Dear Emmett,

it's good to hear from you! How was Israel? Tom should be back and teaching already. I am glad that you have found at least one person on campus who understands your computer needs. If you have the most recent Eudora, can you now read attachments? I am a bit surprised that you did not get an external CD disc port, unless your Compaq had a hole for one already. What are the Cincinnati CDs like in terms of quality? Did Jon Wallrodt put on McDonald's 1939 notebook?

I will ask Tom too, but do you know anything about Jose Melena's timetable for visiting the US? Is he actually coming? He said (or wrote) in passing that he was planning on coming to Cincinnati for a weekend. I would like to meet him, to understand what he is looking for in Cincinnati, and find out how his end of the project is going and will go on. What are your travel plans for fall and winter? You are most welcome in Athens at any time of the year, of course. We have had a very dry summer, terrible for annual crops, but really good for fruit trees and grapevines. It has been nice, though, to mow the lawn without getting eaten alive by mosquitos.

Ruth
