Dr. H. B. Stenzel  
3726 Colquitt  
Houston, Texas

Dear Dr. Stenzel:

I was in Houston Wednesday for another one of the Resource Committee meetings but did not get to telephone to see how you are getting along. I have had a letter from Krause giving a list of possible recipients of Publication 5704, and I think we can send a copy to all of these names since the number is not too large.

However, I think you should take a look at the list if you feel like it and perhaps star any that you particularly would like a note written to. We could word it something to the effect that the copy is sent with the compliments of the three authors.

I hate to bother you about this, but certainly ones like <sup>Mrs.</sup> Palmer and Mr. <sup>1</sup>Richardson should be sent a copy very soon.

I am enclosing a carbon of this note and list if you feel inclined to jot down any reply at this time. I may say that a number of the publications have been sold and we have had some nice comments on the appearance.

Very truly yours,

  
JOHN T. LONSDALE  
Director
