Dr. H. B. Stenzel  
Bureau of Economic Geology  
University of Texas  
Austin 12, Texas

Dear Stenzel:

Hubbert and I, and others in the Company, are very much in your debt for the loan of the five enclosed Hans Cloos' articles. The photostats are in Exploration's library, and I hope to add the Kunstliche Gebirge I, as I have written the Department of Agriculture library for it.

Maybe one of these days I can get back to work on Geologic Structure in the Gulf Coast Province. Right now I'm snowed under with much new to me field data.

I was sorry to miss the Dallas meeting. Did our discussion group function, as at Denver?

With best wishes,

Sincerely yours,

  
J. M. Bugbee
