Dr. A. S. Romer
Museum of Comparative Zoology
Cambridge 38, Massachusetts

Dear Doctor Romer:

I hope you received my telegram in time so that I may not have tried your patience too much. The reason the telegram was sent is that in the meantime a friend of mine received a letter from Mr. Cadmalader stating that the Academy was not in a financial position to add to the scientific staff. This reply seems to close the door for the present. I apologize for having taking up your time and thank you for your patience.

With best regards.

Sincerely yours,

H. B. Stenzel
