly yours,

JOHN T. LONSDALE
Director
