Dr. H. B. Stenzel
Shell Development Company
3737 Bellaire Boulevard
Houston, Texas

Dear Dr. Stenzel:

Dr. Alan Scott and I are running a seminar course in Paleogeology this semester. We would like to pay you a visit in Houston some time soon, preferably a Saturday, and get some localities in the Cook Mountain, and other Tertiary formations to take the class to. What time would be most convenient for you? We are looking for localities which will be fossiliferous enough to do some species diversity counts and would like several at approximately the same "level" so as to have a chance to find differences which may be related to different conditions.

Hope to see you soon.

Sincerely yours,

Ernest L. Lundelius
